- C) The Lender acquired the Security Agreements from the Original Lender pursuant to an Assignment and Assumption Agreement dated January 5, 2018 (the "Acquisition");
- D) Under the Security Agreements, the Borrower granted to the Original Lender (and, after the Acquisition, the Lender), a security interest in and to their right, title and interest in and to all intellectual property rights owned by the Borrower, (the "IP Collateral"), including the trademark registrations and patent applications listed in Exhibit A attached hereto (the "Security Interest");
- E) The Security Interest was recorded against the IP Collateral listed in Exhibit A at the Canadian Intellectual Property Office and United States Patent and Trademark Office (collectively, the "IP Offices");
- F) The Lender confirms that it has not assigned or otherwise disposed of its Security Interest in and to any of the IP Collateral; and
- G) The Lender now desires to confirm the termination and release of the Security Interest in and to the IP Collateral.

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged:

- 1) Subject to receipt of the Payment Amount under and as defined in the payment letter of even date herewith by the Lender, the Lender hereby confirms that it has unconditionally and expressly released, terminated, and extinguished any and all of its right, title, and interest in and to any and all liens and security interests, including the Security Interest, it may have upon the IP Collateral and made part hereof, which liens and security interests were established under and pursuant to the Security Agreements.
- 2) The Lender hereby directs the IP Offices to record this Release in such places as deemed necessary or advisable to give effect hereto.
- 3) The Lender shall, at the request and sole cost of the Borrower, execute and deliver documents or other instruments, reasonably requested by the Borrower, to more fully and effectively release, terminate and extinguish any such liens and security interests, including the Security Interest, upon such IP Collateral.
