## TRADEMARK ASSIGNMENT

This TRADEMARK ASSIGNMENT (this "Trademark Assignment") is entered into as of November 1, 2017 by and between Celularity Biosourcing, LLC, a Delaware limited liability company ("Assignor") and Celularity, Inc., a Delaware corporation ("Assignee").

WHEREAS, Assignor holds the entire right, title, and interest in and to all trademarks, trademark applications, and trademark registrations listed on the attached Trademark Schedule (collectively, the "Marks"); and

WHEREAS, Assignor, a wholly owned subsidiary of Assignee, wishes to assign to Assignee all rights it has in the Marks, together with all related common law rights and the goodwill of the business connected with the use of and symbolized by the Marks.

NOW, THEREFORE, be it known by all whom it may concern, that for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged:

1. Assignor hereby assigns, transfers and sets over to Assignee, its successors and assigns, and Assignee hereby accepts, Assignor's entire right, title and interest, whether statutory or at common law, in and to the Marks, together with the goodwill of the business identified through the use of and symbolized by the Marks, in the United States of America and throughout the world, including the entire right, title, and interest in and to all claims for damages by reason of past infringement of the Marks, together with the right to sue for, collect, and retain the proceeds relating to any such infringement, and in and to all legal equivalents of the Marks in foreign countries to the extent any such rights exist in foreign countries.
2. From time to time, each of the parties hereto shall execute and deliver all such further assignments or other instruments of conveyance and transfer as the other party may reasonably request for the purpose of giving effect to, or evidencing or giving notice of, the transactions contemplated by this Trademark Assignment.
3. Assignor hereby authorizes and requests the United States Commissioner of Patents, and the Patent Office officials in foreign countries as are duly authorized by the respective foreign patent laws to issue trademarks, to issue any and all trademarks directed to the Marks to Assignee as the owner thereof.
4. Assignor hereby covenants and agrees that it shall not challenge any of the Marks or attempt to register or cause to be registered (or make any filing with respect to) any of the Marks anywhere in the world. Assignor agrees not to knowingly take any action with the intent to prevent or otherwise interfere with Assignee's or its licensees' or successors' use of the Marks, and hereby covenants not to sue Assignee under any trademark or other proprietary rights Assignor has in the Marks in connection with Assignee's use of the Marks.

5. This Trademark Assignment will be governed by and construed in accordance with the domestic laws of the State of Delaware for contracts entered into and to be performed in such state without giving effect to any choice or conflict of law provision or rule (whether of the State of Delaware or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the State of Delaware.
6. This Trademark Assignment may be executed in counterparts, all of which taken together shall constitute one agreement. For purposes of this Agreement, signatures delivered by facsimile or by email in the portable document format (PDF) or any other electronic format shall be accepted and binding as original signatures.
