ARTICLE II

PURCHASE AND SALE OF ASSETS

2.01 Agreement to Purchase and Sell. On the terms and subject to the conditions contained in this Agreement, the Purchaser purchases from the Sellers and the Sellers sell to the Purchaser the Purchased Assets.

2.02 Complete Sale. As between the parties hereto, notwithstanding the Purchaser's failure to record this Agreement in the office of any Governmental Entity including, but not limited to, any nation's trademark, copyright or patent office, the purchase effectuated by this Agreement shall be a full and complete purchase such that title to all Purchased Assets vests in the Purchaser.

2.03 Royalties. Any royalties pursuant to or connected with the Purchased Assets due to the Sellers are hereby assigned to the Purchaser, and the parties hereto agree to take any action necessary to ensure that the Purchaser has all rights to such royalties including, but not limited to, assigning any contracts providing for royalties pursuant to or connected with the Purchased Assets.

2.04 Assignment Agreements. As a memorialization of this Agreement and the purchase and assignment of the Purchased Assets from the Sellers to the Purchaser, the parties hereto shall execute the following documents:

- (a) Assignment of Trademarks document in the form of Exhibit A;
- (b) Assignment of Copyrights document in the form of Exhibit B;
- (c) Assignment of Patents document in the form of Exhibit C; and
- (d) Assignment of Unregistered Intellectual Property in the form of Exhibit D.

ARTICLE III

EXCLUDED ASSETS

3.01 No Transfer of Excluded Assets. The Excluded Assets shall not be assigned and are not assigned to Purchaser by this instrument.

3.02 License of Certain Intellectual Property by the Sellers. For a period commencing on the Effective Date and until on or about March 31, 2017, the Purchaser shall grant the Sellers a royalty-free license to use any and all Intellectual Property sold under this Agreement that is currently being used at the Mansfield, MA and Westlock Controls, NJ manufacturing sites. The form of such license shall be mutually agreed upon by the Purchaser and the Sellers.

ARTICLE IV

PURCHASE PRICE

4.01 Purchase Price. The aggregate purchase price for the Purchased Assets (the "Purchase Price") representing the fair market value of the Purchased Assets is set forth on Schedule 4.01. The Purchase Price shall be paid by delivery to the Sellers, as applicable, within 90 days of the Effective Date in a mutually agreed upon form, which may include cash or note or a combination.

4.02 The Purchase Price represents an arm's length amount for the rights to the Purchased Assets.

4.03 The Purchase Price shall be paid in U.S. Dollars. The Purchase Price paid shall be exclusive of taxes.

4.04 For the purpose of permitting the Sellers to audit the Purchase Price, the Purchaser shall, at its expense, keep accurate books of account and records containing necessary documentation for the purpose of substantiating the Purchase Price payable under this Agreement, and for determining which adjustments are required pursuant to Section 4.05 below.

4.05 The Purchase Price is contingent on the productivity of the Purchased Assets. The parties therefore agree that during the five-year period beginning on the Effective Date, the Purchase Price shall be reviewed from time to time, and in any event not less than once during each 12-month period, and shall be adjusted at any time when the total profits actually earned by Purchaser in respect of the Purchased Assets are less than 80% or more than 120% of the prospective profits that were foreseeable as of the Effective Date of this Agreement; provided, however, that no adjustment shall be required if, due to extraordinary events that were beyond the control of the parties and could not reasonably have been anticipated as of the Effective Date of this Agreement, the aggregate actual profits by Purchaser are less than 80% or more than 120% of the prospective profits or cost savings.

4.06 If the Purchase Price is required to be adjusted pursuant to Section 4.05, then (i) the Purchase Price shall be adjusted as appropriate and in a manner consistent with the methodology used to determine the Purchase Price (within 45 calendar days of the date on which the parties first determine that such an adjustment is required) to equal such amount as is mutually agreed upon by the parties to be the actual arm's length amount for the rights to the Purchased Assets, and (ii) the amount of the adjustment shall promptly be paid or refunded, as the case may be, in the manner prescribed in Section 4.03.

4.07 The parties intend that the Purchase Price and adjustment formula set forth in this Article 4 will comply with the principles of Treas. Reg. § 1.482-4(f)(2)(ii)(C).

