3. **Security Interest in Licenses.** To secure the complete and timely satisfaction of the Indebtedness, the Grantor hereby grants and conveys to Lender a lien in all of such Grantor's right, title and interest in and to all of such Grantors license agreements with any other party whether such Grantor is a licensor or licensee under any such license agreement, including, without limitation, the licenses listed on Schedule B attached hereto and made a part hereof, now or hereafter owned by such Grantor and now or hereafter covered by such licenses (all of the foregoing are hereinafter collectively referred to as the "Licenses").

4. **Security Interest in Trademarks and Related Goodwill.** To secure the complete and timely satisfaction of the Indebtedness, the Grantor hereby grants and conveys to Lender a lien in all of such Grantors right, title and interest in and to all of such Grantor's now owned or existing and filed and hereafter acquired or arising and filed:

(i) trademarks, trademark registrations, trade names and trademark applications, service marks, service mark registrations, service names and service mark applications, including, without limitation, the trademarks, trademark registrations, trade names and trademark applications, service marks, service mark registrations, service names and service mark applications (but excluding any application to register any trademark, service mark or other mark prior to filing under applicable law of a verified statement of use (or the equivalent) for such trademark, service mark or other mark to the extent the creation of a lien thereon or the grant of a mortgage thereon would void or invalidate such trademark, service mark or other mark) listed on Schedule C, attached hereto and made a part thereof, and (a) renewals thereof, (b) all income, royalties, damages and payments now and hereafter due and/or payable with respect thereto, including, without limitation, damages and payments for past or future infringements thereof, (c) the right to sue for past, present and future infringements thereof, and (d) all rights corresponding thereto throughout the world (all of the foregoing trademarks, service marks, trademark and service mark registrations, trade names, service names and applications together with the items described in clauses (a) — (d), are hereinafter individually and/or collectively referred to as the "Trademarks"); and

5. **Security Interest in Copyrights.** To secure the complete and timely satisfaction of the Indebtedness, the Grantor hereby grants and conveys to Lender a lien in all of such Grantor's right, title and interest in and to all of such Grantor's now owned or existing and filed and hereafter acquired or arising and filed copyrights, original works of authorship fixed in any tangible medium of expression and all registrations and recordings thereof, including, without limitation, applications, registrations and recordings in the United States Copyright Office, listed on Schedule D, attached hereto and made a part hereof, and (a) all extensions and renewals thereof, (b) all income, royalties, damages and payments now and hereafter due and/or payable under and with respect to, including, without limitation, damages and payments for past or future infringements thereof, (c) the right to sue for past, present and future infringements thereof, and (d) all rights corresponding thereto throughout the world (all of the foregoing copyrights,

together with the items described in (a) — (d) are hereinafter individually and/or collectively referred to as the “Copyrights”).

6. Restrictions on Future Security Interests. The Grantor agrees that until the Indebtedness shall have been satisfied in full and Lender has received written notice from Grantor of the termination of this IP Security Agreement, the Grantor shall not, without Lender’s prior written consent, enter into any agreement relating to the Patents, Licenses, Trademarks or Copyrights, and the Grantor further agrees that it will not take any action, or permit any action to be taken by others subject to its control, including licensees, or fail to take any action which would affect the validity or enforcement of the rights granted to Lender under this IP Security Agreement.

7. New Patents, Licenses, Trademarks and Copyrights. The Grantor represents and warrants that the Patents, Licenses, Trademarks and Copyrights of such Grantor listed on Schedules A, B, C, and D respectively, constitute all of the Patents, Licenses, Trademarks and Copyrights now owned by such Grantor necessary to own and operate its property and to carry on its business as presently conducted and as presently planned to be conducted without conflict with the rights of others. The Grantor hereby further authorizes Lender as its attorney-in-fact to modify this IP Security Agreement by amending Schedules A, B, C, and/or D, as applicable, to include any future Patents, Licenses, Trademarks and Copyrights, as applicable, under Paragraphs 2, 3, 4 and 5 above or under this Paragraph 7, and to file or refile this IP Security Agreement with the United States Patent and Trademark Office and/or Copyright Office, as the case may be.

