1.11 The Schedules and Exhibits to this Agreement form part of this Agreement.

ARTICLE II

PURCHASE AND SALE OF ASSETS

2.01 Agreement to Purchase and Sell. On the terms and subject to the conditions contained in this Agreement, the Purchaser purchases from the Seller and the Seller sells to the Purchaser the Purchased Assets. For these purposes, the Seller hereby assigns to the Purchaser absolutely all such right, title and interest as it may hold in the Purchased Assets, and the Purchaser accepts the assignment.

2.02 Complete Sale. As between the parties hereto, notwithstanding the Purchaser's failure to record this Agreement in the office of any Governmental Entity including, but not limited to, any nation's trademark, copyright or patent office, the purchase effectuated by

this Agreement shall be a full and complete purchase such that title to all Purchased Assets vests in the Purchaser.

2.03 Royalties. Any royalties pursuant to or connected with the Purchased Assets due to the Seller are hereby assigned to the Purchaser, and the parties hereto agree to take any action necessary to ensure that the Purchaser has all rights to such royalties including, but not limited to, assigning any contracts providing for royalties pursuant to or connected with the Purchased Assets.

ARTICLE III

EXCLUDED ASSETS

3.01 No Transfer of Excluded Assets. The Excluded Assets shall not be assigned and are not assigned to Purchaser by this instrument.

ARTICLE IV

PURCHASE PRICE

4.01 Purchase Price. The aggregate purchase price for the Purchased Assets (the "Purchase Price") representing the value of the Purchased Assets is set forth on **Schedule 4.01**. The Purchase Price shall be paid by delivery to the Seller, as applicable, within 90 days of the Effective Date in cash.

4.02 The Purchase Price represents an arm's length amount for the rights to the Purchased Assets.

4.03 The Purchase Price shall be paid in United States Dollars (USD). The Purchase Price paid shall be exclusive of taxes.

4.04 For the purpose of permitting the Seller to audit the Purchase Price, the Purchaser shall, at its expense, keep accurate books of account and records containing necessary documentation for the purpose of substantiating the Purchase Price payable under this Agreement.

4.05 In the event that the local taxing authority of either party proposes an adjustment to the Purchase Price or to any deemed periodic payment under this Agreement, the parties shall jointly determine how to address the taxing authority's proposal and can, if jointly agreed, make payments necessary to give effect to such determination without waiving each parties' administrative rights with either tax authority.

ARTICLE V

REPRESENTATIONS AND WARRANTIES

5.01 General Statement. The parties make the representations and warranties to each other which are set forth in this Article V.

5.02 Representations and Warranties of the Seller. The Seller represents and warrants to the Purchaser as follows:

(a) Existence and Power. Each Seller is duly formed, validly existing and in good standing under the laws of the jurisdiction of its formation, and has all corporate powers required to carry on its business as now conducted.

(b) Title to Intellectual Property. Each Seller believes it is owner of its Purchased Assets and such ownership can legally be transferred to the Purchaser. Notwithstanding and without limiting the foregoing, the records of any Governmental Entity may not reflect the Seller's legal ownership of any or all of the Purchased Assets because the Seller has not recorded such ownership with the Governmental Entity.

(c) Further Acts. Without additional consideration, the Seller, and any affiliates, subsidiaries, directors, employees, successors or assigns, shall duly execute and deliver, or cause to be duly executed and delivered, such further instruments and do and cause to be done such further acts and things, including the filing of such assignments, agreements, documents and instruments, as may be necessary or as the Purchaser may reasonably request in order to fulfill the purposes and intent of this Agreement including, but not limited to, doing and causing any action to be done to record the Purchaser as owner of any and/or all the Purchased Assets in any Governmental Entity.

(d) Seller's Authorizations. The execution, delivery and performance by the Seller of this Agreement and the consummation by the Seller of the transactions contemplated hereby are within its organizational powers and have been duly authorized by all necessary or appropriate organizational action, and no other proceedings are necessary to authorize this Agreement or to consummate the transactions contemplated by the Agreement. Assuming that this Agreement constitutes the valid and binding obligation of the Purchaser, this Agreement constitutes a valid and binding agreement of the Seller, enforceable against the Seller in accordance with its terms.

(e) Governmental Authorization. The execution, delivery and performance by the Seller of this Agreement and the consummation by the Seller of the transactions contemplated hereby require no action by or in respect of, or filing with, any Governmental Entity.

