## INTELLECTUAL PROPERTY ASSIGNMENT

This Intellectual Property Assignment (this “Assignment”) is made as of October 2, 2017, by and between Miami Marlins, L.P., a Delaware limited partnership (“Assignor”), and Marlins Teamco LLC (f/k/a Wolverine Baseball Holdings, LLC), a Delaware limited liability company (“Assignee”).

A. Assignor and Marlins Holdings LLC (f/k/a Wolverine Acquisition Holdings, LLC) (“Buyer”) have entered into an Asset Purchase Agreement dated as of August 11, 2017 (the “Purchase Agreement”) pursuant to which Assignor has agreed to assign, convey and transfer to Buyer, among other assets, the Assigned IP (defined below), and has agreed to execute and deliver this Agreement; and

B. Buyer has assigned its rights under the Purchase Agreement, including its rights to acquire the Assigned IP, to Assignee, an indirect wholly-owned subsidiary of Buyer.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which hereby are acknowledged:

1. Effective as of the Closing (as such term is defined the Purchase Agreement), Assignor hereby irrevocably assigns, conveys and transfers to Assignee, and Assignee hereby accepts and acquires from Assignor, Assignor’s entire right, title and interest in and to the following (the “Assigned IP”):

a. the trademark registrations and applications that are Purchased Assets (as such term is defined in the Purchase Agreement), including those set forth on Schedule A, and all issuances, extensions and renewals thereof and interests appurtenant thereto, together with all goodwill symbolized thereby or associated therewith;

b. the copyright registrations that are Purchased Assets, including those set forth on Schedule B, and all issuances, extensions and renewals thereof and interests appurtenant thereto;

c. the domain name registrations that are Purchased Assets, including those set forth on Schedule C;

d. all rights of any kind of Assignor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world;

e. any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

f. any and all claims, causes of action, defenses and rights of offset or counterclaim with respect to any of the foregoing, whether accruing before, on, or after the date

hereof, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief for past, present, and future infringement, dilution, misappropriation, violation, misuse, breach, or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. Assignor hereby authorizes the United States Patent and Trademark Office, the United States Copyright Office, and the corresponding entities or agencies in any applicable countries outside the United States, to record and register this Assignment.

3. From time to time, Assignor shall execute and deliver all such further assignments or other instruments of conveyance and transfer as Assignee may reasonably request to more effectively transfer to and vest in Assignee all right, title, and interest in and to the Assigned IP.

4. Nothing in this Assignment, express or implied, is intended or shall be construed to modify, expand or defeat, impair or limit in any way the rights, obligations, claims or remedies of the parties as set forth in the Purchase Agreement. In the event of any conflict or inconsistency between the terms of the Purchase Agreement and the terms hereof, the terms of the Purchase Agreement shall govern.

5. If any provision of this Assignment (or any portion thereof) or the application of any such provision (or any portion thereof) to any person or circumstance shall be held invalid, illegal or unenforceable in any respect by a court of competent jurisdiction, such invalidity, illegality or unenforceability shall not affect any other provision hereof (or the remaining portion thereof) or the application of such provision to any other persons or circumstances. It is understood that any finding of invalidity of one assignment, conveyance or transfer as effected hereby shall not affect the assignment, conveyance or transfer of other Assigned IP.

6. This Assignment and all of the provisions hereof shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns.

7. This Assignment shall be governed by, construed and enforced in accordance with the laws of the State of New York without regard to any applicable conflicts of law rules or principles that would otherwise cause the application of the laws of another jurisdiction.

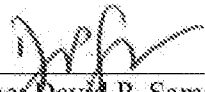

8. This Assignment may be executed (including by facsimile or other electronic transmission (e.g., portable data format)) with counterpart signature pages or in multiple counterparts, all of which shall be considered one and the same agreement.
