INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

This Intellectual Property Assignment Agreement (this "Assignment"), dated as of March 2, 2018, is by and between Giggle Holding, LLC, a Delaware limited liability company ("Assignee"), and Sanford P. Rosen, as the assignee for the benefit of the creditors of giggle, Inc. whose assets include the subsidiary LMC Right Start, Inc. ("Assignor").

WHEREAS, giggle, Inc. ("Giggle") assigned all of its assets to Assignor in his capacity as assignee in a Deed of Assignment For the Benefit of Creditors dated September 20, 2017, and such assigned assets included all Giggle intellectual property including, but not limited to, the trademarks and domain names set forth on Schedule 1 attached hereto (all Giggle intellectual property including that listed on Schedule 1 collectively, the "Assigned IP");

WHEREAS, on February 28, 2018, Alden Global Capital, LLC ("Alden Capital"), the parent of Assignee, presented the winning bid at the public auction held to sell all of the Giggle assets including the Assigned IP, and Alden Capital has designated that Assignee is to obtain ownership of all of the Assigned IP; and

WHEREAS, Assignor is mandated to and desires to assign, transfer, assign and transfer to Assignee, the Assigned IP pursuant to this Assignment.

NOW, THEREFORE, in consideration of the mutual agreements contained herein, and expressly subject thereto, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors and Assignee, intending to be legally bound, hereby agrees as follows:

1. Assignment. Assignor hereby assigns, conveys, transfers, and delivers to Assignee any and all of such Assignor's right, title and interest in and to the Assigned IP, including: all goodwill associated with the Assigned IP including that related to the products and services for which each item of Assigned IP is associated and for which each corresponding item of Assigned IP is registered or recorded; the look and feel of any websites, all rights in social media and other forms of media, branding, advertisements, sales and marketing materials, and data rights associated with the Assigned IP (as applicable); all income, royalties, and damages hereafter due and payable to such Assignor with respect to the Assigned IP, including without limitation, damages for any and all past, present and future causes of action and other enforcement actions (including, without limitation, for injunctive remedies and relief) and rights to damages and profits, due or accrued, relating to any of the foregoing, including the right to sue and recover for, and the right to profits and damages, due or accrued, arising out of or in connection with, any and all past, present or future infringements, misappropriations or dilutions; all rights relating to 35 U.S.C. § 100 et. seq., the Paris Convention for the Protection of Industrial Property, the International Patent Cooperation Treaty, all rights pursuant to 17 U.S.C. 101 et. seq., the Berne Convention Implementation Act of 1988, all rights pursuant to 15 U.S.C. 1051 et. seq., The Trademark Law Treaty, and all other applicable acts and associated amendments; any and all registrations or renewals associated with the Assigned IP; and all rights that apply in any country relating to any foreign counterpart, certification, registration or other governmental grant or issuance relating to, or seeking the benefit of, the Assigned IP throughout the world.

2. Recordation of Assignment. This Assignment may be made of record in any government, administrative or private authorities, including in the United States Patent and Trademark Office or any domain name registrar, as appropriate and desired by Assignee. Assignor hereby irrevocably authorizes and requests the Director of the U.S. Patent and Trademark Office, the Director of the U.S. Copyright Office, and any and all other officials of any other country whose duty it is to record changes in assignment of intellectual property, to issue renewals, extensions and/or registrations for intellectual property included in, related to or derived from, the Assigned IP to Assignee, its successors and assigns. Assignor hereby irrevocably consents and authorizes all registrars to transfer any and all

associated domain names included in the list of Assigned IP on Schedule 1 to the Assignee in accordance with the regular transfer procedures of each such registrar.

3. Further Assurances. Assignor, for itself, and its heirs, assigns, and legal representatives hereby further covenants to and with Assignee and its successors, assigns, and legal representatives to fully cooperate therewith in perfecting this assignment in the United States and in any and all foreign jurisdictions as required, said cooperation extending to all Assigned IP, and including the execution of additional assignments or other formal documents as may be required in connection therewith. Assignor, for itself, and its heirs, assigns, and legal representatives hereby further covenants to and with Assignee and its successors, assigns, and legal representatives to take such other actions and execute such other agreements and instruments as are reasonably deemed necessary by Assignee or the registrar to document and give effect to the assignment and transfer of each domain name included in the Assigned IP to Assignee. Assignor will cooperate promptly in facilitating the transfer to the Assignee of each domain name with each such associated registrar, and will follow the rules designated by each such registrar to effect such transfer, including promptly responding to all e-mails sent to Assignor's contact by each such registrar requesting actions necessary to the transfer including confirming the transfer of each such domain name to Assignee. Assignee will establish an account with each such registrar, or will set up or identify to Assignor another registrar of Assignee's choosing, and will initiate the transfer and follow the procedures required by each such registrar until completion of the transfer of each such domain name.

4. Future Use of Assigned IP. As of the date of this agreement, Assignee will have full rights to the Assigned IP and shall have the exclusive right to use or otherwise transfer the Assigned IP.

5. Governing Law. This Agreement shall be governed and construed in accordance with the laws of the State of New York, without reference to any choice of law principles.

6. No Impact on Prior Rights. Nothing in this Assignment is intended by the parties to (i) amend any rights or terms of any prior agreements to which the parties are signatories, or (ii) prejudice any other right of Assignee or Assignor.

7. Successors and Assigns. This Assignment shall be binding upon, and shall inure to the benefit of, the parties hereto and their respective successors and assigns.

8. Amendments and Waivers. No amendment, modification, waiver, replacement, termination, or cancellation of any provision of this Assignment will be valid, unless the same will be in writing and signed by Assignee and Assignor.

9. Counterparts. This Assignment may be executed in one or more counterparts, all of which shall be considered one and the same agreement, and shall become effective when one or more such counterparts have been signed by each of the parties and delivered to the other party. Facsimile or electronic mail transmission of counterpart signatures to this Assignment shall be acceptable and binding.
