**RELEASE OF SECURITY INTEREST  
IN INTELLECTUAL PROPERTY COLLATERAL**

This RELEASE OF SECURITY INTEREST IN INTELLECTUAL PROPERTY COLLATERAL (this “Release”), dated as of August 3, 2018, is made by Hercules Capital, Inc., a Maryland corporation (the “Secured Party”), in favor of Penumbra Brands, LLC, a Delaware limited liability company, formerly known as Antenna79, Inc. (the “Debtor”), under the Loan Agreement referred to below (terms used in this Release and not herein defined shall have the meanings set forth in the Loan Agreement).

WHEREAS, in connection with that certain (i) Loan and Security Agreement dated as of November 14, 2016, by and among the Debtor, certain lenders party thereto, and Secured Party in its capacity as administrative agent for the lenders party thereto (as amended, restated, supplemented or otherwise modified prior to the date hereof, the “Loan Agreement”), and (ii) Second Amended and Restated Intellectual Property Security Agreement dated as of November 14, 2016, by and between the Debtor and the Secured Party (as amended, restated, supplemented or otherwise modified prior to the date hereof, the “IP Security Agreement”), the Debtor granted security interests to Secured Party in certain intellectual property owned by the Debtor, including those listed on Annex I attached hereto (the “Intellectual Property Collateral”); and

WHEREAS, the IP Security Agreement was recorded in the United States Patent and Trademark Office (the “USPTO”) on May 5, 2017 at Reel 006050, Frame 0889 through Frame 0921.

WHEREAS, the Debtor has satisfied the terms of the IP Security Agreement and requests a specific release of the security interest granted and recorded against the Intellectual Property Collateral.

NOW THEREFORE, in consideration of the material covenants and agreements set forth herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Secured Party hereby RELEASES, terminates and discharges, without representation, recourse or warranty whatsoever, all of its rights in, to and under, including its Lien on and security interest in, and right of setoff against, the Intellectual Property Collateral, together with the goodwill of the business symbolized thereby, whether granted pursuant to the IP Security Agreement or any other agreement or document delivered in connection with the IP Security Agreement or Loan Agreement, and the Secured Party hereby reassigns any and all such right, title and interest that the Secured Party may have in, to and under the Intellectual Property Collateral to the Debtor.

The Secured Party agrees, at the Debtor’s expense, to cooperate with the Debtor and to provide the Debtor with the information and additional authorization reasonably required or desirable to effect the release of the Secured Party’s security interest in the released collateral described herein.

This Release and the rights and obligations of the parties hereto shall be governed by, and construed and interpreted in accordance with, the laws of the State of California.

[Signature Page Follows]

IN WITNESS WHEREOF, the Secured Party has executed this Release as of the date first above written.

**HERCULES CAPITAL, INC.**

By: 

Name: Jennifer Choe

Title: Assistant General Counsel

## PATENTS

### I. Owned Company Patents

	<b>Description</b>	Attorney Docket No.	<b>Notes</b>	<b>Owner of Record</b>
1	US Application No. 09/241,623, filed February 1, 1999 and issued September 2, 2003 under #6,615,026 captioned "Portable Telephone with Directional Transmission Antenna."		<b>Patent granted.</b> U.S. Patent No. 6,615,026, issued 9/2/03  No priority claim	Company
2	US Application No. 09/420,953, filed October 19, 1999 and issued January 22, 2002 under #6,341,217 captioned "Portable Telephone with Shielded Transmission Antenna."		<b>Patent granted.</b> U.S. Patent No. 6,341,217, issued 1/22/02  Continuation of 09/241,623, filed 2/1/99	Company
3	US Application No. 11/696,040, filed 4/3/07, and issued 7/6/10 as #7,750,855 B2, captioned "Compact Polarization-Sensitive and Phase-Sensitive Antenna with Directionality and Multi-Frequency Resonances."		<b>Patent granted.</b>  U.S. Patent No. 7,750,855 issued on 7/6/2010.  Priority claimed to Provisional Application No. 60/744,142, filed 4/3/06	Company
4	US provisional patent filed November 6, 2008 under #61/112,141 captioned "Antenna Embedded into Battery of Mobile Phone and Other Similar Wireless Devices and Smart Case for Wireless Device."	PONG-001/00US	Expired Priority claimed in patent application serial no. 12/614,132 (001/03) et al.	Company
5	US provisional patent filed March 9, 2009 under 61/158,551 captioned "External Case for Portable Communication Device to Redirect Radiation Away from the User's Head."	PONG-001/01US	Expired Priority claimed in patent application serial no. 12/614,132 (001/03) et al.	Company
6	US provisional patent filed March 13, 2009 under #61/160,282 captioned "A Method and Systems for Redirecting RF Radiation Away from Users, for Wireless Devices such as Cell Phones, Smart Phones, and Similar Devices."	PONG-001/02US	Expired Priority claimed in patent application serial no. 12/724,290 (001/04) et al.	Company

