AFFIDAVIT OF AMY WINSLOW

The undersigned, Amy Winslow, the President of Magellan Diagnostics, Inc. formerly known as Magellan Biosciences Point-Of-Care, Inc. and ESA Biosciences, Inc. (the "Company"), after first being duly cautioned and sworn, states as follows:

1. On April 26, 2010, Jennifer C. Evans recorded an Assignment of Intellectual Property dated as of September 21, 2009 between ESA Biosciences, Inc., ESA Laboratories, Inc., ESA International, Inc., and ESA Analytical Limited as Assignors and Broadfield I B.V. and Dionex as Assignees (the "Incorrect Assignment"), a copy of which is attached as Exhibit A.

2. The Incorrect Assignment purported to assign ownership of U.S. Trademark Registration No. 1,072,470 for METEXCHANGE (the "Trademark") from ESA Biosciences, Inc. to Dionex Corporation.

3. The parties to the Incorrect Assignment never intended for ownership of the Trademark to transfer to Dionex Corporation and the parties authorized Jennifer C. Evans to record a corrective assignment against the Trademark (the "Corrective Assignment"), a copy of which is attached as Exhibit B.

4. The Corrective Assignment was never recorded against the Trademark.

5. The Company still owns the Trademark and wishes for this Affidavit and a new corrective assignment to be recorded against the Trademark to confirm that the Incorrect Assignment never transferred ownership of the Trademark to Dionex Corporation.

[Signature Page Follows]

Amy Winslow
President

STATE OF MA

COUNTY OF Middlesex

On this 24th day of March, 2016, before me, a Notary Public in and for the County of Middlesex in the State of MA, personally appeared Amy Winslow, and being duly sworn, averred that, being duly authorized, (s)he executed the foregoing letter as a free act for the uses and purposes set forth.

NOTARY PUBLIC

ASSIGNMENT OF INTELLECTUAL PROPERTY

This Assignment of Intellectual Property is made as of September 21, 2009 (the "Effective Date"), by each of ESA Biosciences, Inc., a Delaware corporation ("ESA Biosciences"), ESA Laboratories, Inc. and ESA International, Inc., each a Massachusetts corporation and wholly-owned subsidiary of ESA Biosciences, and ESA Analytical Limited, a UK company and wholly-owned subsidiary of ESA Biosciences (collectively, "Assignors"), on the one hand, to Broad Field I B.V. ("Assignee"), a Netherlands company and a wholly-owned subsidiary of Dionex Corporation, on the other hand.

WITNESSETH

WHEREAS, Assignors have adopted and used and are using, and are the owners of the entire and exclusive right, title and interest worldwide in, to and under the patents, trademarks, service marks, copyrights, internet domain names and websites owned by Assignors, whether registered or unregistered, together with the goodwill of the business appurtenant to and symbolized by said patents, trademarks, service marks, copyrights, internet domain names and websites, and all federal and state registrations and applications therefor, in the United States and all other countries, and all rights in and to any and all causes of action heretofore or hereafter accrued or accruing for infringement or dilution or threatened or alleged infringement or dilution of the patents, trademarks, service marks, copyrights, internet domain names or websites, including, without limitation, the registered patents, trademarks, service marks, copyrights, internet domain names and websites listed on Schedule A attached hereto, all hereinafter collectively referred to as the "IP;"

WHEREAS, pursuant to an Asset Purchase Agreement dated as of September 15, 2009 by and among Assignors and Assignee (the "Purchase Agreement"), Assignee is acquiring from Assignors the entire right, title and interest in, to and under the IP; and

WHEREAS Assignors desire to transfer and assign to Assignee, and Assignee desires to accept the transfer and assignment of, all of Assignors' worldwide right, title and interest in, to and under the IP;

NOW, THEREFORE,

In exchange for the good and valuable consideration set forth in the Purchase Agreement, the receipt and sufficiency of which is hereby acknowledged by Assignors, Assignors hereby sell, assign, and transfer to Assignee, its successors and assigns, the entire and exclusive right, title and interest worldwide in, to, and under the IP, together with the goodwill of the business appurtenant to and symbolized by the IP and all federal and state registrations and applications therefor, in the United States and all other countries, to be held and enjoyed by Assignee for its own use and enjoyment, and for the use and enjoyment of its successors and assigns, as fully and entirely as the same would have been held and enjoyed by Assignors if this assignment and sale had not been made, and together with all claims for damages by reason of past infringement or dilution of the IP, all rights in and to any and all causes of action heretofore or hereafter accrued or accruing for infringement or dilution or threatened or alleged infringement or dilution of the

IP, with the right to sue for and collect on such claims for its own use and enjoyment, and for the use and enjoyment of its successors and assigns.