4.08 The parties have established an arm's length transfer pricing policy, which they believe satisfies the arm's length principles for the transactions under this Agreement. The parties have contemporaneous documentation to support the determination of the arm's length Purchase Price for such transactions. In the event that the local taxing authority of either party proposes an adjustment to the Purchase Price or to any deemed periodic payment under this

Agreement, the parties shall jointly determine how to address the taxing authority's proposal and can, if jointly agreed, make payments necessary to give effect to such determination without waiving each parties' administrative rights with either tax authority.

ARTICLE V

REPRESENTATIONS AND WARRANTIES

5.01 General Statement. The parties make the representations and warranties to each other which are set forth in this Article V.

5.02 Representations and Warranties of the Sellers. The Sellers represent and warrant to the Purchaser as follows:

(f) Non-Contravention. The execution, delivery and performance by each Seller of this Agreement and the consummation by the Seller of the transactions contemplated hereby do not and will not (i) contravene or conflict with such Sellers' organizational documents, (ii) contravene or conflict with or constitute a violation of any provision of any law, rule, regulations, decree, order, writ, judgment, injunction or arbitration award or other restriction of Governmental Entity binding upon or applicable to such Seller, (iii) constitute a breach or default under or give rise to a right of termination, cancellation or acceleration (with or without due notice or lapse of time or both) of any right or obligation of the Seller, or result in the creation or imposition of any liens, security interests, charges or encumbrances on any Purchased Asset.

(g) Infringement. No claims or written notice (i) challenging the validity, effectiveness or ownership by the Sellers of any of the Purchased Assets, or (ii) to the effect that the use, distribution, licensing, sublicensing, sale or any other exercise of rights in any Purchased Assets infringes or will infringe on any intellectual property rights or personal right of any person have been asserted or, to the knowledge of the Sellers, are threatened by any person. Nor are there, to the knowledge of the Sellers, any valid grounds for any bona fide claim of any such kind. To the knowledge of the Sellers, there is and has been no unauthorized use, infringement or misappropriation of any of the Purchased Assets by any third party, employee or former employee.

5.03 The Purchaser represents and warrants to the Sellers as follows:

(a) Corporate Existence and Power. The Purchaser is a corporation duly incorporated, validly existing and in good standing under the laws of Switzerland and has all corporate powers required to carry on its business as now conducted.

The execution, delivery and performance by the Purchaser of this Agreement and the consummation by the Purchaser of the transactions contemplated hereby are within the organizational powers of the Purchaser and have been duly authorized by all necessary organizational action. Assuming that this Agreement constitutes the valid and binding obligation of the Sellers, this Agreement constitutes a valid and binding agreement of the Purchaser, enforceable in accordance with its terms. No vote of the holders of any of the outstanding capital stock of the Purchaser or any other security of the Purchaser under the laws of the state of its incorporation or any other applicable law or regulation, or pursuant to the terms of the certificate of incorporation or by-laws of the Purchaser that has not been obtained, is necessary to approve this Agreement or the transactions contemplated hereby.

(c) Recordation of Agreement. The Purchaser shall have the right, but shall have no obligation, to record this Agreement, and any subsequent or related assignments, transfers or conveyances with any Governmental Entity including, but not limited to, the U.S. Patent and Trademark Office, the United States Copyright Office and/or other offices or other relevant authorities, all which shall occur at the Purchaser's sole expense.

(d) Governmental Authorization. The execution, delivery and performance by the Purchaser of this Agreement and the consummation by the Purchaser of the transactions contemplated hereby require no action by or in respect of, or filing with, any Governmental Entity, other than such consents, approvals, actions, orders, authorizations, registrations,

declarations and filings which, if not obtained or made, would not, individually or in the aggregate, (i) have either a material adverse effect on the business of the Purchaser, or (ii) prevent or materially impair the ability of Purchaser to consummate the transactions contemplated by this Agreement.

(e) Non-Contravention. The execution, delivery and performance by the Purchaser of this Agreement and the consummation by the Purchaser of the transactions contemplated hereby do not and will not (i) materially contravene or conflict with the certificate of incorporation or by-laws of the Purchaser or (ii) contravene or conflict with or constitute a violation of any provision of any law, regulation, judgment, injunction, order or decree binding upon or applicable to the Purchaser (other than any such items that would not, individually or in the aggregate, (1) have a material adverse effect on the business of the Purchaser or (2) prevent or materially impair the ability of the Purchaser to consummate the transactions contemplated by this Agreement.)