8. Representations and Warranties. The Grantor represents and warrants to and agrees with Lender that, except as otherwise set forth in the schedules hereto:

(i) The Grantor is the owner of the Patents, Trademarks, and Copyrights set forth on Schedules A, B, C, and D and has the power and authority to make, and will continue to have authority to perform, this IP Security Agreement according to its terms;

(ii) This IP Security Agreement does not violate and is not in contravention of any other agreement to which any Grantor is a party or any judgment or decree by which any Grantor is bound and does not require any consent under any other agreement to which any Grantor is a party or by which any Grantor is bound. The grantor hereby authorizes the Patent and Trademark Office and the Copyright Office to issue any and all Patents on said inventions and any and all certificates of registration on all Trademarks and Copyrights to Lender following the occurrence of an Event of Default as the grantee of the pledge of such Grantors entire interest;

(iii) There has been no unreleased prior sale, pledge, encumbrance, assignment or other transfer or disposition of any of the Patents, Licenses, Trademarks, or Copyrights or any part thereof and. the same are free from all liens of any kind, including, but not limited to, copyrights, shop rights and covenants not to sue third persons, except as may be otherwise set forth in the Note; and

(iv) The Licenses are valid and binding agreements enforceable according to their terms. Each of the Licenses is in full force and effect and has not been amended or abrogated and there is no default under any of the Licenses.

9. Royalties; Terms. The Grantor hereby agrees that the use by Lender of all Patents, Licenses, Trademarks, and Copyrights of such Grantor as described above shall be worldwide and without any liability for royalties or other related charges from Lender to such Grantor. The security interest granted herein and the rights associated therewith shall extend until the earlier of (i) the expiration of each of the respective Patents, Licenses, Trademarks, and Copyrights assigned hereunder, or (ii) the Indebtedness shall have been satisfied in full and Lender has received written notice from Grantor of the termination of this IP Security Agreement.

10. Continuing Validity of Debt. The agreements and Indebtedness of the Grantor hereunder are continuing agreements and Indebtedness, and are absolute and unconditional irrespective of the genuineness, validity or enforceability of the Note, the Security Agreement, any of the other Related Documents (as defined in the Note or Security Agreement) or any other instrument or instruments now or hereafter evidencing the Indebtedness or any other agreement or agreements now or hereafter entered into by Lender and any Grantor pursuant to which the Indebtedness or any part thereof is issued or of any other circumstance which might otherwise constitute a legal or equitable discharge of such agreements and Indebtedness. Without limitation upon the foregoing, such agreements and Indebtedness shall continue in full force and effect as long as the Indebtedness or any part thereof remain outstanding and unpaid and shall remain in full force and effect without regard to and shall not be released, discharged or in any way affected by (i) any renewal, refinancing or refunding of the Indebtedness in whole or in part, (ii) any extension of the time of payment of any instrument or instruments now or hereafter evidencing the Indebtedness, or any part thereof, (iii) any compromise or settlement with respect to the Indebtedness or any part thereof, or any forbearance or indulgence extended to Grantor, (iv) any amendment to or modification of the terms of any instrument or instruments now or hereafter evidencing the Indebtedness or any part thereof or any other agreement or agreements now or hereafter entered into by Lender and Grantor pursuant to which the Indebtedness or any part thereof is issued or secured, (v) any substitution, exchange, or release of a portion of, or failure to preserve, perfect or protect, or other dealing in respect of, the Patents, Licenses, Trademarks, and Copyrights or any other property or any security for the payment of the Indebtedness or any part thereof, (vi) any bankruptcy, insolvency, arrangement, composition, assignment for the benefit of creditors or similar proceeding commenced by or against Grantor, (vii) any dissolution, liquidation or termination of Grantor for any reason whatsoever or (viii) any other matter or thing whatsoever whereby the agreements and Indebtedness of Grantor hereunder, would or might otherwise be released or discharged. Grantor hereby waives notice of the acceptance of this IP Security Agreement by Lender.

