TRADEMARK SECURITY AGREEMENT

THIS TRADEMARK SECURITY AGREEMENT (as amended from time to time, the "Agreement") is made as of October 26, 2016, by and between STEPS TO LITERACY, L.L.C. (the "Grantor"), a New Jersey limited liability company having its principal place of business at 75 Mill Street, Colchester, Connecticut 06415, and WEBSTER BANK, NATIONAL ASSOCIATION, a national banking association, with an office at CityPlace II, 185 Asylum Street, 5th Floor, Hartford, Connecticut 06103 (the "Lender").

RECITALS

- A. S & S WORLDWIDE, INC. (the "Borrower") and the Lender have entered into a certain Second Amended and Restated Revolving Credit and Mortgage Loan Agreement dated as of December 3, 2012 (as amended from time to time, the "Loan Agreement") pursuant to which the Lender, subject to the terms and conditions contained therein, has made or is making (i) a revolving line of credit loan to the Borrower in the maximum principal amount of \$14,000,000 (the "Revolving Credit Loan"), (ii) a mortgage loan to the Borrower in the principal amount of \$5,000,000.00 (the "Mortgage Loan") and (iii) a term loan to the Borrower in the principal amount of \$5,000,000 (the "Term Loan" and, together with the Revolving Credit Loan and the Mortgage Loan, the "Loans").
- B. Grantor has agreed to execute and deliver a Guaranty dated the date of this Agreement to Lender (the "Guaranty") guaranteeing the obligations of the Borrower to the Lender.
- C. In consideration of, and as a material inducement to Lender to continue, the extension of credit to Borrower and to consent to the execution by the Borrower and Adamco, Inc. of the Membership Interest Purchase Agreement with Elaine Thompson, William Thompson and Bryan Thompson dated as of October 26, 2016 (the "Purchase Agreement"), and as a condition precedent to Lender's consent to the execution by Borrower and Adamco, Inc. of the Purchase Agreement, Grantor has agreed to execute and deliver this Agreement.
- D. The Grantor wishes to grant security interests in favor of the Lender as herein provided.

NOW, THEREFORE, in order to induce Lender to enter into the transaction of which this Agreement is a part, and in consideration of the matters described in the foregoing recitals, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Definitions. All capitalized terms used herein without definitions shall have the respective meanings provided therefor in the Loan Agreement. The following terms shall have the following meanings when used in this Agreement.

"Claim" means any written action, audit, complaint, charge, claim, lawsuit, demand, suit, hearing, investigation, litigation, proceeding, arbitration, or other dispute, whether civil, criminal or administrative.

"Intellectual Property" means all of the following: (a) all trademarks, trademark rights, service marks, service mark rights, trade names, trade name rights, trade dress, logos, slogans, corporate and business names, Internet domain names, together with all translations, adaptations, derivations, and combinations thereof and including all goodwill associated therewith, and all applications, registrations, and renewals in connection therewith, (b) all copyrightable works, copyrights, works of authorship and all registrations, and renewals in connection therewith, (c) all inventions (whether patentable or not and whether or not reduced to practice), all improvements thereto, and all patents, patent applications and patent disclosures, together with all reissuances, continuations, continuations-in-part, divisions, extensions, and reexaminations thereof, (d) all mask works and all applications, registrations, and renewals in connection therewith, (e) all trade secrets and confidential business information (including ideas, research and development, know-how, formulas, compositions, manufacturing and production processes and techniques, technical data and information, designs, drawings, specifications, customer and supplier lists, pricing and cost information, and business and marketing plans and proposals), (f) all Software, (g) all other confidential and proprietary rights or information, whether or not subject to statutory registration, which is owned by Grantor or (to the extent solely of the license interest therein) used or held for use by Grantor, and (h) all copies and tangible embodiments thereof (in whatever form or medium).

"Intellectual Property Licenses" means any contract or agreement pursuant to which Grantor uses Intellectual Property that is not owned by the Grantor or pursuant to which Grantor grants any other person or entity the right to use any Intellectual Property owned by Grantor.

"Grantor Intellectual Property" means any Intellectual Property now or hereafter owned by Grantor.

"Publicly Available Software" means each of (i) any Software that contains, or is derived in any manner (in whole or in part) from, any software that is distributed as free software, open source software (e.g. Linux), or similar licensing and distribution models; and (ii) any Software that requires as a condition of use, modification, and/or distribution of such Software that such Software or other Software incorporated into, derived from, or distributed with such Software (A) be disclosed or distributed in source code form, (B) be licensed for the purpose of making derivative works, or (C) be redistributable at no or minimal charge.

"Software" means computer software programs (and all enhancements, versions, releases, and updates thereto), including software compilations, software tool sets, compilers, higher level or "proprietary" languages and all related programming and user documentation, whether in source code, object code or human readable form, or any translation or modification thereof that substantially preserves its original identity.