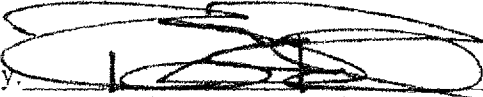

Assignors, as owners of the entire right, title and interest in and to the IP, hereby authorize and request the United States Patent and Trademark Office, or other proper governmental authority, to issue to Assignee, its successors and assigns, all IP and other rights included within the IP or issuing therefrom.

Assignors agree to take all actions requested by Assignee for purposes of perfecting or otherwise evidencing Assignee's ownership of the IP and all registrations therefor.

[Remainder of page intentionally left blank.]

IN WITNESS WHEREOF, Assignors have caused this Assignment of Intellectual Property to be signed by their duly authorized officers effective as of the date first written above.

ASSIGNMENT OF INTELLECTUAL PROPERTY

This Assignment of Intellectual Property is made as of September 21, 2009 (the "Effective Date"), by each of ESA Biosciences, Inc., a Delaware corporation ("ESA Biosciences"), ESA Laboratories, Inc. and ESA International, Inc., each a Massachusetts corporation and wholly-owned subsidiary of ESA Biosciences, and ESA Analytical Limited, a UK company and wholly-owned subsidiary of ESA Biosciences (collectively, "Assignors"), on the one hand, to Dionex Corporation, a Delaware corporation ("Assignee"), on the other hand.

WITNESSETH

WHEREAS, Assignors have adopted and used and are using, and are the owners of the entire and exclusive right, title and interest worldwide in, to and under the patents, trademarks, service marks, copyrights, internet domain names and websites owned by Assignors, whether registered or unregistered, together with the goodwill of the business appurtenant to and symbolized by said patents, trademarks, service marks, copyrights, internet domain names and websites, and all federal and state registrations and applications therefor, in the United States and all other countries, and all rights in and to any and all causes of action heretofore or hereafter accrued or accruing for infringement or dilution or threatened or alleged infringement or dilution of the patents, trademarks, service marks, copyrights, internet domain names or websites, including, without limitation, the registered patents, trademarks, service marks, copyrights, internet domain names and websites listed on Schedule A attached hereto, all hereinafter collectively referred to as the "IP;"

WHEREAS, pursuant to an Asset Purchase Agreement dated as of September 15, 2009 by and among Assignors and Assignee (the "Purchase Agreement"), Assignee is acquiring from Assignors the entire right, title and interest in, to and under the IP; and

WHEREAS Assignors desire to transfer and assign to Assignee, and Assignee desires to accept the transfer and assignment of, all of Assignors' worldwide right, title and interest in, to and under the IP;

NOW, THEREFORE,

In exchange for the good and valuable consideration set forth in the Purchase Agreement, the receipt and sufficiency of which is hereby acknowledged by Assignors, Assignors hereby sell, assign, and transfer to Assignee, its successors and assigns, the entire and exclusive right, title and interest worldwide in, to, and under the IP, together with the goodwill of the business appurtenant to and symbolized by the IP and all federal and state registrations and applications therefor, in the United States and all other countries, to be held and enjoyed by Assignee for its own use and enjoyment, and for the use and enjoyment of its successors and assigns, as fully and entirely as the same would have been held and enjoyed by Assignors if this assignment and sale had not been made, and together with all claims for damages by reason of past infringement or dilution of the IP, all rights in and to any and all causes of action heretofore or hereafter accrued or accruing for infringement or dilution or threatened or alleged infringement or dilution of the IP, with the right to sue for and collect on such claims for its own use and enjoyment, and for the use and enjoyment of its successors and assigns.

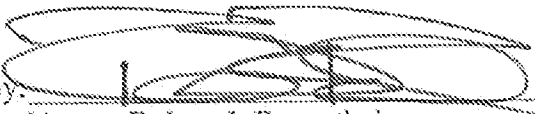

Assignors, as owners of the entire right, title and interest in and to the IP, hereby authorize and request the United States Patent and Trademark Office, or other proper governmental authority, to issue to Assignee, its successors and assigns, all IP and other rights included within the IP or issuing therefrom.

Assignors agree to take all actions requested by Assignee for purposes of perfecting or otherwise evidencing Assignee's ownership of the IP and all registrations therefor.

[Remainder of page intentionally left blank.]

IN WITNESS WHEREOF, Assignors have caused this Assignment of Intellectual Property to be signed by their duly authorized officers effective as of the date first written above.
