INTELLECTUAL PROPERTY SECURITY AGREEMENT

This INTELLECTUAL PROPERTY SECURITY AGREEMENT (“**IP Security Agreement**”), dated as of March 14, 2016, is by Biosynthetic Technologies, LLC, a Montana limited liability company (the “**Borrower**”), in favor of Evonik Oil Additives USA, Inc., a Texas corporation (the “**Secured Party**”).

WHEREAS, the Borrower has entered into that certain Convertible Note Purchase Agreement, dated as of the date hereof, with the Secured Party, pursuant to which the Secured Party has agreed to purchase a Note (the “**Initial Note**”) and may, in the future and at the Secured Party’s discretion, purchase one or more additional Notes (collectively, together with the Initial Note, the “**Convertible Notes**”);

WHEREAS, as a condition precedent to the purchase of the Initial Note by the Secured Party pursuant to the Purchase Agreement, the Borrower has executed and delivered to the Secured Party that certain Security Agreement, dated as of the date hereof, by and among Borrower and the Secured Party; and

WHEREAS, under the terms of the Security Agreement, Borrower has granted to the Secured Party a security interest in, among other property, certain intellectual property of Borrower, and Borrower has agreed to execute and deliver this IP Security Agreement, for recording with national, federal and state government authorities, including, but not limited to, the United States Patent and Trademark Office and the United States Copyright Office.

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Borrower agrees with the Agent as follows:

1. Grant of Security. Borrower hereby pledges and grants to the Secured Party a security interest in and to all of the right, title and interest of Borrower in, to and under the following (the “**IP Collateral**”);

(a) the patents and patent applications set forth in Schedule 1 hereto and all reissues, divisions, continuations, continuations-in-part, renewals, extensions and reexaminations thereof and amendments thereto (the “**Patents**”);

(b) the trademark registrations and applications set forth in Schedule 2 hereto, together with the goodwill connected with the use thereof and symbolized thereby and all extensions and renewals thereof (the “**Trademarks**”);

(c) the copyright registrations and applications set forth in Schedule 3 hereto, and all extensions and renewals thereof (the “**Copyrights**”);

(d) all rights of any kind whatsoever of Borrower accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions and otherwise throughout the world;

(e) any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(f) any and all claims and causes of action with respect to any of the foregoing, whether occurring before, on or after the date hereof, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement, dilution, misappropriation, violation, misuse, breach or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

Notwithstanding the foregoing, the IP Collateral does not include (a) any intent-to-use trademarks at all times prior to the first use thereof, whether by the actual use thereof in commerce, the recording of a statement of use with the United States Patent and Trademark Office or otherwise or (b) Borrower's interest in its patent license from the USDA; provided, however, if all of the corporate assets of Borrower are transferred to a third party, the IP Collateral shall automatically, and effective as of the date hereof, include such patent license.

2. Recordation. Borrower authorizes the Commissioner for Patents, the Commissioner for Trademarks and the Register of Copyrights and any other government officials to record and register this IP Security Agreement upon request by the Secured Party.

3. Loan Documents. This IP Security Agreement has been entered into pursuant to and in conjunction with the Security Agreement, which is hereby incorporated by reference. The provisions of the Security Agreement shall supersede and control over any conflicting or inconsistent provision herein. The rights and remedies of the Secured Party with respect to the IP Collateral are as provided by the Convertible Notes, the Security Agreement and related documents, and nothing in this IP Security Agreement shall be deemed to limit such rights and remedies.

4. Execution in Counterparts. This IP Security Agreement may be executed in counterparts (and by different parties hereto in different counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single contract. Delivery of an executed counterpart of a signature page to this IP Security Agreement by facsimile or in electronic (i.e., "pdf" or "tif") format shall be effective as delivery of a manually executed counterpart of this IP Security Agreement.

5. Successors and Assigns. This IP Security Agreement will be binding on and shall inure to the benefit of the parties hereto and their respective successors and assigns.

6. Governing Law. This Agreement shall be governed by and construed under the laws of the State of Delaware as applied to agreements among Delaware residents entered into and to be performed entirely within Delaware.
