## INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

THIS INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT (this "Agreement"), dated as of August 8, 2016, is by and between International Development LLC, a Delaware limited liability company (the "Seller"), and Sky Rich Star Limited, a Hong Kong corporation (the "Buyer").

### RECITALS

A. The Seller and the Buyer are parties to that certain Asset Purchase Agreement dated as of June 27, 2016 (the "Purchase Agreement"). The execution and delivery of this Agreement is an obligation of each of the Buyer and the Seller for the Closing under the Purchase Agreement.

B. The Seller owns and possesses, free and clear of all Liens (other than Permitted Liens), all right, title and interest in and to, or has the right to use pursuant to a valid and enforceable written license, each of the Patents and each of the Trademarks.

### AGREEMENT

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Seller and the Buyer hereby agree as follows:

**1. Definitions.** Capitalized terms used herein but not defined herein shall have the meanings assigned such terms in the Purchase Agreement.

**2. Assignment.** In accordance with the Purchase Agreement, the Seller hereby irrevocably grants, transfers, assigns, and conveys unto the Buyer all right, title, and interest in, to, and under each of the inventions, and any and all improvements thereof, described in the Patents listed in Exhibit A hereto, and any continuation, continuation-in-part, division, renewal, substitute, re-issue, or reexamination thereof, and each of the Trademarks, as more fully described on Exhibit B hereto. The Seller further covenants that, upon the Buyer's reasonable request, at the Buyer's expense, and to the extent readily ascertainable by the Seller, the Seller will execute and deliver to the Buyer or its legal representatives any and all papers, instruments, or affidavits reasonably required to apply for, obtain, maintain, issue, or enforce all applications, said invention, and said Patents (all of the foregoing, collectively, the "Assigned Patent Rights"). Seller hereby irrevocably assigns, transfers, conveys, and delivers to Buyer all rights to sue or to bring any action or to assert any claim, whether at law or in equity, against any person or entity relating to any of the Assigned Patent Rights, including without limitation for past, present, or future infringement, misappropriation, or other unauthorized use of any of the Assigned Patent Rights, to obtain injunctive relief, and to recover or collect royalties, damages, and profits, including without limitation for such past, present, or future infringement, misappropriation, or unauthorized use of any of the Assigned Patent Rights.

**3. Recordation and Further Actions.** The Seller hereby authorizes the Commissioners for Patents and Trademarks, respectively, in the United States Patent and Trademark Office, and the officials of corresponding entities or agencies in any applicable jurisdictions, to record and register this Agreement upon request by the Buyer. Following the date hereof, in case any further action is necessary to carry out the purposes of this Agreement, the Seller shall take such further action (including the execution and delivery of such further instruments and documents) as the Buyer may reasonably request, at the sole cost and expense of the Buyer (unless the Buyer is entitled to indemnification therefor under Article VI of the Purchase Agreement).

**4. Terms of the Purchase Agreement.** This Agreement is subject to the terms of the Purchase Agreement. The Seller and the Buyer acknowledge and agree that the representations, warranties, covenants, agreements and indemnities contained in the Purchase Agreement are not superseded hereby but remain in full force and effect to the full extent provided therein. In the event of any conflict or inconsistency between the terms of the Purchase Agreement and the terms hereof, the terms of the Purchase Agreement govern.

**5. Counterparts; Electronic Transmission of Signatures.** This Agreement may be executed in one or more counterparts, each of which shall be deemed an original but all of which together will constitute one and the same instrument. A facsimile or other copy of a signature, including execution and delivery of this Agreement by electronic exchange bearing the copies of the signature of a party, shall be deemed an original for purposes of this Agreement.

**6. Notices.** All notices, requests, demands, claims and other communications hereunder shall be given in the manner set forth in the Purchase Agreement. Either party may change the address to which notices, requests, demands, claims and other communications hereunder are to be delivered by giving the other party notice of such change in the manner set forth in the Purchase Agreement.

**7. Severability.** Whenever possible, each provision of this Agreement shall be interpreted in such manner as to be effective and valid under applicable Law, but if any term or provision of this Agreement is held to be invalid, illegal or unenforceable in any situation in any jurisdiction, such invalidity, illegality or unenforceability shall not affect the validity, legality or enforceability of the remaining terms and provisions hereof or the validity, legality or enforceability of the offending term or provision in any other situation or in any other jurisdiction, and this Agreement shall be reformed, construed and enforced in such jurisdiction so as best to give effect to the intent of the parties under this Agreement.

**8. Amendments.** This Agreement may not be amended or modified except by an instrument in writing signed by, or on behalf of, the Seller and the Buyer.

**9. Governing Law.** This Agreement shall be governed by and construed in accordance with the domestic laws of the State of New York without giving effect to

any choice or conflict of law rules or provisions (whether of the State of York or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the State of New York.

**10. No Third Party Beneficiaries.** This Agreement shall not confer any rights or remedies upon any Person other than the parties and their respective successors and permitted assigns.
