## AMENDED AND RESTATED PATENT AND TRADEMARK SECURITY AGREEMENT

THIS AMENDED AND RESTATED PATENT AND TRADEMARK SECURITY AGREEMENT (this "Agreement") dated as of August 1, 2016, is made by NAKOMA PRODUCTS LLC, an Illinois limited liability company (the "Grantor") in favor of THE PRIVATEBANK AND TRUST COMPANY, an Illinois banking corporation (the "Bank").

### RECITALS

A. The Grantor has entered into an Amended and Restated Credit Agreement dated as of the date hereof (as amended, restated, supplemented or otherwise modified from time to time, the "Credit Agreement") with the Bank, pursuant to which the Bank has agreed to make certain credit available to Grantor.

B. Pursuant to the Credit Agreement, the Grantor is required to execute and deliver to the Bank this Agreement.

C. Pursuant to the terms of the Credit Agreement, Grantor has granted to the Bank a security interest in substantially all the assets of the Grantor, including all right, title and interest of the Grantor in, to and under all now owned and hereafter acquired patents, patent applications, patent licenses, trademarks, trademark applications and trademark licenses, and all products and proceeds thereof, to secure the payment of all amounts owing by the Grantor under the Credit Agreement.

In consideration of the mutual agreements set forth herein and in the Credit Agreement, the Grantor does hereby grant to the Bank a continuing security interest in all of Grantor's right, title and interest in, to and under the following, whether presently existing or hereafter created or acquired:

- (1) each trademark and trademark application, including, without limitation, each trademark and trademark application referred to in Schedule 1 annexed hereto, together with any reissues, continuations or extensions thereof and all goodwill associated therewith;
- (2) each trademark license, including, without limitation, each trademark license listed on Schedule 1 annexed hereto, together with all goodwill associated therewith;
- (3) all products and proceeds of the foregoing, including, without limitation, any claim by the Grantor against third parties for past, present or future infringement of any trademark, including, without limitation, any trademark referred to in Schedule 1 annexed hereto, any trademark issued pursuant to a trademark application referred to in Schedule 1 and any trademark licensed under any trademark license listed on Schedule 1 annexed hereto (items 1 through 3 being herein collectively referred to as the "Trademark Collateral");
- (4) each patent and patent application, including, without limitation, each patent and patent application referred to in Schedule 2 annexed hereto, together with any reissues, continuations or extensions thereof and all goodwill associated therewith;

- (5) each patent license, including, without limitation, each patent license listed on Schedule 2 annexed hereto, together with all goodwill associated therewith;
- (6) all products and proceeds of the foregoing, including, without limitation, any claim by the Grantor against third parties for past, present or future infringement of any patent, including, without limitation, any patent referred to in Schedule 2 annexed hereto, any patent issued pursuant to a patent application referred to in Schedule 2 and any patent licensed under any patent license listed on Schedule 2 annexed hereto (items 4 through 6 being herein collectively referred to as the "Patent Collateral").

This security interest is granted in conjunction with the security interests granted to the Bank pursuant to the Credit Agreement. The Grantor hereby acknowledges and affirms that the rights and remedies of the Bank with respect to the security interest in the Trademark Collateral and the Patent Collateral made and granted hereby are more fully set forth in the Credit Agreement and Credit Agreement, the terms and provisions of which are incorporated by this reference as if fully set forth herein. Capitalized terms used but not defined herein have the respective meanings ascribed thereto in the Credit Agreement.

Grantor previously entered that certain Patent and Trademark Security Agreement dated as of January 3, 2011 (the "**Original Security Agreement**") and this Agreement is intended to amend, restate and replace the Original Security Agreement provided, however, that the liens and security interests securing payment of the indebtedness secured by the Original Security Agreement with respect to the Grantor shall be continuing but shall now be governed by the terms of this Agreement and the other Credit Documents.

Notwithstanding anything herein to the contrary, the obligations of Grantor hereunder shall not include any obligation to pay or perform the obligations of another person or entity under any agreement, contract or transaction that constitutes a "swap" within the meaning of Section 1a(47) of the Commodity Exchange Act if and only to the extent that the grant by Grantor of a lien, security interest or other encumbrance to secure, such obligation is or becomes illegal under the Commodity Exchange Act or any rule, regulation or order of the Commodity Futures Trading Commission (or the application or official interpretation thereof) by virtue of Grantor's failure for any reason to constitute an "eligible contract participant" as defined in the Commodity Exchange Act and the regulations thereunder at the time of the grant of such lien, security interest or other encumbrance becomes effective with respect to such obligation.

[signature page follows]

The Grantor has caused this Patent and Trademark Security Agreement to be duly executed by its duly authorized officer thereunto as of the date first set forth above.
