WITNESSETH:

WHEREAS, pursuant to the Senior Term Facilities Agreement dated as of October 25, 2016 (as the same may be amended, restated, supplemented or otherwise modified from time to time, the "Credit Agreement") by and among Afa Dispensing Group B.V., (the "Company"), the subsidiaries of the Company party thereto as original borrowers (the "Original Borrowers"), the subsidiaries of the Company party thereto as original guarantors (the "Original Guarantors"), and the Secured Party, the Secured Party has agreed to make extensions of credit to the Borrowers upon the terms and subject to the conditions set forth therein;

WHEREAS, Grantor and each other Obligor (as defined in the Credit Agreement) has agreed, pursuant to that certain Omnibus Deed of Pledge of even date herewith in favor of Secured Party (as such agreement may be amended, restated, supplemented or otherwise modified from time to time, the "Security Agreement"), to guarantee the Secured Obligations (as defined in the Security Agreement); and

WHEREAS, as a condition to the Secured Party's extension of credit under the Finance Documents, the Grantor is required to execute and deliver this Agreement and grant the security interests hereinafter described.

NOW, THEREFORE, in consideration of the premises and to induce the Secured Party to enter into the Credit Agreement and the other Finance Documents and to induce the Secured Party to make extensions of credit to the Borrower thereunder, Grantor hereby agrees with Secured Party as follows:

Section 1. Defined Terms. Capitalized terms used herein without definition are used as defined in the Security Agreement. "UCC" shall mean the Uniform Commercial Code, as in effect from time to time, of the State of New York or of any other state the laws of which are required as a result thereof to be applied in connection with the attachment, perfection or priority of, or remedies with respect to, Secured Party's lien on the IP Collateral.

Section 2. Grant of Security Interest in IP Collateral. The Grantor, as collateral security for the prompt and complete payment and performance when due (whether at stated maturity, by acceleration or otherwise) of the Secured Obligations, hereby mortgages, pledges and hypothecates to the Secured Party, and grants to Secured Party a Security (as defined in the Credit Agreement) on and security interest in, all of its right, title and interest in, to and under the following Collateral of Grantor (collectively, the "IP Collateral"):

(a) all of its right, title, and interest in and to the following: (i) all trademarks (including service marks), trade names, trade dress, and trade styles and the registrations and applications for registration thereof, including, without limitation, the Trade Marks, as defined in the Security Agreement, and those set forth on Schedule 1 hereto, together with the goodwill connected with the use thereof and symbolized thereby and all extensions and renewals thereof; (ii) all licenses of the foregoing, whether as licensee or licensor; (iii) all renewals of the foregoing; (iv) all income, royalties, damages, and payments now or hereafter due or payable with respect thereto, including, without limitation, damages, claims, and payments for past and future infringements thereof; (v) all rights to sue for past, present, and future infringements of the foregoing, including the right to settle suits involving claims and demands for royalties owing; and (f) all rights corresponding to any of the foregoing throughout the world (the foregoing, collectively "Trademarks");

(b) all of its right, title, and interest in and to: (i) any and all patents and patent applications, including all Patents, as defined in the Security Agreement, and the patents and patent applications set forth in Schedule 1 hereto; (ii) all inventions and improvements described and claimed therein; (iii) all reissues, divisions, continuations, renewals, extensions, and continuations-in-part thereof and all re-examinations thereof and amendments thereto; (iv) all income, royalties, damages, claims, and payments now or hereafter due or payable under and with respect thereto, including, without limitation, damages and payments for past and future infringements thereof; (v) all rights to sue for past, present, and future infringements thereof; and (vi) all rights corresponding to any of the foregoing throughout the world (the foregoing, collectively, "Patents");

(c) all rights of any kind whatsoever of Grantor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions and otherwise throughout the world; and

(d) all income, royalties, proceeds and liabilities at any time due or payable or asserted under and with respect to any of the foregoing, including, without limitation, all rights to sue and recover at law or in equity for any past, present and future infringement, misappropriation, dilution, violation or other impairment thereof.

