## ASSIGNMENT OF TRADEMARKS AND TECHNOLOGY

THIS ASSIGNMENT is made as of March 14, 2012 (the "Effective Date"), by Kardex AG, a limited corporation with a place of business at Thurgauerstr. 90, 8050 Zürich ("Assignor") in favor of Kardex Remstar, LLC, a Delaware corporation with a place of business at Westbrook, Maine USA ("Assignee").

WHEREAS, Assignor owns certain assets, including the trademarks and corresponding U.S. and International Registrations set forth on Schedule A (collectively, the "Trademarks"), and uses such assets in North America exclusively through Assignee;

WHEREAS, Assignor owns U.S. Patent No. 7,332,707 B2, for an invention known as "Aisle Width Sensor Mobile Storage Systems" (the "Patent");

WHEREAS, Assignor owns intellectual property rights in and to that certain technology, including hardware and software, known as Kompakt Mobile Storage (collectively, the "Technology");

NOW, THEREFORE, effective as of the date set forth above, for the sum of EUR 100,000.00\*\*\* and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor does hereby irrevocably sell, assign, transfer and convey to Assignee and its successors and assigns:

1. Assignor's entire right, title and interest, in and to the trademarks set forth on Schedule A hereto throughout North America, the goodwill symbolized thereby, the corresponding United States, Mexican and Canadian Trademark Registrations and Applications set forth on Schedule A;
2. Assignor's entire right, title and interest, in and to the Patent and Assignor's entire right, title and interest throughout North America in the underlying invention disclosed therein, including without limitation, the right, in connection therewith, to apply for and obtain patents (including continuation, continuation-in-part, divisional, reissued and reexamined patents) in any country in North America, which right, title and interest shall be held and enjoyed by Assignee to the full end of the term that the Patent and any other patents (including all continuation, continuation-in-part, divisional, reissued and reexamined patents) is or may be granted;
3. Assignor's entire right, title and interest, in and to the Technology, including, without limitation: (i) the right, in connection with the Technology throughout North America, to secure statutory copyrights and renewals, reissues, and extensions of such copyrights, which right, title and interest shall be held and enjoyed by Assignee to the full end of the term for which such copyrights or any renewal or extension thereof is or may be granted; (ii) the right to prepare derivative works or adaptations based on the Technology throughout North America; to reproduce the Technology throughout North America; to

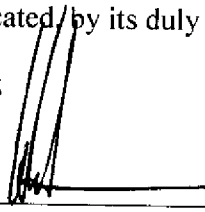

distribute copies of the Technology throughout North America; to perform the Technology throughout North America, including, without limitation, digital transmissions of the Technology through an interactive or subscription service; the right to display the Technology throughout North America; (iii) the right, in connection with the Technology, to apply for and obtain patents (including continuation, continuation-in-part, divisional, reissued and reexamined patents) in any country in North America, which right, title and interest shall be held and enjoyed by Assignee to the full end of the term that any patents (including all continuation, continuation-in-part, divisional, reissued and reexamined patents) is or may be granted; (iv) the right throughout North America to make, use, offer for sale, sell and import products and/or services that embody, in whole or in part, the Technology; and (v) the right throughout North America to any and all statutory and common-law trademark, service mark, and/or trade dress rights in and/or pertaining to the Technology, along with the goodwill associated therewith, including the right to apply for and obtain trademark and service mark registrations in any country in North America, and renewals and extensions of such trademark and service mark registrations, which right, title and interest shall be held and enjoyed by Assignee to the full end of the term for which such trademark or service mark registrations or any renewal or extension thereof is or may be granted;

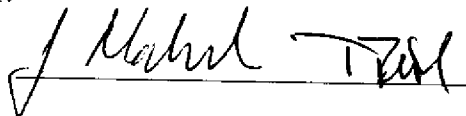

4. All licenses to which Assignor is a party and which relate to the Trademarks, the Patent, and/or the Technology throughout North America, including the right to collect all royalties or any other payments which are or become due and payable to Assignor under said licenses, and any other income, royalties, damages, and payments now or hereafter due or payable to Assignor with respect to the Trademarks, the Patent, and/or the Technology; and
5. All causes of action (either in law or in equity) and the right to sue, and recover for past, present, or future infringement of the rights assigned to Assignee hereunder.

Assignor hereby agrees to execute all papers and to perform such other proper acts as Assignee or its successors or assigns may deem reasonably necessary to secure to Assignee, or to its successors or assigns, the rights hereby transferred.

**WHEREFORE**, Assignor has caused this Assignment to be duly executed below, on the date indicated by its duly authorized officer.