(f) Non-Contravention. The execution, delivery and performance by each Seller of this Agreement and the consummation by the Seller of the transactions contemplated hereby do not and will not (i) contravene or conflict with such Seller's organizational documents, (ii) contravene or conflict with or constitute a violation of any provision of any law, rule, regulations, decree, order, writ, judgment, injunction or arbitration award or other restriction of Governmental Entity binding upon or applicable to such Seller, (iii) constitute a breach or default under or give rise to a right of termination, cancellation or acceleration (with or without due notice or lapse of time or both) of any right or obligation of the Seller, or result in the creation or imposition of any liens, security interests, charges or encumbrances on any Purchased Asset.

(g) Infringement. No claims or written notice (i) challenging the validity, effectiveness or ownership by the Seller of any of the Purchased Assets, or (ii) to the effect that the use, distribution, licensing, sublicensing, sale or any other exercise of rights in any Purchased Assets infringes or will infringe on any intellectual property rights or personal right of any person have been asserted or, to the knowledge of the Seller, are threatened by any person. Nor are there, to the knowledge of the Seller, any valid grounds for any bona fide claim of any such kind. To the knowledge of the Seller, there is and has been no unauthorized use, infringement or misappropriation of any of the Purchased Assets by any third party, employee or former employee.

5.03 The Purchaser represents and warrants to the Seller as follows:

(a) Corporate Existence and Power. The Purchaser is a corporation duly incorporated, validly existing and in good standing under the laws of Switzerland and has all corporate powers required to carry on its business as now conducted.

(b) Authorization; Approvals. The execution, delivery and performance by the Purchaser of this Agreement and the consummation by the Purchaser of the transactions contemplated hereby are within the organizational powers of the Purchaser and have been duly authorized by all necessary organizational action. Assuming that this Agreement constitutes the valid and binding obligation of the Seller, this Agreement constitutes a valid and binding agreement of the Purchaser, enforceable in accordance with its terms. No vote of the holders of any of the outstanding capital stock of the Purchaser or any other security of the Purchaser under the laws of the state of its incorporation or any other applicable law or regulation, or pursuant to the terms of the certificate of incorporation or by-laws of the Purchaser that has not been obtained, is necessary to approve this Agreement or the transactions contemplated hereby.

(c) Recordation of Agreement. The Purchaser shall have the right, but shall have no obligation, to record this Agreement, and any subsequent or related assignments, transfers or conveyances with any Governmental Entity, all which shall occur at the Purchaser's sole expense.

(d) Governmental Authorization. The execution, delivery and performance by the Purchaser of this Agreement and the consummation by the Purchaser of the transactions contemplated hereby require no action by or in respect of, or filing with, any Governmental Entity, other than such consents, approvals, actions, orders, authorizations, registrations, declarations and filings which, if not obtained or made, would not, individually or in the aggregate, (i) have either a material adverse effect on the business of the Purchaser, or (ii) prevent or materially impair the ability of Purchaser to consummate the transactions contemplated by this Agreement.

(e) Non-Contravention. The execution, delivery and performance by the Purchaser of this Agreement and the consummation by the Purchaser of the transactions contemplated hereby do not and will not (i) materially contravene or conflict with the certificate of incorporation or by-laws of the Purchaser or (ii) contravene or conflict with or constitute a violation of any provision of any law, regulation, judgment, injunction, order or decree binding upon or applicable to the Purchaser (other than any such items that would not, individually or in

the aggregate, (1) have a material adverse effect on the business of the Purchaser or (2) prevent or materially impair the ability of the Purchaser to consummate the transactions contemplated by this Agreement.)

5.04 No further representations or warranties. Other than the representations and warranties in this Article V, the parties make no representations or warranties.

5.05 Remedies. The exclusive remedy for any misrepresentation or breach of warranty set forth in Article V shall be damages. In particular, the parties waive: (a) any and all rights pursuant to sections 192 et seq. and 197 et seq. of the Swiss Code of Obligations (incl., for the avoidance of doubt, section 205 (*Minderung/Wandlung*)) and any other rights of a similar nature and (b) the right of contract rescission under sections 24 or 205 or any other section of the Swiss Code of Obligations or otherwise.

5.06 Procedure for Third Party Claims. In case of any claim brought or threatened by a third party, including claims brought by any public authority, against one party (such party the "Indemnified Party") which is subject to an obligation of indemnification by the other party under this Agreement, the Indemnified Party shall give the other party notice of the third party claim or proceeding within reasonable time. Failure to give such notice shall not, however, affect the Indemnified Party's right to indemnification except to the extent the other party is prejudiced by such failure. The other party shall then have 20 business days after receipt of notice to notify the Indemnified Party that it elects to conduct and control the defence of such third party claims (the "Notice of Defence"). If the other party does not give a Notice of Defence, the Indemnified Party shall have the right to defend or settle such claim or proceeding in its exclusive discretion and the other Party shall, upon request from the Indemnified Party, promptly indemnify the Indemnified Party.

ARTICLE VI
