PATENT AND TRADEMARK SECURITY AGREEMENT

(Patents and Trademarks, including Registrations, Applications and Licenses)

PATENT AND TRADEMARK SECURITY AGREEMENT dated as of November 2, 2016, between CAMBRIDGE INTERNATIONAL, INC., a Delaware corporation (the "Grantor"), and CREDIT SUISSE AG, as Administrative Agent.

WHEREAS, Grantor owns, or in the case of any Patent or Trademark Licenses is a party to, the Patent and Trademark Collateral (as defined below);

WHEREAS, Chase Acquisition I, Inc. ("Holdings"), RBS Global, Inc. and Rexnord LLC (the "Borrowers"), the Lenders party thereto, and Credit Suisse AG, as Administrative Agent, are parties to a Third Amended and Restated First Lien Credit Agreement dated as of August 21, 2013 (as amended from time to time, the "Credit Agreement"); and

WHEREAS, pursuant to (i) a Second Amended and Restated Guarantee and Collateral Agreement dated as of March 15, 2012 (as amended and/or supplemented from time to time, the "Guarantee and Collateral Agreement") among Holdings, the Borrowers, the Guarantors party thereto and Credit Suisse AG, as Administrative Agent for the Secured Parties referred to therein (in such capacity, together with its successors in such capacity, the "Grantee") and (ii) certain other Security Documents (including this Patent and Trademark Security Agreement), the Grantor has guaranteed certain obligations of the Borrower and secured such guarantee (the "Grantor's Secured Guarantee") by granting to the Grantee for the benefit of such Secured Parties a continuing security interest in personal property of the Grantor, including all right, title and interest of the Grantor in, to and under the Patent and Trademark Collateral (as defined below);

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, subject to and upon the terms and conditions contained in the Guarantee and Collateral Agreement, the Grantor hereby grants to the Grantee, to secure the Grantor's Secured Guarantee, a continuing security interest in all of the Grantor's right, title and interest in, to and under the following (all of the following items or types of property being herein collectively referred to as the "Patent and Trademark Collateral"), whether now owned or existing or hereafter acquired or arising:

(i) each Patent and Trademark, including, without limitation, each Patent and Trademark registration or application therefor referred to in Schedule 1 hereto;

(ii) each Patent and Trademark License, including, without limitation, each Patent and Trademark License identified in Schedule 1 hereto; and

(iii) all proceeds of, revenues from, and accounts and general intangibles arising out of, the foregoing, including, without limitation, all proceeds of and revenues from any claim by the Grantor against third parties for past, present or future infringement of any Patent or Trademark (including, without limitation, any Patent or

Trademark owned by the Grantor and identified in Schedule 1), and all rights and benefits of the Grantor under any Patent or Trademark License (including, without limitation, any Patent or Trademark License identified in Schedule 1).

The Grantor irrevocably constitutes and appoints the Grantee and any officer or agent thereof, with full power of substitution, as its true and lawful attorney in fact with full power and authority in the name of the Grantor or in the Grantee's name, from time to time, in the Grantee's discretion, so long as any Event of Default shall have occurred and be continuing, to take with respect to the Patent and Trademark Collateral any and all appropriate action which the Grantor might take with respect to the Patent and Trademark Collateral and to execute any and all documents and instruments which may be necessary or desirable to carry out the terms of this Patent and Trademark Security Agreement and to accomplish the purposes hereof.

Except to the extent not prohibited by the Guarantee and Collateral Agreement or the Credit Agreement, the Grantor agrees not to sell, license, exchange, assign or otherwise transfer or dispose of, or grant any rights with respect to, or mortgage or otherwise encumber, any of the Patent and Trademark Collateral.

The foregoing security interest is granted in conjunction with the security interests granted by the Grantor to the Grantee pursuant to the Guarantee and Collateral Agreement. Terms defined in the Guarantee and Collateral Agreement (or whose definitions are incorporated by reference in Section 1 of the Guarantee and Collateral Agreement) and not otherwise defined herein have, as used herein, the respective meanings provided for therein. The Grantor acknowledges and affirms that the rights and remedies of the Grantee with respect to the security interest in the Patent and Trademark Collateral granted hereby are more fully set forth in the Guarantee and Collateral Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein. In the event that any provision of this Patent and Trademark Security Agreement is deemed to conflict with the Guarantee and Collateral Agreement, the Guarantee and Collateral Agreement shall govern.
