INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

This INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT ("IP Assignment Agreement"), dated April 29, 2016, is made by Niteo Products, LLC, a limited liability company organized under the laws of Delaware ("Assignor"), in favor of American Covers, Inc., a Utah corporation ("Assignee").

WHEREAS, Assignee and Assignor have executed and delivered an Asset Purchase Agreement, dated March 3, 2016 (the "Agreement"), pursuant to which Assignee has agreed to purchase certain Conveyed Assets, including certain Intellectual Property Rights; and

WHEREAS, this IP Assignment Agreement is being executed and delivered in order to effect the transfer to Assignee of the Intellectual Property Rights; and

NOW, THEREFORE, in consideration of the premises hereof and the mutual covenants contained in the Agreement, the parties hereby agree as follows:

1. Except for terms specifically defined herein, the capitalized terms used in this IP Assignment Agreement shall have the same meanings as capitalized terms used in the Agreement.
2. Assignment. Assignor hereby irrevocably conveys, transfers and assigns to Assignee and Assignee hereby accepts, the following intellectual property rights related exclusively to the Business: (a) those patents and patent applications (including reissues, provisional, divisions, continuations, continuations-in-part, reexaminations and extensions thereof (U.S. and foreign)) listed on Exhibit A of this IP Assignment Agreement, (b) those domain names, trade names, trademarks, service marks, logos and trade dress (including any unregistered common law names or marks, issued registrations or pending applications (U.S. and foreign) for such domain names, trade names, trademarks, service marks, logos and trade dress, applications therefor, and all renewals, modifications and extensions thereof) together with the goodwill connected with the use of and symbolized by such domain names, trade names, trademarks, service marks, and trade dress, in each case set forth on Exhibit A of this IP Assignment Agreement, (c) all copyrights, whether or not registered or registrable, for any works of authorship, expressions, designs, used exclusively in the Business and listed on Exhibit A of this IP Assignment Agreement, (d) all trade secrets, formulations (including the formulations subject of the Niteo Intellectual Property License), processes, procedures, techniques, technical information, specifications, operating and maintenance manuals, drawings, software, technical data, databases, discoveries, works of authorship, designs, technology, rights in research and development, inventions for which patents have not been issued or applied, modifications, extensions, improvements and other confidential or proprietary information, in each case that relate exclusively to the Business (the formulations for Eagle One retail products that relate exclusively to the Business or have been

agreed to be Conveyed Assets hereunder are set forth on Exhibit A of this IP Assignment Agreement), and (e) all Contracts listed in Exhibit A of this IP Assignment Agreement that relate to the foregoing subsections (a) through (d) and are exclusively used in the Business.

3. Recordation and Further Actions. Assignor shall cooperate in good faith with Assignee to execute any further documents as may be requested by Assignee to perfect Assignee's title in the Intellectual Property Rights, including but not limited to executing additional assignment, renewal, and consent documents as necessary to meet the requirements of the patent and trademark offices in the various jurisdictions, as well as to assist Assignee in the filing and prosecution of any application for trademark, copyright or patent. To the extent that Assignor has any patent, trademark or copyright applications or registrations, Assignor authorizes and requests any official throughout the world whose duty it is to register and record ownership in intellectual property rights to record Assignee as the assignee of such applications and registrations. To the extent Assignee is unable for any reason to obtain Assignor's cooperation and assistance with respect to the foregoing, Assignor hereby irrevocably appoints Assignee and Assignee's attorneys as Assignor's attorney-in-fact to take all corresponding actions and sign all documents on behalf of Assignor.

4. Counterparts. This IP Assignment Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same agreement. A signed copy of this IP Assignment Agreement delivered by facsimile, e-mail or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this IP Assignment Agreement.

5. Successors and Assigns. This IP Assignment Agreement shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.

6. Governing Law. This IP Assignment Agreement and any claim, controversy, dispute or cause of action (whether in contract, tort or otherwise) based upon, arising out of or relating to this IP Assignment Agreement and the transactions contemplated hereby shall be governed by, and construed in accordance with, the laws of the United States and the State of Delaware, without giving effect to any choice or conflict of law provision or rule (whether of the State of Delaware or any other jurisdiction).