This Agreement is made for collateral purposes only. For purposes of clarity, the parties agree and acknowledge that nothing in this Agreement creates or is intended to create a present transfer of any rights, title or interest in the IP Collateral and, that unless the parties otherwise agree or following the occurrence of an Event of Default (as defined in the Credit Agreement), no such transfer is intended to occur in the future. Grantor acknowledges and agrees that upon the occurrence and continuance of an Event of Default, the IP Collateral shall be immediately conveyed to the Secured Party without any further action by any party, and the Secured Party shall have, in accordance with the terms hereof, the power to use and/or sell the IP Collateral. Grantor covenants and agrees to execute and deliver to the Secured Party all agreements, instruments, documents and other written matter that the Secured Party may request, in form and substance acceptable to the Secured Party, to perfect and maintain perfected the Secured Party's lien on and security interest in and to the IP Collateral and to consummate the transactions contemplated by this Section 2.

Section 3. Security Agreement. The security interest granted pursuant to this Agreement is granted in conjunction with the security interest granted to the Secured Party pursuant to the Security Agreement and Grantor hereby acknowledges and agrees that the rights and remedies of the Secured Party with respect to the security interest in the IP Collateral made and granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

Section 4. Recordation. Grantor authorizes the Commissioner for Patents and the Commissioner for Trademarks and any other government officials to record and register this Agreement upon request by the Secured Party and further authorizes the Secured Party to file and record or cause to be filed and recorded any supplements or amendments to this Agreement..

Section 5. Restrictions on Future Agreements.

(a) Grantor agrees that until the Secured Obligations have been paid and satisfied in full and the Finance Documents have been terminated, Grantor will not, without the Secured Party's prior written consent, enter into any document, instrument or agreement which is inconsistent with Grantor's obligations under this Agreement. Grantor further agrees that it will not take any action, or permit any action to be taken by others subject to its control, including licensees, or fail to take any action, which would affect the validity or enforcement of the rights transferred to the Secured Party under this Agreement.

(b) Grantor hereby represents and warrants to the Secured Party that Grantor has not granted any license to any person or entity other than the Secured Party in connection with any of the IP Collateral. Grantor hereby covenants unto the Secured Party that until the payment in full of the Secured Obligations and the termination of the Finance Documents, Grantor shall not grant any license to any third party in connection with the IP Collateral without the Secured Party's prior written consent, which consent shall not be unreasonably withheld.

Section 6. New IP Collateral. Grantor represents and warrants that the Trademarks and Patents listed on Schedule 1 hereto constitute all of the trademarks, trademark registrations, patents and patent registrations now owned by Grantor. If, prior to payment in full of the Secured Obligations, Grantor shall (i) obtain rights to any new trademarks, trademark registrations, trademark applications, patents, patent registrations or patent applications, or (ii) become entitled to the benefit of any trademark, trademark registration, trademark application, patents, patent registrations or patent applications, the provisions of Section 2 above shall automatically apply thereto and Grantor shall provide the Secured Party with immediate notice thereof. Grantor hereby authorizes the Secured Party to (i) unilaterally modify this Agreement by amending Schedule 1 hereto to include any future trademarks, trademark registrations, trademark applications, patents, patent registrations and patent applications and (ii) file any such amendment to this Agreement in accordance with Section 4 hereof. Notwithstanding the foregoing, no failure to so modify this Agreement or amend Schedule 1 hereto shall in any way affect, invalidate or detract from Secured Party's continuing security interest in all IP Collateral, whether or not listed on Schedule 1.

Section 7. Royalties; Term. Grantor hereby agrees that the use by the Secured Party of all IP Collateral after an Event of Default as described above shall be without any liability for

royalties or other related charges from the Secured Party to Grantor. The term of the assignments granted herein shall extend until the earlier of (i) the expiration of each of the respective Trademarks and Patents assigned hereunder, or (ii) the payment to the Secured Party of the Secured Obligations in full and the termination of the Finance Documents.

Section 8. Secured Party's Right to Inspect. The Secured Party shall have the right to inspect Grantor's premises and to examine Grantor's books, records and operations, including, without limitation, Grantor's quality control processes. Upon an Event of Default, Grantor agrees that the Secured Party shall have the right to establish such additional product quality controls as the Secured Party, in its sole discretion, may deem necessary to assure maintenance of the quality of products sold by Grantor under the Trademarks and the Patents. Grantor agrees (i) not to sell or assign its interest in, or grant any licenses under, the Trademarks or the Patents; (ii) to maintain the quality of any and all products produced in connection with the IP Collateral consistent with the quality of said products as of the date hereof; and (iii) not to adversely change or alter the quality of said products in any way without the Secured Party's prior written consent.

