**TRADEMARK ASSIGNMENT**

This TRADEMARK ASSIGNMENT, dated as of June 6, 2016, by and between the General Electric Company a New York corporation, having a place of business at 1 River Road Schenectady, New York 12345 United States of America ("Assignor"), and Haier US Appliance Solutions, Inc., a Delaware corporation, having a place of business at Corporation Trust Center, 1209 Orange Street, Wilmington, DE 19801, United States of America ("Assignee"). Capitalized terms used herein but not defined otherwise shall have the meaning ascribed to such terms in the Purchase Agreement (as defined below).

WHEREAS, Assignor, Qingdao Haier Co., Ltd., a limited company under the laws of the People's Republic of China ("Acquiror"), and, solely with respect to Section 11.20 thereto, each of Haier Shareholdings (Hong Kong) Limited, a limited liability company incorporated under the laws of Hong Kong Special Administrative Region, and Haier America Company, L.L.C., a Delaware limited liability company, are parties to that certain Stock and Asset Purchase Agreement dated January 14, 2016 (the "Purchase Agreement"), pursuant to which Acquiror (or one or more Designated Purchasers) agreed to purchase the Transferred Assets;

WHEREAS, the Assignor is the owner of the trademarks, trademark registrations and applications for trademark registration, each as set forth on Schedule A hereto (collectively, the "Trademarks"); and

WHEREAS, Assignee desires to purchase and take assignment of all of the Assignor's rights, titles and interests in and to the Trademarks, and the goodwill of the business symbolized thereby.

NOW THEREFORE, for the consideration stated in the Purchase Agreement, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Effective as of the date hereof, the Assignor sells, transfers, conveys, assigns and delivers to Assignee and Assignee accepts all right, title and interest of the Assignor in and to: (i) the Trademarks set forth in Schedule A hereto, together with all goodwill associated therewith, and any and all common law rights thereof; (ii) all reissues, extensions and renewals of any such application, registration and filing; (iii) all income, royalties, damages, claims, and payments now or hereafter due or payable under and with respect thereto, including, without limitation, damages, claims, and payments for past and future infringements thereof; (iv) all rights to sue for past, present, and future infringements or misappropriations of the foregoing, including the right to settle suits involving claims and demands for royalties owing; (v) all rights corresponding to any of the foregoing throughout the world; and (vi) the right to assign the rights conveyed herein, the same to be held and enjoyed by Assignee for its own use and benefit, and for the benefit of its successors, assigns, and legal representatives; provided that, with respect to any United States intent-to-use trademark applications set forth on Schedule A hereto, the transfer of such applications accompanies, pursuant to the Purchase Agreement, the transfer of Assignor's business, or portion of the business, to which the trademark pertains, and that business is ongoing and existing.

2. The Assignor authorizes and requests the Commissioner of the United States Patent and Trademark Office, and any official of any country or countries foreign to the United States, whose duty is to issue trademark registrations or other evidence or forms of intellectual property protection on applications as aforesaid, to issue the same to the Assignee, its successors, legal representatives and assigns, in accordance with the terms of this Trademark Assignment.

3. Except as expressly provided in the Purchase Agreement, the Assignor makes no warranties, express or implied, with respect to the Trademarks.

4. Notwithstanding anything to the contrary in this Trademark Assignment, Assignee and its successors and assigns shall take hereunder such right, title and interest in said Trademarks subject to any outstanding licenses, options to acquire licenses, or other rights existing in third parties prior to the effective date of this Trademark Assignment.

5. This Trademark Assignment may be executed in one or more counterparts, each of which when executed shall be deemed to be an original but all of which taken together shall constitute one and the same agreement. Delivery of an executed counterpart of a signature page to this Trademark Assignment by electronic mail or facsimile shall be as effective as delivery of a manually executed counterpart of this Trademark Assignment. The Assignor hereby authorizes the division by Assignee of the information provided in Schedule A in order to facilitate the conveyance, transfer and assignment, consolidation, vesting, and recording in Assignee of full ownership of the Trademarks on a jurisdiction by jurisdiction basis.

6. No provision of this Trademark Assignment may be amended, supplemented or modified except by a written instrument making specific reference hereto signed by all the parties.

7. This Trademark Assignment (and any causes of action, Actions, controversies or disputes that may be based upon, arise out of or relate hereto or thereto, to the transactions contemplated hereby, to the negotiation, execution or performance hereof or thereof, or to the inducement of any party to enter herein and therein, whether for breach of contract, tortious conduct or otherwise and whether predicated on common law, statute or otherwise) shall in all respects be governed by, and construed and enforced in accordance with, the Laws of the State of New York, including all matters of construction, validity and performance, in each case without reference to any conflict of Law rules that might lead to the application of the Laws of any other jurisdiction and without the requirement to establish commercial nexus in New York County.

8. The Assignor and Assignee agree that any Dispute with respect to this Trademark Assignment that is not required to be resolved by arbitration in accordance with the terms of Section 11.11 of the Purchase Agreement shall be resolved, only in the Courts of the State of New York sitting in the County of New York or the United States District Court for the Southern District of New York and the appellate courts having jurisdiction of appeals in such courts. In that context, and without limiting the generality of the foregoing, both the Assignor and Assignee by this Trademark Assignment irrevocably and unconditionally: (i) submits for itself and its property in any Action relating to this Trademark Assignment, or for recognition

and enforcement of any judgment in respect thereof, to the exclusive jurisdiction of the Courts of the State of New York sitting in the County of New York, the United States District Court for the Southern District of New York, and appellate courts having jurisdiction of appeals from any of the foregoing, and agrees that all claims in respect of any such Action shall be heard and determined in such New York State court or, to the extent permitted by Law, in such federal court; (ii) consents that any such Action may and shall be brought in such courts and waives any objection that it may now or hereafter have to the venue or jurisdiction of any such Action in any such court or that such Action was brought in an inconvenient court and agrees not to plead or claim the same; (iii) agrees that service of process in any such Action may be effected by mailing a copy of such process by registered or certified mail (or any substantially similar form of mail), postage prepaid, to such party at its address as provided in Section 11.03 of the Purchase Agreement; and (iv) agrees that nothing in this Trademark Assignment shall affect the right to effect service of process in any other manner permitted by the Laws of the State of New York.
