SHORT-FORM
INTELLECTUAL PROPERTY SECURITY AGREEMENT

(Stone Bond Technologies, L.P.)

This Short-Form Intellectual Property Security Agreement (the "Short-Form IP Security Agreement"), is entered into as of June 16, 2017 by and between STONE BOND TECHNOLOGIES, L.P., a Texas limited partnership ("Grantor"), and SSI TECHNOLOGIES, LLC, a Delaware limited liability company ("Secured Party").

RECITALS

A. Grantor has executed a certain Secured Promissory Note of even date herewith in the original principal amount of US \$250,000.00 (the "Loan") in favor of Secured Party (as amended, supplemented or other modified from time to time, the "Note").

B. In connection with the Note, Grantor has entered into an Intellectual Property Security Agreement of even date herewith (as amended, supplemented or other modified from time to time, the "Intellectual Property Security Agreement") in order to induce Secured Party make the Loan.

C. Under the terms of the Intellectual Property Security Agreement, Grantor has granted to Secured Party a security interest in certain intellectual property of Grantor, and has agreed as a condition thereof to execute this Short-Form IP Security Agreement for recording with the United States Patent and Trademark Office.

D. All capitalized terms not defined herein shall have the definitions ascribed to them in the Intellectual Property Security Agreement, and are incorporated herein by reference.

AGREEMENT

1. Grant of Security Interest. Grantor hereby grants to the Secured Party a security interest in all of Grantor's right, title and interest in and to the United States registered Patent and Trademarks set forth on Exhibit A attached hereto ("Collateral").

2. Security for Obligations. The grant of a security interest in the Collateral by Grantor under this Short-Form IP Security Agreement secures the payment of all Obligations (as defined in the Note) of Grantor now or hereafter existing under or in respect of the Loan Documents (as defined in the Note), whether direct or indirect, absolute or contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise. Without limiting the generality of the foregoing, this Short-Form IP Security Agreement secures, as to Grantor, the payment of all amounts that constitute part of the secured Obligations and that would be owed by Grantor to Secured Party under the Loan Documents but for the fact that such secured Obligations are unenforceable or not allowable due to the existence of a bankruptcy, reorganization or similar proceeding involving Grantor.

3. Recordation. This Short-Form IP Security Agreement has been executed and delivered by Grantor for the purpose of recording the grant of the grant of security interest herein with the United States Patent and Trademark Office. Grantor authorizes and requests the Commissioner of Patents and the Commissioner of Trademarks to record this Short-Form IP Security Agreement.

4. Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute the same instrument. A facsimile or .pdf copy of a duly executed counterpart of this Agreement shall be sufficient to evidence the binding agreement of any signatory hereto.

5. Grants, Rights and Remedies. This Short-Form IP Security Agreement has been entered into in conjunction with the provisions of the Intellectual Property Security Agreement. Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, Secured Party with respect to the Collateral are more fully set forth in the Intellectual Property Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein. In the event of any conflict between the terms of this Short-Form IP Security Agreement and the terms of the Intellectual Property Security Agreement, the terms of the Intellectual Property Security Agreement shall govern and control.

6. Severability. In case any one or more provisions contained in this Short-Form IP Security Agreement should be held invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions contained herein and in the Intellectual Property Security Agreement shall not in any way be affected or impaired thereby (it being understood that the invalidity of a particular provision in a particular jurisdiction shall not in of itself affect the validity of such provision in any other jurisdiction). The parties hereto shall endeavor in good-faith negotiations to replace the invalid, illegal or unenforceable provisions with valid provisions the economic effect of which comes as close as possible to that of the invalid, illegal or unenforceable provisions.
