W I T N E S S E T H:

WHEREAS, pursuant to that certain Credit Agreement dated as of June 27, 2017 (as amended, restated, amended and restated, supplemented or otherwise modified from time to time, the "Credit Agreement") among Penn Engineering & Manufacturing Corp., a Delaware corporation (the "U.S. Borrower"), PEG GmbH, a German limited liability company (Gesellschaft mit beschränkter Haftung) (the "German Borrower"), PennEngineering Fastening Technologies (Europe) Limited, a company incorporated in Ireland (the "Irish Borrower" and, together with the U.S. Borrower and the German Borrower, the "Borrowers"), the Lenders party thereto and the Administrative Agent and the other agents named therein, the Lenders have severally agreed to make extensions of credit to the Borrowers upon the terms and conditions set forth therein;

WHEREAS, as a condition precedent to the obligation of the Lenders to make their respective extensions of credit to the Borrowers under the Credit Agreement, the Obligors described therein entered into a Security Agreement dated as of June 27, 2017 (as amended, restated, amended and restated, supplemented or otherwise modified from time to time, the "Security Agreement") between each of the Obligors and the Administrative Agent, pursuant to which each of the Obligors assigned, transferred and granted to the Administrative Agent, for the benefit of the Secured Parties, a security interest in the Trademark Collateral (as defined below); and

NOW, THEREFORE, in consideration of these premises and to induce the Administrative Agent and the Lenders to enter into the Credit Agreement and to induce the Lenders and the Issuing Banks to make their respective extensions of credit to the Borrowers thereunder and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, each Obligor hereby agrees with the Administrative Agent, for the benefit of the Secured Parties, as follows:

SECTION 1. Defined Terms.

Capitalized terms used but not defined herein shall have the respective meanings given thereto in the Security Agreement, and if not defined therein, shall have the respective meanings given thereto in the Credit Agreement.

SECTION 2. Grant of Security Interest.

Each Obligor hereby assigns and transfers to the Administrative Agent, and hereby grants to the Administrative Agent, for the benefit of the Secured Parties, a security interest in all of the following property, in each case, wherever located and now owned or at any time hereafter acquired by such Obligor or in which such Obligor now has or at any time in the future may acquire any right, title or interest (collectively, the “Trademark Collateral”), as collateral security for the prompt and complete payment and performance when due (whether at the stated maturity, by acceleration or otherwise) of such Obligor’s Secured Obligations:

all domestic, foreign and multinational trademarks, service marks, trade names, corporate names, company names, business names, fictitious business names, trade dress, trade styles, logos, Internet domain names, other indicia of origin or source identification, and general intangibles of a like nature, whether registered or unregistered, and with respect to any and all of the foregoing: (i) all registrations and applications for registration thereof including, without limitation, the registrations and applications listed in Schedule A attached hereto, (ii) all extension and renewals thereof, (iii) all of the goodwill of the business connected with the use of and symbolized by any of the foregoing, (iv) all rights to sue or otherwise recover for any past, present and future infringement, dilution, or other violation thereof, (v) all Proceeds of the foregoing, including, without limitation, license fees, royalties, income, payments, claims, damages and proceeds of suit now or hereafter due and/or payable with respect thereto and (vi) all other rights of any kind accruing thereunder or pertaining thereto throughout the world.

SECTION 3. Security Agreement.

The security interest granted pursuant to this Agreement is granted in conjunction with the security interest granted to the Administrative Agent for the Secured Parties pursuant to the Security Agreement, and the Obligors hereby acknowledge and affirm that the rights and remedies of the Administrative Agent with respect to the security interest in the Trademark Collateral made and granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein. In the event that any provision of this Agreement is deemed to conflict with the Security Agreement, the provisions of the Security Agreement shall control.
