ABL INTELLECTUAL PROPERTY SECURITY AGREEMENT

This ABL INTELLECTUAL PROPERTY SECURITY AGREEMENT (this “**IP Security Agreement**”) dated December 20, 2016, is made by the persons listed on the signature pages hereof (collectively, the “**Grantors**”) in favor of BANK OF AMERICA, N.A., acting through one or more of its branches or any Affiliate thereof, as collateral agent (in such capacity and any successor in such capacity, the “**Collateral Agent**”) for the Secured Parties (as defined in the ABL Credit Agreement referred to below). Capitalized terms used in this IP Security Agreement and not otherwise defined herein have the respective meanings assigned thereto in the ABL Credit Agreement (as defined below).

WHEREAS, the Grantors have entered into that certain Asset-Based Revolving Credit Agreement, dated as of December 20, 2016 (as amended, amended and restated, supplemented or otherwise modified from time to time, the “**ABL Credit Agreement**”), with the **Company**, Holdings, Super Holdings, the other borrowers party thereto, certain subsidiaries of Holdings party thereto as Guarantors from time to time, the Lenders party thereto from time to time and Bank of America, N.A., as Administrative Agent and Collateral Agent;

WHEREAS, as a condition precedent to the making of Loans by the Lenders and the entry into the Ancillary Agreements from time to time, each Grantor has executed and delivered that certain U.S. ABL Pledge and Security Agreement, dated as of December 20, 2016, by and among the Grantors, the Administrative Agent and the Collateral Agent (as amended, amended and restated, supplemented or otherwise modified from time to time, the “**ABL Security Agreement**”); and

WHEREAS, under the terms of the ABL Security Agreement, the Grantors have granted to the Collateral Agent, for the ratable benefit of the Secured Parties, a security interest in, among other property, certain intellectual property of the Grantors, and have agreed as a condition thereof to execute this IP Security Agreement for recording with the United States Patent and Trademark Office and the United States Copyright Office;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

SECTION 1. Grant of Security. Each Grantor hereby grants to the Collateral Agent for the ratable benefit of the Secured Parties a security interest in such Grantor’s right, title and interest in and to the following (collectively, the “**Additional Collateral**”):

(i) the patents and patent applications set forth in Schedule A hereto (the “**Patents**”);

(ii) the trademark and service mark registrations and applications set forth in Schedule B hereto (provided that no security interest shall be granted in United States intent-to-use trademark applications or intent-to-use service mark applications filed pursuant to Section 1(b) of the Lanham Act, to the extent that, the grant of a security interest therein would impair the validity or enforceability of, or render void or voidable or result in the cancellation of the applicable Grantor’s right, title or interest therein or any trademark or service mark issues as

a result of such application under applicable federal law), together with the goodwill symbolized thereby (the “**Trademarks**”);

(iii) the copyright registrations and applications set forth in Schedule C hereto (the “**Copyrights**”);

(iv) all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing;

(v) any and all claims for damages and injunctive relief for past, present and future infringement of any of the foregoing; and

(vi) all income, royalties and other payments now or hereafter due and payable with respect to any and all of the foregoing.

SECTION 2. Security for Obligations. The grant of a security interest in the Additional Collateral by each Grantor under this IP Security Agreement secures the payment of all Obligations of such Grantor now or hereafter existing under or in respect of the Loan Documents, whether direct or indirect, absolute or contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise.

SECTION 3. Recordation. Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks and any other applicable government officer record this IP Security Agreement.

SECTION 4. Counterparts. This IP Security Agreement may be executed in two or more counterparts, each of which shall constitute an original but all of which when taken together shall constitute but one contract. This IP Security Agreement shall become effective when (a) the Administrative Agent shall have received a counterpart of this IP Security Agreement that bears the signature of the Grantors and (b) the Agents have executed a counterpart hereof. Delivery of an executed counterpart to this IP Security Agreement by facsimile or any other electronic transmission (e.g., “PDF” or “TIFF”) to the United States Patent and Trademark Office shall be effective as delivery of a manually signed original. Delivery of a manually signed original shall be made to the United States Copyright Office.

SECTION 5. Grants, Rights and Remedies. This IP Security Agreement has been entered into in conjunction with the provisions of the ABL Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Collateral Agent with respect to the Additional Collateral are more fully set forth in the ABL Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein.
