FIRST LIEN INTELLECTUAL PROPERTY SECURITY AGREEMENT

This FIRST LIEN INTELLECTUAL PROPERTY SECURITY AGREEMENT (as amended, amended and restated, supplemented or otherwise modified from time to time, the “IP Security Agreement”) dated March 13, 2018, is made by the Persons listed on the signature pages hereof (collectively, the “Grantors”) in favor of Morgan Stanley Senior Funding, Inc., as administrative agent and collateral agent for the banks and other financial institutions (collectively, the “Lenders”) party to the Credit Agreement referred to below (in such capacity, the “Administrative Agent”), for the benefit of the Secured Parties (as defined in the Credit Agreement referred to below). Except as otherwise provided herein, capitalized terms used herein without definition shall have the meanings given to them in the Credit Agreement referred to below.

WHEREAS, reference is made to the First Lien Credit Agreement, dated as of March 13, 2018 (as amended, modified or supplemented from time to time, the “Credit Agreement”), among Learning Care Group (US) Inc., Learning Care Group (US) No. 2 Inc. (“LCG2”), and the subsidiaries of LCG2 parties thereto, the Lenders and Agents from time to time parties thereto, and the Administrative Agent, which provides for the availability of certain credit facilities to the Borrowers upon the terms and subject to the conditions set forth therein.

WHEREAS, as a condition to the extension of credit to the Borrowers under the First Lien Credit Agreement, each Grantor has executed and delivered that certain First Lien Pledge and Security Agreement dated March 13, 2018 made by the Grantors to the Administrative Agent (as amended, amended and restated, supplemented or otherwise modified from time to time, the “Security Agreement”).

WHEREAS, under the terms of the Security Agreement, the Grantors have pledged, assigned, delivered and granted to the Administrative Agent, for the ratable benefit of the Secured Parties, a Lien upon and security interest in, among other property, certain intellectual property of the Grantors, in each case whether now owned or existing or hereafter acquired or arising, and have agreed as a condition thereof to execute this IP Security Agreement for recording with the U.S. Patent and Trademark Office, the United States Copyright Office, and any other governmental authorities, as applicable.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

SECTION 1. Grant of Security. Each Grantor hereby pledges, assigns, mortgages, delivers and grants to the Administrative Agent for the ratable benefit of the Secured Parties a Lien upon and security interest in all of such Grantor’s right, title and interest in and to the following property and assets of such Grantor, in each case whether now owned or existing or hereafter acquired or arising (the “Collateral”):

- (a) all domestic, foreign and multinational patents, including, without limitation, (i) all recordings and registrations thereof and applications therefor, including, without limitation, the patents and patent applications set forth in Schedule A hereto and, without limitation, the inventions described therein and improvements thereto;

(b) all domestic, foreign and multinational trademarks, including, without limitation, (i) all trademarks, service marks, trade names, corporate and company names, business names, internet domain names, logos, trade dress, trade styles, other source or business identifiers, designs and general intangibles of a similar nature, (ii) all recordings and registrations thereof and applications therefor, including, without limitation, the trademark and service mark registrations and applications set forth in Schedule B hereto (provided that no security interest shall be granted in United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark applications under applicable law), (iii) all renewals and extensions thereof, (iv) all goodwill associated therewith or symbolized thereby;

(c) all domestic, foreign and multinational copyrights, including, without limitation, (i) all copyright registrations and applications for copyright registration, including, without limitation, the copyright registrations and applications set forth in Schedule C hereto (ii) all recordings, supplemental registrations and derivative or collective work registrations, (iv) all renewals and extensions thereof;

(d) all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing;

(e) the right to sue or otherwise to recover for any past, present and future infringement, or dilution or other violation with respect to any of the foregoing;

(f) all Proceeds (as defined in the Security Agreement) of any of the foregoing, including, without limitation, license fees, royalties, income, payments, claims, damages, and proceeds of suit now or hereafter due and/or payable with respect thereto; and

(g) all other rights of any kind accruing under any of the foregoing or pertaining thereto throughout the world.

SECTION 2. Security for Obligations. The grant of a security interest in the Collateral by each Grantor under this IP Security Agreement secures the full and prompt payment, at any time and from time to time as and when due (whether at the stated maturity, by acceleration or otherwise), of all Secured Obligations (as defined in the Security Agreement) of each Grantor. Upon any sale or other disposition by any Grantor of any Collateral in a transaction permitted under the Credit Agreement or any other applicable Credit Document, the Lien and security interest created by this IP Security Agreement in and upon such Collateral shall be automatically released, and upon the satisfaction of all of the Termination Requirements, this IP Security Agreement and the Lien and security interest created hereby shall automatically terminate.

SECTION 3. Recordation. Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks and any other applicable government officer record this IP Security Agreement.

SECTION 4. Execution in Counterparts. This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

SECTION 5. Grants, Rights and Remedies. This IP Security Agreement has been entered into in conjunction with the provisions of the Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Administrative Agent with respect to the Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein. In the event that any provision of this IP Security Agreement is deemed to conflict with the Security Agreement, the provisions of the Security Agreement shall control.

SECTION 6. Governing Law. THIS IP SECURITY AGREEMENT AND THE RIGHTS AND OBLIGATIONS OF THE PARTIES HEREUNDER SHALL BE GOVERNED BY, AND CONSTRUED AND ENFORCED IN ACCORDANCE WITH, THE LAWS OF THE STATE OF NEW YORK WITHOUT REGARD TO THE CONFLICTS OF LAW PROVISIONS THEREOF.

[Remainder of page left intentionally blank.]

IN WITNESS WHEREOF, each Grantor has caused this IP Security Agreement to be duly executed and delivered by its officer thereunto duly authorized as of the date first above written.
