**INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT**

This Intellectual Property Assignment Agreement (this “Agreement”), effective as of March 7, 2018 (the “Effective Date”), is entered into by and between Proserv Operations, Inc., a Texas corporation (“Assignor”) and Proserv Gilmore Holdings LLC, a Delaware corporation (“Assignee”).

**RECITALS**

**WHEREAS**, pursuant to that certain Contribution Agreement, dated as of the date hereof, by and between Assignor and Assignee, Assignor agreed to contribute, transfer, assign, convey and deliver all of Assignor’s right, title and interest in and to: (i) the patents and the filed and unfiled patent applications set forth on Schedule A hereto (the “Patents”); (ii) the trademark applications and registrations therefor set forth on Schedule A hereto, together with the goodwill associated therewith (the “Trademarks”); and (iii) the domain names and registrations therefor set forth on Schedule A hereto (the “Domain Names”) that Assignor owns on the date hereof (collectively, the “Assigned IP”), to Assignee; and

**WHEREAS**, Assignor desires to contribute, transfer, assign, convey and deliver all of Assignor’s right, title and interest in and to the Assigned IP to Assignee, and Assignee desires to receive all right, title and interest of Assignor in and to the Assigned IP.

**NOW, THEREFORE**, in consideration of the foregoing recitals and the mutual promises, covenants and conditions herein contained, the receipt and sufficiency of which is acknowledged by the parties hereto, and intending to be legally bound hereby, the parties do hereby covenant and agree as follows:

1. Assignor does hereby irrevocably contribute, transfer, assign, convey and deliver to Assignee, its successors and assigns, and Assignee accepts from Assignor, all of Assignor’s right, title and interest in and to the Assigned IP, and all of the goodwill associated therewith, together with all causes of action, past, present and future related to the Assigned IP, including all right to damage and profits, due or accrued, throughout the world.
2. Assignor shall cooperate with Assignee to transfer the Domain Names electronically from such Assignor’s or other record owner’s account to Assignee’s account. Assignor hereby authorizes and requests any and all applicable registration authority(ies) to transfer the Domain Names from Assignor, or the applicable record owner, to Assignee.
3. Assignor further consents to recordation of this Assignment by Assignee, including with the U.S. Patent and Trademark Office or other similar foreign offices.
4. This Agreement shall be construed in accordance with and governed by the laws of the State of Delaware.
5. Nothing contained in this Agreement shall supersede any of the obligations, agreements, covenants, or representations and warranties of the Assignor or the Assignee contained in the Contribution Agreement, and this Agreement is made and accepted subject to all the terms, conditions, representations and warranties set forth in the Contribution Agreement, all of which survive execution and delivery of this Agreement as set forth in the Contribution

Agreement. In the event of any conflict between the terms of this Agreement and the terms of the Contribution Agreement, the terms of the Contribution Agreement shall control.

6. This Agreement may not be supplemented, altered or modified in any manner except by a writing signed by all parties hereto.

7. This Agreement shall be binding upon, and shall inure to the benefit of, the parties hereto and their respective permitted successors and assigns.

8.