Section 9. Nature and Termination of the Secured Party's Security Interests. This Agreement is made for collateral purposes only. Except as otherwise provided in Sections 5, 8, 11 and 15 hereof, nothing contained herein shall be deemed to limit in any way Grantor's right to use the Trademarks and Patents or to grant to the Secured Party any right to use the Trademarks or Patents prior to an Event of Default.

Section 10. Duties of Grantor. Grantor shall have the duty (i) to prosecute diligently any trademark and patent registration pending as of the date hereof or at any time hereafter, until the Secured Obligations shall have been paid in full, (ii) to make applications for trademarks and patents, as appropriate, and (iii) to preserve and maintain all IP Collateral. Any expenses incurred in connection with such applications shall be borne solely by Grantor. Grantor shall not abandon any IP Collateral without the prior written consent of the Secured Party.

Section 11. Remedial Provisions.

(a) UCC Remedies. During the continuance of an Event of Default, the Secured Party may exercise, in addition to all other rights and remedies granted to it in this Agreement and in any other instrument or agreement securing, evidencing or relating to any Secured Obligation, all rights and remedies of a secured party under the UCC or any other applicable law.

(b) Disposition of Collateral. Without limiting the generality of the foregoing, the Secured Party may, without demand of performance or other demand, presentment, protest, advertisement or notice of any kind (except any notice required by law referred to below) to or upon the Grantor or any other person (all and each of which demands, defenses, advertisements and notices are hereby waived), during the continuance of any Event of Default (personally or through its agents or attorneys), (i) enter upon the premises where any IP Collateral is located, without any obligation to pay rent, through self-help, without judicial process, without first obtaining a final judgment or giving any Grantor or any other Person notice or opportunity for a hearing on the Secured Party's claim or action, (ii) collect, receive, appropriate and realize upon any IP Collateral and (iii) sell, assign, convey, transfer, grant option or options to purchase and

deliver any IP Collateral, at public or private sale or sales, at any exchange, broker's board or office of the Secured Party or elsewhere upon such terms and conditions as it may deem advisable and at such prices as it may deem best, for cash or on credit or for future delivery without assumption of any credit risk. The Secured Party shall have the right, upon any such public sale or sales and, to the extent permitted by the UCC and other applicable law, upon any such private sale, to purchase the whole or any part of the IP Collateral so sold, free of any right or equity of redemption of the Grantor, which right or equity is hereby waived and released.

(c) Application of Proceeds. The Secured Party shall apply the cash proceeds of any action taken by it pursuant to this Section 11, after deducting all reasonable costs and expenses of every kind incurred in connection therewith or incidental to the care or safekeeping of any IP Collateral or in any way relating to the IP Collateral or the rights of the Secured Party hereunder, including reasonable attorneys' fees and disbursements, to the payment in whole or in part of the Secured Obligations, as set forth in the Credit Agreement, and only after such application and after the payment by the Secured Party of any other amount required by any applicable law, need the Secured Party account for the surplus, if any, to the Grantor.

(d) IP Licenses. For the purpose of enabling the Secured Party to exercise rights and remedies under this Section 11 (including in order to take possession of, collect, receive, assemble, process, appropriate, remove, realize upon, sell, assign, convey, transfer or grant options to purchase any IP Collateral) at such time as the Secured Party shall be lawfully entitled to exercise such rights and remedies, the Grantor hereby grants to the Secured Party an irrevocable, nonexclusive, worldwide license (exercisable without payment of royalty or other compensation to the Grantor), including in such license the right to sublicense, use and practice any of the IP Collateral now owned or hereafter acquired by the Grantor and access to all media in which any of the licensed items may be recorded or stored and to all software and programs used for the compilation or printout thereof which license (A) should be subject to any already existing licenses granted by Grantor, to the extent conflicting, (B) may be exercised, at the option of the Secured Party, only upon the occurrence and during the continuation of an Event of Default, provided, that any license, sublicense or other transaction entered into by the Secured Party in accordance herewith shall be binding upon the Grantor notwithstanding any subsequent cure of an Event of Default, and (C) shall apply to the use of the Trademarks in connection with goods and services of similar type and quality to those theretofore sold by the Grantor under such Trademark.

