SECURITY INTEREST GRANT
INTELLECTUAL PROPERTY

September 19, 2017

WHEREAS, TS Buyer Corp., a Delaware corporation ("Intermediate Holdings"), TS Parent, LLC, a Delaware limited liability company ("Holdings"), Transshield, Inc., an Indiana corporation (the "Grantor"), and MB Financial Bank, N.A., a national banking association ("Lender"), are party to that Security Agreement, dated the date hereof, among the Lender, the Grantor, Holdings and Intermediate Holdings (as amended, restated, supplemented or otherwise modified from time to time, respectively, the "Security Agreement");

WHEREAS, pursuant to the terms of the Security Agreement, the Grantor created in favor of the Lender a security interest in, and the Lender has become a secured creditor with respect to, substantially all assets of the Grantor, which includes the Intellectual Property Collateral (as defined below); and

WHEREAS, the Grantor has adopted, used and is using, and holds all right, title and interest in, various intangible assets, including the Intellectual Property Collateral (as defined below).

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the Grantor hereby grants to the Lender a security interest in all of the Grantor's right, title and interest in and to the following (the "Intellectual Property Collateral");

(A) the patents and patent applications set forth in Schedule A hereto (the "Patents");

(B) the trademark and service mark registrations and applications set forth in Schedule B hereto (provided that no security interest shall be granted in United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark applications under applicable federal law), together with the goodwill symbolized thereby (the "Trademarks");

(C) all copyrights, whether registered or unregistered, now owned or hereafter acquired by the Grantor, including, without limitation, the copyright registrations and applications set forth in Schedule C hereto (the "Copyrights");

(D) all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing, and, to the extent applicable, all rights in the foregoing provided by international treaties or conventions, all rights corresponding thereto throughout the world and all other rights of any kind whatsoever of the Grantor accruing thereunder or pertaining thereto;

(E) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and

(F) any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any of the foregoing.

The Grantor does hereby further acknowledge and affirm that the rights and remedies of the Lender with respect to the Intellectual Property Collateral are more fully set forth in the Credit Agreement and the

Security Agreement, the terms and provisions of which are hereby incorporated herein by reference as if fully set forth herein.

This Security Interest Grant Intellectual Property (the "Grant") shall be construed in accordance with and governed by the laws of the State of Illinois applicable to contracts made and to be performed entirely within such State. Whenever possible, each provision of this Grant shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Grant shall be prohibited by or invalid under applicable law, such provision shall be ineffective to the extent of such prohibition or invalidity, without invalidating the remainder of such provision or the remaining provisions of this Grant.

Terms defined in the Security Agreement and used herein without other definition shall have the respective meanings assigned to them in the Security Agreement.

(Signature Page Follows)

IN WITNESS WHEREOF, the Grantor has caused this Security Interest Grant Intellectual Property to be duly executed by its duly authorized officer effective as of the date first written above.
