WHEREAS, PACTEC, INC., a Louisiana corporation, (the "Grantor"), owns and uses in its business, and will in the future adopt and so use, various intangible assets, including the Intellectual Property Collateral (as defined below); and

WHEREAS, the Grantor has entered into an Intellectual Property Security Agreement (the "Security Agreement") effective as of November 30, 2017, in favor of BLUEHEDGE CAPITAL SECURED DEBT SBIC, L.P., a Delaware limited partnership (the "Secured Party") under which the Grantor granted a secured and protected interest in, and the Secured Party has agreed to become a secured creditor with respect to, the Intellectual Property Collateral.

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, subject to the terms, provisions, covenants and conditions of the Security Agreement, the Grantor hereby grants to the Secured Party a security interest in all of the Grantor's right, title and interest in, to and under the following property, in each case whether now existing or owned or hereafter acquired, developed or arising (whether by contract or operation of law and whenever located), which shall be retained by Secured Party, until the Secured Obligations have been paid in full (collectively, the "Intellectual Property Collateral"):

(i) all foreign and domestic patents and patent applications, all licenses relating to any of the foregoing and all income and royalties with respect to any licenses, including, without limitation, such patents, patent applications and patent licenses as described in Schedule A hereto, all rights to sue for past, present and future infringement thereof, all rights arising therefrom and pertaining thereto, and all reissues, divisions, continuations, renewals, extensions and continuations-in-part thereof; it being understood that the rights and interests included in the Intellectual Property Collateral hereby shall include, without limitation, all rights and interests under licensing or other contracts in favor of Grantor pertaining to the patent applications and patents presently or in the future owned or used by third parties but, in case of third parties which are not Affiliates of Grantor, only to the extent permitted by such licensing or other contracts and, if not so permitted, only with the consent of such third parties;

(ii) technology and other tangible and intangible property of Grantor, including, without limitation, know-how, all matters, reports, specifications, programs, design, ideas, documents, data, software, systems, methods, apparatuses, discoveries, processes, techniques, functionality, ideas, formulas, procedures, technology, copyrights, patent rights, trademarks, service marks, trade secrets, confidential information and all other proprietary rights and interests of Grantor listed on Schedule A attached hereto (collectively, the "Technology");

(iii) the entire goodwill of or associated with the businesses now or hereafter conducted by Grantor connected with or symbolized by any of the Intellectual Property Collateral;

(iv) all general intangibles (as defined in the UCC) and all intangible intellectual or other similar property of Grantor of any kind or nature, associated with or arising out of any of the foregoing Intellectual Property Collateral; and

(v) all proceeds, products, rents and profits of or from any and all of the foregoing Intellectual Property Collateral and, to the extent not otherwise included, all payments under insurance or any indemnity, warranty or guaranty, payable by reason of loss or damage to or otherwise with respect to any of the foregoing Intellectual Property Collateral.