2. Grant of Security Interest. To secure the complete and timely payment of all of the Obligations now or hereafter existing from time to time, Grantor hereby pledges and grants to Lender a continuing first priority security interest in all of Grantor's right, title and interest in, to and under the following, whether presently existing or hereafter created or acquired (collectively, the "Collateral"):

- a. all Grantor Intellectual Property;
- b. all Intellectual Property Licenses (other than those Intellectual Property Licenses listed on Schedule 2(b) hereto, which are not assignable);
- c. all reissues, continuations or extensions of the foregoing;
- d. all goodwill of the business connected with the use of, and symbolized by any of the foregoing; and
- e. all products and proceeds of the foregoing, including, without limitation, any claim by Grantor against third parties for past, present or future infringement or dilution of any of the foregoing and injury to the goodwill associated with any of the foregoing.

Grantor and Lender each acknowledges and agrees that the security interest granted in this Section 2 is not to be construed as a present assignment of any Intellectual Property. Grantor expressly acknowledges and agrees that the Lender may record this Agreement with the United States Patent and Trademark Office or any similar office or agency.

3. Representations and Warranties. Grantor represents and warrants that:

- a. Schedule 3(a)(i) correctly sets forth all of the following that are owned by the Grantor: (a) patented or registered Intellectual Property, (b) pending patent applications or other applications for registrations of other Intellectual Property, (c) corporate names, (d) trade names, trade dress, logos, slogans, Internet domain names, unregistered trademarks, and unregistered service marks, in each case that are material to Grantor's business, (e) material Software (other than shrink-wrap software), and (f) other Intellectual Property rights that are material to Grantor's business. Schedule 3(a)(ii) identifies each Intellectual Property License or other contract or agreement pursuant to which Grantor uses Intellectual Property that is not owned by the Grantor or pursuant to which Grantor grants any other Person the right to use any Intellectual Property owned by Grantor (except (x) shrink-wrap software agreements and (y) licenses incident to customer contracts entered into in the ordinary course of business). The Grantor Intellectual Property set forth on Schedule 3(a)(i), together with the Intellectual Property Licenses set forth on Schedule 3(a)(ii), include all of the Intellectual Property used in the operation of the Grantor's business, and there are no other material items of Intellectual Property that are necessary to the operation of the Grantor's business as currently conducted.

b. No Claims (including office actions) have been made against Grantor (or to Grantor's knowledge, any other person or entity) that are presently pending contesting the validity, use, ownership, enforceability or registrability of any of the Grantor Intellectual Property. Grantor has not materially infringed upon, misappropriated or otherwise violated any valid Intellectual Property of another Person; the Grantor has no knowledge of any facts which indicate a reasonable likelihood of any of the foregoing; and except as shown on Schedule 3.(b)(i), neither the Grantor, nor any of its directors or officers or shareholders has received: (i) any charge, complaint, claim, demand, or notice contesting use of, or asserting infringement with respect to, any Intellectual Property, or (ii) any demands or offers to license any Intellectual Property. To the knowledge of the Grantor, no person or entity has interfered with, challenged, infringed upon, misappropriated or otherwise violated any right with respect to any Grantor Intellectual Property. The transactions contemplated by the Loan Documents shall not impair the right, title or interest of the Grantor in or to the Grantor Intellectual Property (including in respect of any agreement under which a person or entity has granted to Grantor a license or other right with respect to Intellectual Property), and all of the Grantor Intellectual Property shall be owned or available for use by the Grantor immediately after the consummation of the purchase contemplated by the Purchase Agreement on terms and conditions identical to those under which the Grantor owned or used the Grantor Intellectual Property immediately prior to such purchase. No Grantor Intellectual Property is subject to any outstanding order, stipulation, or agreement restricting the ownership, use or other exploitation thereof by the Grantor including the licensing thereof by the Grantor to any person or entity. Except as described on Schedule 3.(b)(ii), Grantor has not agreed to indemnify any person or entity pursuant to any contract or agreement currently in effect against any infringement, violation or misappropriation of any Intellectual Property rights.

c. The Grantor owns and possesses, free and clear of all mortgages, security interests, pledges, liens, encumbrances, charges or other restrictions or limitations regarding use, all right, title and interest in and to, or has the sole and exclusive right to use all Grantor Intellectual Property necessary for or used in the operation of the Grantor's business, including all rights to make, use, exclude others from using, reproduce, modify, adapt, create derivative works based on, translate, distribute (directly and indirectly), transmit, display and perform publicly, license, rent, lease, assign and sell such Intellectual Property in all geographic locations and fields of use, and to sublicense any or all such rights to third parties, including the right to grant further sublicenses. The Grantor has complied with all of its confidentiality obligations under each contract or agreement to which it is a party relating to any Grantor Intellectual Property or any Intellectual Property Licenses.

