**ASSIGNMENT OF INTELLECTUAL PROPERTY**

This ASSIGNMENT OF INTELLECTUAL PROPERTY (this “IP Assignment”), dated as of March 2, 2018, is made by and between General Dynamics Information Technology, Inc., a Virginia corporation (the “Assignor”), and Verscend Technologies, Inc., a Delaware corporation (the “Assignee”). All capitalized terms used and not otherwise defined herein will have the respective meanings ascribed to such terms in the Agreement (defined herein below).

WHEREAS, this IP Assignment is being entered into pursuant to that certain Asset Purchase Agreement, dated as of February 3, 2018, by and between the Assignor and the Assignee (as the same may be amended from time to time in accordance with its terms, the “Agreement”);

WHEREAS, pursuant to the Agreement, the Assignor and the Assignee have agreed to enter into this IP Assignment, pursuant to which Assignor has agreed to sell, assign, convey, deliver and transfer to the Assignee all of the right, title and interest that the Assignor possesses in and to the Purchased Intellectual Property (as defined in the Agreement); and

WHEREAS, Assignor owns all of the Purchased Intellectual Property identified on Schedule A attached hereto.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, effective as of the Effective Time on the date hereof, pursuant to the terms and subject to the conditions set forth in the Agreement, the Parties agree as follows:

1. The Assignor hereby sells, assigns, conveys, delivers and transfers to the Assignee all of the right, title and interest that the Assignor possesses in and to the Purchased Intellectual Property, including the Intellectual Property listed on Schedule A attached hereto (which is incorporated into and made a part of this IP Assignment), together with (a) the goodwill of the Business connected with the use of such Purchased Intellectual Property and symbolized thereby, and (b) all rights thereunder, and all remedies and rights therein under the Laws of all jurisdictions, including without limitation, all of the rights Assignor possesses to (i) apply for, prosecute and maintain all registrations, renewals, and/or extensions thereof, bring actions to recover for damages for past, present and future infringement or other violation thereof, and (ii) grant licenses or other interest therein. The Assignee hereby accepts such assignment in the scope as set out herein.
2. The Assignor shall provide the Assignee, its successors, assigns or other legal representatives, reasonable cooperation and assistance at the Assignee’s expense as are necessary to perfect or register the rights assigned herein.
3. The Assignee may record this Assignment with the United States Patent and Trademark Office (“USPTO”) and with comparable offices in other jurisdictions throughout the world. All costs associated with any such recordings shall be paid by the Assignee. The Assignor hereby authorizes and requests that the USPTO, and any official of any other country whose duty is to record documents evidencing ownership of Intellectual

Property, to record Assignee as owner of the Purchased Intellectual Property assigned to Assignee pursuant to this IP Assignment.

4. Nothing in this IP Assignment shall be construed to obligate the Assignor to maintain, support, upgrade, repair or otherwise improve any of the Purchased Intellectual Property. The Assignee and its successors and assigns shall have no right to receive any of the foregoing services from the Assignor except as may be set forth in a definitive agreement between them providing for the same.
5. This IP Assignment is subject to all of the terms, conditions and limitations set forth in the Agreement. This IP Assignment, the other Ancillary Documents and the Agreement collectively constitute the entire agreement among the parties hereto and supersede any prior and contemporaneous understandings, agreements, representations or warranties by or among the parties, written or oral, that may have related in any way to the subject matter hereof. In the event of any inconsistency between the terms and conditions of this IP Assignment and those in any of the other Ancillary Documents or the Agreement, the terms and conditions of the Agreement will control. Nothing contained herein will be deemed to alter, modify, expand or diminish the terms of the Agreement.
6. THIS IP ASSIGNMENT WILL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK, WITHOUT GIVING EFFECT TO ANY LAW OR RULE THAT WOULD CAUSE THE LAWS OF ANY JURISDICTION OTHER THAN THE STATE OF NEW YORK TO BE APPLIED.
7. This IP Assignment may be executed in two or more counterparts, each of which will be deemed an original, but all such counterparts taken together will constitute one and the same instrument. This IP Assignment may be executed and delivered by facsimile transmission or by electronic mail in "portable document format" (".pdf") or by a combination of such means, which will constitute effective execution and delivery of this IP Assignment as to the Parties and may be used in lieu of an original IP Assignment for all purposes.

**[REMAINDER OF THIS PAGE INTENTIONALLY LEFT BLANK]**

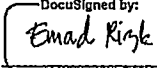

IN WITNESS WHEREOF, the parties hereto have duly executed and delivered this Assignment of Intellectual Property as of the date first written above.