11. Duties of Grantors. Except as may be otherwise agreed to by Lender, the Grantor shall have the duty to (i) prosecute diligently any patent application of the Patents made by such Grantor and any trademark or service mark application or copyright application made by such Grantor pending as of the date hereof or thereafter until the Indebtedness shall have been satisfied in full and Lender has received written notice from Grantors of the termination of this IP Security Agreement, (ii) make application on unpatented but patentable inventions, on

trademarks, service marks, and on copyrights, as appropriate. (iii) preserve and maintain all of such Grantors rights in patent applications and patents of the Patents; trademark applications, trademarks, trademark registrations, service mark applications, service marks, and service mark registrations of the Trademarks; and copyright applications and copyright registrations of the Copyrights, and (iv) take all reasonable steps necessary to ensure that the Patents, Trademarks and Copyrights do not become abandoned or dedicated to the public, or the remedies available against potential infringers weakened. Any expenses incurred in connection with the duties set forth in this Paragraph 11 shall be borne by Grantors. Neither Grantor shall abandon any right to file a patent application, trademark application or copyright application, or any pending patent application, trademark application, copyright application, Patent, Trademark, nor Copyright without the consent of Lender.

12. Financing Statements; Documents. The Grantor hereby authorizes Lender to file one or more financing statements pursuant to the Uniform Commercial Code or other applicable law in form satisfactory to Lender and will pay the costs of filing and/or recording this IP Security Agreement and all financing, continuation and termination statements in all public offices where filing or recording is deemed necessary or desirable by Lender. The Grantor will execute and deliver to Lender from time to time such supplemental security agreements or other instruments, including, but not by way of limitation, additional IP Security Agreements to be filed with the United States Patent and Trademark Office or Copyright Office, as Lender may require for the purpose of confirming Lender's security interest in the Patents, Trademarks and Copyrights.

13. Rights of Grantor and/or Lender to Sue. The Grantor may enforce its rights in the Patents, Licenses, Trademarks, and Copyrights of such Grantor with or without Lender's participation. If requested by any Grantor, Lender shall participate in suits to enforce such rights as a nominal plaintiff for jurisdictional purposes. The Grantor shall have the same rights, if any, as such Grantor has, but shall in no way be obligated, to bring suit in its own name to enforce the Patents, Licenses, Trademarks, and Copyrights of such Grantor, and any licenses thereunder, and, if Lender shall commence any such suit, such Grantor shall, at the request of Lender, do any and all lawful acts and execute any and all proper documents required by Lender in aid of such enforcement and Grantor shall promptly, upon demand and as part of the Indebtedness, reimburse and indemnify Lender for all costs and expenses incurred by Lender in the exercise of its rights under this Paragraph 13.

14. Defeasance. Notwithstanding anything to the contrary contained in this IP Security Agreement, upon payment in full of the Indebtedness and receipt by Lender of written notice from Grantors of the termination of this IP Security Agreement, this IP Security Agreement shall terminate and be of no further force and effect and at the request of Grantor, Lender shall thereupon terminate its security interest in the Patents, Licenses, Trademarks and Copyrights. Until such time, however, this IP Security Agreement shall be binding upon and inure to the benefit of the parties, their successors and assigns, provided that no Grantor may assign this IP Security Agreement or any of its rights under this IP Security Agreement or delegate any of its duties or Indebtedness under this IP Security Agreement and any such attempted assignment or delegation shall be null and void. This IP Security Agreement is not intended and shall not be construed to obligate Lender to take any action whatsoever with respect to the Patents, Licenses,

Trademarks, and Copyrights or to incur expenses or perform or discharge any obligation, duty or disability of Grantor.

