INTRODUCTION

A Assignor has agreed to assign the CHLORIDE Marks to Assignee on the terms set out in this Assignment.

IT IS AGREED THAT:

1 DEFINITIONS

In this Assignment the following words have the meanings set out below unless stated otherwise.

"**CHLORIDE Marks**" means all registrations and applications worldwide for or including the trademark or term CHLORIDE owned by Assignor or its Affiliates, including those set out in Appendix 1 of this Assignment, as well as any common law, or other unregistered rights Assignor and/or its Affiliates has in the mark CHLORIDE, and any domain names comprising, containing or consisting of the mark or term CHLORIDE, whether known or unknown as of the effective date of this Assignment.

"**Affiliates**" means any entity directly or indirectly controlled by, under common control with, or that controls the subject Party wherein control means direct or indirect ownership of (i) more than fifty percent (50%) of the outstanding shares or securities entitled to vote for the election of directors or similar managing authority of the subject entity, or (ii) more than fifty percent (50%) of the ownership interest representing the right to make decisions for the subject entity.

"**AS-IS**" means free from and excluding any representation and/or warranty to the fullest extent permissible in law save for and except for and subject to those representations and/or warranties expressly given in this Assignment or as otherwise given by Assignor, and any other warranties that cannot be excluded by law. For the avoidance of doubt, "AS-IS" means free from any warranty and/or representation that the CHLORIDE Marks have been used or are in use, that the CHLORIDE Marks are valid, that the CHLORIDE Marks are not infringed by any third party, that the CHLORIDE Marks do not infringe the rights of any third party, that

the CHLORIDE Marks have not previously been licensed or assigned to any third party or that the CHLORIDE Marks are not prone to cancellation.

2 ASSIGNMENT

In consideration of USD \$10.00, and other valuable consideration (the receipt and sufficiency of which are acknowledged), Assignor assigns to Assignee, AS-IS, the CHLORIDE Marks together with all the right, title and interest Assignor has therein and the goodwill of the business relating to the goods and services in respect of which the CHLORIDE Marks are registered or applied for or used in connection therewith, including, without limitation, all the rights, powers and benefits arising or accrued therefrom together with the right to sue for and take all such other proceedings as may be necessary for the recovery of past, present and future damages or any other remedies in respect of any infringement of any of the CHLORIDE Marks and the violation of any common law or other unregistered rights connected with any of the CHLORIDE Marks (including without limitation the right to sue for passing off) whether taking place before or on or after the Effective Date of Assignment. Said rights to be held and enjoyed by Assignee, for its own use and benefit and for the use and benefit of its successors, assigns or other legal representatives as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment had not been made.

3 FURTHER ASSURANCE

Assignor shall, at the request of Assignee or its nominee, promptly do all such acts and execute or procure all such documents as may be reasonably necessary to vest the CHLORIDE Marks or any part thereof in Assignee or otherwise to give effect to this Assignment and perfect Assignee's title.