d. Except for third party escrow agents that have copies of the source code as set forth on Schedule 3.(d), or portions of the source code of the Grantor's Software pursuant to source code escrow agreements, Grantor is in actual and sole possession of the complete source code of the Grantor's Software. Schedule 3.(d) contains a list of all escrow agreements with third party escrow agents and all contracts or agreements with third parties that would permit the release of the source code, or portions of the source code, to a third party under certain circumstances or conditions. Except for third party escrow agents listed on Schedule 3.(d), no one other than the Grantor has any

individual right to use or ownership interest in or possession of Grantor's Software or any portion or component (including source code) thereof.

e. All of the Grantor's Software was either (i) created solely by (A) employees of the Grantor within the scope of their employment who have executed a confidentiality and intellectual property assignment agreement in favor of the Grantor and/or (B) independent contractors who have assigned their rights to the Grantor pursuant to written contracts or agreements, or (ii) acquired pursuant to a written assignment from the original author(s) or subsequent assignees (which may include, without limitation, an acquisition of such Software in the course of an acquisition or merger). No Grantor has licensed or otherwise authorized any third party to copy, distribute, modify, decompile, or prepare derivatives of any of the Grantor's Software except pursuant to the written license agreements set forth on Schedule 3.(e).

f. The Grantor has taken commercially reasonable steps to protect and preserve the Grantor Intellectual Property, including the confidentiality of its source code, trade secrets and other confidential and proprietary information that is not otherwise disclosed in published patents or patent applications or registered copyrights. All current employees of, and independent contractors to, the Grantor have entered into valid and binding written contracts or agreements pursuant to which such employee or independent contractor agrees to protect the confidential information of the Grantor and its customers, and to assign to the Grantor without restriction or reservation all Intellectual Property developed by such employee or independent contractor in the course of such Person's relationship with the Grantor.

g. Schedule 4.(g) contains a complete and accurate list of the Software comprising the principal business products developed by or on behalf of the Grantor for use in the Grantor's business, as conducted as of the date hereof (the "Proprietary Software"). The Proprietary Software performs, in all material respects, the functions that it is contractually specified to perform pursuant to the Grantor's existing customer agreements, subject to the need for ongoing customer support (including to address software bugs and performance issues) and software maintenance on a basis reasonably consistent with past practice during the past two fiscal years. None of the Software comprised in the Grantor Intellectual Property, including the Proprietary Software, contains any viruses, "worms," trapdoors," or other disabling or malicious code that would impair the functionality of such Software, or destroy, damage or corrupt the data or information technology systems used in the conduct of the Grantor's business.

h. Except as set forth on Schedule 3.(h), as of the date hereof, none of the Grantor Intellectual Property contains, or is distributed with, any Publicly Available Software. No Publicly Available Software was used in the development of any part of the Grantor Intellectual Property in a manner that could subject the Grantor Intellectual Property, in whole or in part, to a requirement that such Grantor Intellectual Property (A) be disclosed or distributed in source code form, (b) be licensed for the purpose of making derivative works, or (c) be redistributable at no or minimal charge.

i. Grantor has the unqualified right to enter into this Agreement and perform its terms. This Agreement has been duly executed and delivered to Lender by Grantor and constitutes its legal, valid and binding obligation, enforceable in accordance with its terms. The execution, delivery and/or performance by Grantor of this Agreement shall not, by the lapse of time, the giving of notice or otherwise, constitute a violation of any applicable law or a breach of any provision contained in its Certificate of Formation or Operating Agreement or contained in any agreement, instrument or document to which it is now a party or by which it is bound, including, without limitation, any such agreement, instrument or document which specifically relates to any of the Collateral, and no consent, approval, license or authorization of, or filing with, any governmental bureau or agency or of any other person is required to be obtained in connection therewith. The execution, delivery and/or performance by Grantor of this Agreement shall not, by the lapse of time, the giving of notice or otherwise, except to the extent expressly set forth in this Agreement, impair the right, title or interest of the Grantor in or to the Grantor Intellectual Property (including in respect of any agreement under which a person or entity has granted to the Grantor a license or other right with respect to Intellectual Property).

j. This Agreement creates a valid and continuing lien on and security interest in favor of Lender in all of the Collateral. Upon the filing of a UCC-1 financing statement describing the Collateral in the New Jersey Secretary of State's office, and with respect to the Grantor's patented or registered Intellectual Property, pending patent applications or other registration of other Intellectual Property, upon the filing of this Agreement with the United States Patent and Trademark Office or any similar office of agency, all action necessary or desirable to protect and perfect Lender's lien on the Collateral shall have been duly taken and such perfected lien and security interest is enforceable as such as against any and all creditors of, and purchasers from, Grantor.