15. **Waivers.** No course of dealing among any Grantor and Lender nor any failure to exercise nor any delay in exercising, on the part of Lender, any right, power or privilege hereunder or under the Note or the Security Agreement shall operate as a waiver thereof; nor shall any single or partial exercise of any right, power or privilege hereunder or thereunder preclude any other or further exercise thereof or the exercise of any other right, power or privilege.

16. **Severability.** The provisions of this IP Security Agreement are severable, and if any clause or provision shall be held invalid and unenforceable in whole or in part in any jurisdiction, then such invalidity or unenforceability shall affect only such clause or provision, or part thereof, in such jurisdiction, and shall not in any manner affect such clause or provision in any other jurisdiction, or any other clause or provision of this IP Security Agreement in any jurisdiction.

17. **Modification.** This IP Security Agreement cannot be altered, amended or modified in any way, except as specifically provided in Paragraph 7 hereof or by a writing signed by the parties hereto.

18. **Cumulative Remedies: Effect on Other Documents.** All of Lender's rights and remedies with respect to the Patents, Licenses, Trademarks, and Copyrights, whether established hereby, by the Note, the Security Agreement or the other Related Documents (as defined in the Note or Security Agreement), or by any other agreements or by applicable law shall be cumulative and may be exercised singularly or concurrently. Grantor acknowledges and agrees that this IP Security Agreement is not intended to limit or restrict in any way the rights and remedies of Lender under the Note, the Security Agreement or any other Related Document (as defined in the Note or Security Agreement), but rather is intended to facilitate the exercise of such rights and remedies.

19. **Binding Effect; Benefits.** This IP Security Agreement shall be binding upon the Grantor and its successors and assigns, and shall inure to the benefit of Lender and its successors and assigns.

20. **Governing law.** This IP Security Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Pennsylvania.

21. **Statute of Limitations.** Until all Indebtedness shall have been paid in full and all commitments by Lender to extend credit to Grantor have been terminated, the power of sale or other disposition and all other rights, powers, privileges and remedies granted to Lender hereunder shall, to the extent permitted by applicable law, continue to exist and may be exercised by Lender at any time and from time to time irrespective of the fact that the Indebtedness or any part thereof may have become barred by any statute of limitations, or that the personal liability of Grantor may have ceased, unless such liability shall have ceased due to the payment in full of all Indebtedness secured hereunder.

22. Costs, Expenses and Attorneys' Fees. Grantor shall pay to Lender immediately upon demand the full amount of all payments, advances, charges, costs and expenses, including reasonable attorneys' fees (to include outside counsel fees and all allocated costs of Lender's in-house counsel), expended or incurred by Lender in connection with (a) the perfection and preservation of the Patents, Licenses, Trademarks, and Copyrights or Lender's interest therein, and (b) the realization, enforcement and exercise of any right, power, privilege or remedy conferred by this IP Security Agreement, whether incurred at the trial or appellate level, in an arbitration proceeding or otherwise, and including any of the foregoing incurred in connection with any bankruptcy proceeding (including without limitation, any adversary proceeding, contested matter or motion brought by Lender or any other person) relating to Grantor or in any way affecting any of the Patents, Licenses, Trademarks, or Copyrights or Lender's ability to exercise any of its rights or remedies with respect thereto. All of the foregoing shall be paid by Grantor with interest from the date of demand until paid in full at a rate per annum equal to the greater of ten percent (10%) or Lender's Prime Rate in effect from time to time.

23. Notices. All notices, statements, requests and demands and other communications given to or made upon Grantor, or Lender in accordance with the provisions of this IP Security Agreement shall be given or made as provided in the Note or Security Agreement.

IN WITNESS WHEREOF, and intending to be legally bound, undersigned have executed and delivered this IP Security Agreement on the day and year written above.
