## Trademark Assignment Agreement

This **TRADEMARK ASSIGNMENT AGREEMENT** is made between Symantec Corporation, a Delaware corporation ("*Assignor*"), and DigiCert, Inc., a company incorporated under the Laws of the State of Utah ("*Assignee*").

WHEREAS, pursuant to the Intellectual Property Matters Agreement dated as of October 31, 2017 between Assignor and Assignee (the "*IPMA*"), Assignor agreed to assign or cause to be assigned to Assignee all of Assignor's right, title and interest in and to certain Trademarks.

NOW, THEREFORE, for good and valuable consideration, receipt and sufficiency of which are hereby acknowledged, it is hereby agreed by and between the parties as follows:

Capitalized terms used in this Trademark Assignment Agreement which are not otherwise defined herein will have the meanings set forth in the IPMA.

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby grants, conveys and assigns, and will cause its Affiliates to assign, to Assignee, on a worldwide basis, all of its right, title and interest in and to the Trademarks listed on Schedule A hereto, including those that are registered and those that are pending registration (the "*Assigned Trademarks*"), together with the associated goodwill in the Assigned Trademarks and in the business, products, and services symbolized by the Assigned Trademarks, including any and all rights, priorities, and privileges of Assignor under the Laws of the United States and any of its states, the Laws of any other jurisdiction, multinational Law, and any compact, treaty, protocol, convention, or organization, subject to such currently outstanding license or use rights to the Assigned Trademarks as currently exist, if any.

Assignor also assigns to Assignee all of its right, title, and interest in and to all (a) proceeds, causes of action, and rights of recovery and collection, and rights to sue and recover damages from, against third parties for past and future infringement, misappropriation, or other violation or impairment of any of the Assigned Trademarks, (b) royalties, fees, income, and other payments and proceeds due or accrued as of the Closing Date or thereafter under or arising from any of the Assigned Trademarks, and (c) all applications and registrations for the Assigned Trademarks that Assignor holds or controls, including the right to file trademark additional applications and to all resulting registrations.

Assignor will sign such additional documents, and take such other actions reasonably requested by Assignee, as may be necessary to perfect or record the assignment and to carry out the intent of the parties as reflected in this Trademark Assignment Agreement.

Each of Assignor and Assignee hereby authorizes the Commissioner of Patents and Trademarks in the United States Patent and Trademark Office, and the corresponding entities or agencies in any applicable foreign countries or multinational authorities, to record Assignee as the assignee of all of Assignor's right, title and interest in, to and under the Assigned Trademarks and to deliver to Assignee, and to Assignee's attorneys, agents, successors or assigns, all official documents and communications.
