TRADEMARK ASSIGNMENT

THIS TRADEMARK ASSIGNMENT (this "Trademark Assignment") from Doppler Labs, Inc., a Delaware limited liability company ("Assignor") to Dolby Laboratories Licensing Corporation, a New York corporation ("Assignee"), is effective as of December 20, 2017.

WHEREAS, Assignor and Assignee have entered into an Asset Purchase Agreement, dated of even date herewith (the "Asset Purchase Agreement"), pursuant to which, among other things, Assignor has agreed to assign to Assignee the Assigned Trademarks (as defined below).

1. Assigned Trademarks. The term "Assigned Trademarks" means the trademark registrations set forth on Schedule A attached hereto.

2. Assignment. For good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, Assignor hereby irrevocably sells, assigns, transfers and delivers to Assignee all of Assignor's right, title and interest in and to the Assigned Trademarks, together with the goodwill of Assignor's business appurtenant thereto, all registrations and applications (including intent-to-use applications) for the Assigned Trademarks in all countries throughout the world, all income, royalties, damages and payments in respect of the Assigned Trademarks, and all causes of action for any and all previously occurring infringement of the rights being assigned and the right to receive and retain the proceeds or other remedies relating to those infringements.

3. Representations and Warranties. Seller represents and warrants that, as of the date hereof, (i) Assignor is the owner of the Assigned Trademarks; (ii) Assignor has the power and authority to execute this Trademark Assignment; (iii) Assignor has not entered into any agreement that conflicts with the terms of this Trademark Assignment; and (iv) Assignor shall not register any trademarks that are substantially similar or confusingly similar to any of the Assigned Trademarks.

4. Further Assurances. Assignor agrees to execute such further assignments and documents and to do such other acts as may be necessary or reasonably desirable to vest all of Assignor's right, title and interest in and to the Assigned Trademarks throughout the world in Assignee or as may be necessary or reasonably desirable to obtain, renew, or issue the Assigned Trademarks, including instructing the registrar for the Assigned Trademarks to transfer the Assigned Trademarks to Assignee. In the event that a trademark registrar does not accept or recognize this Trademark Assignment, Assignor hereby agrees that this document shall constitute a request by Assignor to the registrar to transfer the registration of the Assigned Trademarks to Assignee.

5. Governing Law. This Trademark Assignment shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to principles of conflicts of laws that would require the application of the laws of any other jurisdiction. Any action or proceeding arising out of this Trademark Assignment shall be brought and maintained exclusively in the courts of the State of California located in the City of San Francisco or in the United States District Court for the Northern District of California. The parties irrevocably submit to the jurisdiction of the courts of the State of California located in the City of San

Francisco and the United States District Court for the Northern District of California and appellate courts from any thereof for the purpose of any action or proceeding based hereon or arising out of this Trademark Assignment and irrevocably agrees to be bound by any judgment rendered thereby in connection with such action or proceedings.