4. Covenants. The Grantor covenants and agrees with Lender that from and after the date of this Agreement:

a. Grantor shall notify Lender immediately if it acquires any Intellectual Property or any Intellectual Property License which is material to the operation of the Grantor's business and Grantor shall take promptly such steps as may be reasonably requested by the Lender to further evidence or perfect Lender's lien and security interest therein. In no event shall Grantor, either directly or through any agent, employee, licensee or designee, file an application for the registration of any Intellectual Property with the United States Patent and Trademark Office or any similar office or agency without giving Lender prior written notice thereof, and, upon request of Lender, Grantor shall execute and deliver a supplement hereto (in form and substance satisfactory to Lender) to evidence Lender's lien on such Intellectual Property, and the general intangibles of Grantor relating thereto or represented thereby.

b. Grantor shall notify Lender immediately if it knows or has reason to know that any Claim (including office actions) is made against Grantor (or to Grantor's knowledge, any other person or entity) contesting the validity, use, ownership, enforceability or registrability of any of the Grantor Intellectual Property.

c. Grantor shall not grant, or permit to exist, any mortgage, security interest, pledge, lien, encumbrance, charge or other restriction or limitation regarding use, on any Grantor Intellectual Property necessary for or used in the operation of the Grantor's business other than the security interest granted herein and in the other Loan Documents.

d. Grantor shall take all commercially reasonable steps necessary or desirable to protect and preserve the Grantor Intellectual Property, including the confidentiality of its source code, trade secrets and other confidential and proprietary information that is not otherwise disclosed in published patents or patent applications or registered copyrights. Grantor shall take all commercially reasonable steps necessary or desirable to obtain valid and binding written contracts or agreements with its employees and independent contractors pursuant to which such employee or independent contractor agrees to protect the confidential information of the Grantor and its customers, and to assign to the Grantor without restriction or reservation all Intellectual Property developed by such employee or independent contractor in the course of such Person's relationship with the Grantor.

e. In the event that any of the Collateral is infringed upon, or misappropriated or diluted by a third party, Grantor shall notify Lender promptly after learning thereof. Grantor shall, unless it shall reasonably determine that such Collateral is in no way material to the conduct of its business or operations, promptly sue for infringement, misappropriation or dilution and to recover any and all damages for such infringement, misappropriation or dilution, and shall take such other actions as Lender shall deem appropriate under the circumstances to protect such Collateral.

f. Grantor will use proper statutory notice in connection with its use of any Intellectual Property.

5. Other Loan Documents. All of Lender's rights and remedies with respect to the Collateral, whether established hereby or by the other Loan Documents, or by any other agreement or by law shall be cumulative and may be exercised singularly or concurrently. Without limiting the foregoing, Grantor hereby acknowledges and affirms that this Agreement is executed in furtherance of, and supplementary to, the provisions in the other Loan Documents, and that the rights and remedies of Lender with respect to the security interest in the Collateral made and granted hereby are more fully set forth in the other Loan Documents, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

6. Special Power of Attorney. Grantor hereby appoints and constitutes Lender its true and lawful attorney, with full power of substitution, and with full power and authority to perform the following acts on behalf of the Grantor:

a. For the purpose of assigning, selling or otherwise disposing of all right, title and interest of the Grantor in and to the Grantor Intellectual Property and all registrations, recordings, re-issues, continuations, continuations-in-part and extensions thereof, and all pending applications therefor, and for the purpose of the recording, registering and filing of, or accomplishing any other formality with respect to, the foregoing, to execute and deliver any and all agreements,

documents, instruments of assignment or other papers necessary or advisable to effect such purpose; and

b. To execute any and all documents, statements, certificates or other papers necessary or advisable in order to obtain the purposes described above as the Lender may in its sole discretion determine.

This power of attorney is made pursuant to the terms of this Agreement and may not be revoked until the payment in full of all Obligations.

7. Reinstatement. This Agreement shall remain in full force and effect and continue to be effective should any petition be filed by or against Grantor for liquidation or reorganization, should Grantor become insolvent or make an assignment for the benefit of any creditor or creditors or should a receiver or trustee be appointed for all or any significant part of Grantor's assets, and shall continue to be effective or be reinstated, as the case may be, if at any time payment and performance of the Obligations, or any part thereof, is, pursuant to applicable law, rescinded or reduced in amount, or must otherwise be restored or returned by any obligee of the Obligations, whether as a "voidable preference," "fraudulent conveyance," or otherwise, all as though such payment or performance had not been made. In the event that any payment, or any part thereof, is rescinded, reduced, restored or returned, the Obligations shall be reinstated and deemed reduced only by such amount paid and not so rescinded, reduced, restored or returned.

8. Notices. Any written notice required or permitted by this Agreement may be delivered to Grantor as set forth in the Guaranty.