(e) Secured Party's Right to Sue. Upon the occurrence and during the continuance of an Event of Default, the Secured Party shall have the right, but shall in no way be obligated, to bring suit in its own name or in the name of Grantor to enforce the Trademarks and Patents. If the Secured Party shall commence any such suit, Grantor shall, at the request of the Secured Party, do any and all acts and execute any and all instruments, documents and agreements required by the Secured Party to enforce such IP Collateral, and Grantor shall promptly, upon demand, reimburse and indemnify the Secured Party for all costs and expenses incurred by the Secured Party in the exercise of its rights and remedies under this Section 11. Except as set forth in this Section 11, Grantor shall assume full and complete responsibility for the prosecution, defense, enforcement or any other necessary or desirable actions in connection with the IP Collateral and any licenses thereof subject to a security interest hereunder.

(f) Deficiency. The Grantor shall remain liable for any deficiency if the proceeds of any sale or other disposition of any IP Collateral are insufficient to pay the Secured Obligations and the fees and disbursements of any attorney employed by the Secured Party to collect such deficiency.

Section 12. Waivers. The Secured Party's failure at any time or times hereafter to require strict performance by Grantor of any provision of this Agreement shall not waive, affect or diminish any right of the Secured Party thereafter to demand strict compliance and performance therewith. Any suspension or waiver by the Secured Party of an Event of Default shall not suspend, waive or affect any other Event of Default, whether same is prior or subsequent thereto and whether of the same or a different type. None of the undertakings, agreements, warranties, covenants and representations of Grantor contained in this Agreement and no Event of Default by Grantor shall be deemed to have been suspended or waived by the Secured Party unless such suspension or waiver is in writing signed by an officer of the Secured Party and directed to Grantor specifying such suspension or waiver.

Section 13. Severability. The provisions of this Agreement are severable, and if any clause or provision shall be held invalid and unenforceable in whole or in part in any jurisdiction, then such invalidity or unenforceability shall affect only such clause or provision, or part thereof, in such jurisdiction, and shall not in any manner affect such clause or provision in any other jurisdiction, or any other clause or provision of this Agreement in any jurisdiction.

Section 14. Modification. This Agreement cannot be altered, amended or modified in any way, except as specifically provided in Section 6 hereof or by a writing signed by the parties hereto.

Section 15. Cumulative Remedies; Power of Attorney; Effect on Finance Documents. All of the Secured Party's rights and remedies with respect to the IP Collateral, whether established hereby, by the Finance Documents, by any other agreements or by law shall be cumulative and may be exercised singularly or concurrently. Grantor hereby authorizes the Secured Party to make, constitute and appoint any officer or agent of the Secured Party as the Secured Party may select, in its sole discretion, as Grantor's true and lawful attorney-in-fact, with power, upon an Event of Default, to (a) endorse Grantor's name on all applications, documents, papers and instruments necessary or desirable for the Secured Party in connection with selling the IP Collateral, (b) take any other actions with respect to the IP Collateral as the Secured Party decides in its sole and absolute discretion, (c) assign, pledge, sell, convey or otherwise transfer title in or dispose of the IP Collateral to any person or entity as the Secured Party may determine in its sole discretion, and (d) grant or issue any non-exclusive license under the IP Collateral, to any person or entity. Grantor agrees to indemnify the Secured Party for any infringement claims or other similar claims filed or asserted against the Secured Party from the use of any of the IP Collateral. Grantor hereby ratifies all that such attorney shall lawfully do or cause to be done by virtue hereof. This power of attorney shall be irrevocable until the Secured Obligations shall have been paid in full and all Financing Documents have been terminated. Grantor acknowledges and agrees that this Agreement is not intended to limit or restrict in any way the rights and remedies of the Secured Party under the Finance Documents, at law or in equity, but rather is in addition to and intended to facilitate the exercise of such rights and remedies.

Section 16. Binding Effect. This Agreement shall be binding upon Grantor and its successors and assigns, and shall inure to the benefit of the Secured Party, its nominees, successors and assigns.

Section 17. Notices. Any and all notices, exercises, demands, requests, consents, designations, waivers and other communications required or desired hereunder shall be delivered to the parties hereto at their addresses set forth in the Credit Agreement and shall be effective as set forth in the Credit Agreement.

Section 18. Counterparts. This Agreement may be executed in any number of counterparts and by different parties in separate counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement. Signature pages may be detached from multiple separate counterparts and attached to a single counterpart.
