WHEREAS, the Assignee, certain of its affiliates, the Assignors, certain of their affiliates, and Orthofix are parties to that certain Asset Purchase Agreement, dated as of March 8, 2010 (the "Asset Purchase Agreement");

WHEREAS, pursuant to the Asset Purchase Agreement, the Assignee has purchased all of each Assignor's right, title and interest in, to and under the Transferred Intellectual Property listed and described on Schedule A attached hereto;

WHEREAS, each Assignor has a right, title, and/or interest in and to the specific Transferred Intellectual Property indicated as owned by such Assignor on Schedule A attached hereto; and

WHEREAS, the execution and delivery of this Instrument by Assignors is a condition to the obligations of the Assignee and its affiliates to consummate the transactions contemplated by the Asset Purchase Agreement;

NOW, THEREFORE, in consideration of the premises and the mutual agreements and covenants set forth in the Asset Purchase Agreement and hereinafter set forth, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties do hereby agree as follows:

1. Sale and Assignment of Transferred Intellectual Property. Effective at the Closing, and upon the terms and subject to the conditions of the Asset Purchase Agreement, each Assignor hereby sells, assigns, transfers, conveys and delivers to the Assignee all of such Assignor's right, title, and/or interest in and to all of the Transferred Intellectual Property and in and to all income, royalties, damages, (including past damages not yet paid) and payments now or hereafter due or payable with respect thereto, and in and to all causes of action, either at law or in equity, and the right to sue, counterclaim, and recover for infringement of the rights assigned herein, to be held and enjoyed by the Assignee for its own use and benefit and for their respective successors and assigns as the same would have been held by such Assignor had this assignment not been made. The conveyance herein includes all the goodwill of the Business associated with the Trademarks of the Transferred Intellectual Property. The conveyance herein includes any further inventions of the patent applications or any other patent applications based on the Transferred Intellectual Property. 2. Recordation of Assignment of Transferred Intellectual Property. Each Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States, and the patent and/or trademark office or agency of all foreign countries, (a) to issue any registrations granted for the Trademarks included in the Transferred Intellectual Property to the Assignee as the owner of the right, title, and/or interest in said Trademarks and (b) to record the Assignee as the assignee and owner of any and all of any Assignor's rights and/or interests in the Patents included in the Transferred Intellectual Property and to issue to the Assignee any and all granted Patents resulting from any Patent Applications included in the Transferred Intellectual Property, or any renewals of said Patents in accordance with the Assignee's interest therein.

8. Severability. If any term or other provision of this Instrument is invalid, illegal or incapable of being enforced by any rule of Law, or public policy, all other conditions and provisions of this Instrument shall nevertheless remain in full force and effect so long as the economic or legal substance of the transactions contemplated by this Instrument is not affected in any manner adverse to any party.
