TRADEMARK ASSIGNMENT AGREEMENT

This Trademark Assignment Agreement (“Assignment”) is made and effective as of the 19th day of July, 2016 (“Effective Date”) by and between Vogue International LLC, a Delaware limited liability company, (“Assignor”) and Johnson & Johnson Consumer Inc., a New Jersey corporation (“Assignee”) (Assignor and Assignee each a “Party” and collectively referred to as the “Parties”).

Whereas, Assignor owns all right, title and interest in and to the trademarks identified in the attached Schedule A, together with any and all trademark registrations and applications therefor and common law rights of Assignor in the trademarks that are the subject of such registrations and applications (collectively referred to as the “Trademarks”);

Whereas, Assignee desires to acquire from Assignor, and Assignor wishes to transfer to Assignee, all right, title and interest in and to the Trademarks, the trademark goodwill associated with such Trademarks, and all registrations and applications for registration thereof, and the Parties wish to record such acquisition.

Now, therefore, for and in consideration of the mutual covenants contained herein, Assignor and Assignee hereby agree as follows:

1. Assignment of Rights. The Assignor, for good and valuable consideration received, hereby sells, assigns, and transfers to the Assignee, its successors, and assigns, all rights, title, and interests in and to:

- a. the Trademarks, including without limitation all registrations and applications thereof, all registrations which may be granted in respect of such applications, all renewals of such registrations, and all common law rights therein;
- b. the goodwill of the business symbolized by such Trademarks, together with Assignor’s business or that portion thereof to which the Trademarks pertain;
- c. the right to bring suit and recover damages for past, present, and future infringement, dilution, misappropriation, violation, or unlawful imitation of such Trademarks;
- d. the entire right, title, and interest in all convention and treaty rights of all kinds, including without limitation all rights of priority in any country of the world, in and to the above Trademarks; and
- e. all prosecution history files for such Trademark registrations and applications for trademark registration in the possession of Assignor, as well as records, prototypes, specimens, and materials contained in such files.

2. Authorization. Assignor hereby authorizes and requests the competent authorities to record this Assignment and to grant and issue any and all registrations of the Trademarks to Assignee, its successors, or assigns, whose rights, title, and interests in such registrations are the same as would have been held and enjoyed by Assignor had this Assignment not been made.

3. Successors and Assigns. This Assignment will be binding upon and be enforceable against the Assignor and its respective successors and permitted assigns and will inure to the benefit of and be enforceable by the Assignee and its successors and permitted assigns.

4. Governing Law. This Assignment and all disputes arising out of or related to this Assignment, or the performance, enforcement, breach or termination hereof, and any remedies relating thereto, will be construed, governed, interpreted and applied in accordance with the laws of the State of Delaware, without regard to its conflict of laws principles. Any dispute arising from this Assignment will be subject to the exclusive jurisdiction of the federal and state courts having jurisdiction over the state of Delaware, and each Party consents and agrees to the personal jurisdiction of any such court with subject matter jurisdiction in any Action arising from such dispute. Assignor waives any claim that such court lacks jurisdiction over Assignor or constitutes an inconvenient or improper forum.

5. Severability. If, under applicable law or regulation, any provision of this Assignment is invalid or unenforceable, or otherwise directly or indirectly affects the validity of any other material provision(s) of this Assignment (such invalid or unenforceable provision, a "Severed Clause"), this Assignment will endure except for the Severed Clause. The Parties will consult one another and use reasonable efforts to agree upon a valid and enforceable provision that is a reasonable substitute for the Severed Clause in view of the intent of this Assignment.

6. Counterparts. This Assignment may be executed in counterparts, each of which counterparts, when so executed and delivered, will be deemed to be an original, and all of which counterparts, taken together, will constitute one and the same instrument even if both Parties have not executed the same counterpart. Signatures provided by facsimile or electronic transmission will be deemed to be original signatures.

(The remainder of this page has been intentionally left blank. The signature pages follow.)