	<b>Description</b>	<b>Attorney Docket No.</b>	<b>Notes</b>	<b>Owner of Record</b>
7	US Application No. 12/614,132, filed November 6, 2009, and issued June 26, 2012 under #8,208,980 captioned "Radiation Redirecting External Case for Portable Communications Device and Antenna Embedded in Battery of Portable Device."	PONG-001/03US	<b>Patent granted.</b> U.S. Patent No. 8,208,980, issued 6/26/13  Priority claim 61/112,141, filed 11/6/08 (001/00) and 61/158,551, filed 3/9/09 (001/01)	Company
8	US Continuation Application No. 13/491,747, filed June 8, 2012, and issued May 14, 2013 as U.S. Patent No. 8,442,602, entitled "Radiation Redirecting External Case for Portable Communications Device and Antenna Embedded in Battery of Portable Device."	PONG-001/06US	<b>Patent granted.</b> U.S. Patent No. 8,442,602, issued 5/14/13  Continuation of 12/614,132, filed 11/6/09 (001/03US)	Company
9	U.S. Continuation Application No. 13/894,039, filed 5/14/13 entitled Radiation Redirecting Elements For Portable Communication Device	PONG-001/09US	<b>Patent granted.</b> U.S. Patent No. 8,750,948, issued 6/10/14  Continuation of 13/491,747, filed 6/8/12 (001/06)	Company
10	U.S. Continuation Application No. 14/297,162, filed 6/5/14, entitled Radiation Redirecting Elements For Portable Communication Device	PONG-001/12US	<b>Patent granted.</b> U.S. Patent No. 9,287,915, issuing 3/15/16  Continuation of 13/894,039, filed 5/14/13 (001/09)	Company
11	US Application No. 12/724,290, filed March 15, 2010 and issued July 3, 2012 under #8,214,003 captioned "RF Radiation Redirection Away from Portable Communication Device User."	PONG-001/04US	<b>Patent granted.</b> U.S. Patent No. 8,214,003 issued 7/3/2012.  CIP of 12/614,132, filed 11/6/09 (001/03) and claims priority to 61/160,282, filed 3/13/09 (001/02)	Company
12	US Continuation Application No. 13/492,518, filed June 8, 2012 entitled "RF Radiation Redirection Away from Portable Communication Device User."	PONG-001/07US	<b>Patent granted.</b> U.S. Patent No. 8,897,843, issued 11/25/14.  Continuation of 12/724,290, filed 3/15/10 (001/04)	Company
13	U.S. Continuation Application No. 14/551,775, filed November 24, 2014, entitled "RF Radiation Redirection Away from Portable Communication Device User."	PONG-001/13US	Allowed – IF due 9/2/16  Continuation of 13/492,518, filed 6/8/12 (001/07)	Company

	<b>Description</b>	<b>Attorney Docket No.</b>	<b>Notes</b>	<b>Owner of Record</b>
14	New Continuation of 14/551,775, entitled "RF Radiation Redirection Away from Portable Communication Device User."	PONG-001/15US	<b>To be filed</b>	Company
15	US Patent Application Serial No. 13/287,680 filed November 2, 2011, entitled "External Case for Redistribution of RF Radiation away from Wireless Communication Device User and Wireless Communication Device Incorporating RF Radiation Redistribution Elements." MARK/ COUNTRY	APPLICATION/ REGISTRATION NO.	GOODS/SERVICES	CURRENT STATUS
PONG United States	Registration No. 4445916	Class 9: cases for mobile phones, cell phones, laptop computers, tablet computers, notebook computers, and other wireless communication devices	Registered 12/10/13
PROMOTE United States	Application No. 86671015	Class 9: cases for mobile phones, cell phones, laptop computers, tablet computers, notebook computers, and other wireless communication devices	Pending; Filed 6/23/15; Notice of Allowance Issued 1/5/16
R79 United States	Registration No. 4947286	Class 9: apparatus for improving the transmission and reception of wireless communications devices, namely, antennas; cases for mobile phones, cell phones, laptop computers, tablet computers, and notebook computers	Registered 4/25/16
R79X United States	Registration No. 4943000	Class 9: apparatus for improving the transmission and reception of wireless communications devices, namely, antennas; cases for mobile phones, cell phones, laptop computers, tablet computers, and notebook computers	Registered 4/19/16
REACH79 United States	Application No. 86197608	Class 9: cases for mobile phones, cell phones, laptop computers, tablet computers, and notebook computers  Class 42: research and development of technology in the field of improving the transmission and reception of wireless communications devices; providing technical consultation in the field of engineering and research and development to improve the transmission and reception of wireless communications devices	Pending; Filed 2/19/14; Suspended 12/5/14
THE CASE FOR PEOPLE United States	Registration No. 4358786	Class 9: cases for mobile phones, tablet and notebook computers, and other electronic communication devices	Registered 6/25/13

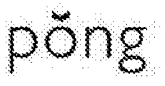

MARK/ COUNTRY	APPLICATION/ REGISTRATION NO.	GOODS/SERVICES	CURRENT STATUS
<b>AUSTRALIA</b>			
 Australia	Registration No. 1440142	Class 9: cases made of organic or synthetic materials for housing wireless communications devices including cases for redirection of radio frequency emissions; antenna technology module for redirection of radio frequency emissions; apparatus for redirection of radio frequency emission  Class 42: research and development of technology in the field of radio frequency emissions including the redirection of emissions; providing technical consultation in the field of redirection and enhancement of radio frequency emissions, including consultation in connection with wireless communications services, wireless communications devices and broadcast base stations; providing technical support services, namely, troubleshooting of antennas and antenna technology used for the redirection of radio frequency emissions in wireless communications and wireless communications devices	Registered 8/2/11
 Australia	Registration No. 1455608	Class 9: cases made of organic or synthetic materials for housing wireless communications devices including cases for redirection of radio frequency emissions; antenna technology module for redirection of radio frequency emissions; apparatus for redirection of radio frequency emission  Class 42: research and development of technology in the field of radio frequency emissions including the redirection of emissions; providing technical consultation in the field of redirection and enhancement of radio frequency emissions, including consultation in connection with wireless communications services, wireless communications devices and broadcast base stations; providing technical support services, namely, troubleshooting of antennas and antenna technology used for the redirection of radio frequency emissions in wireless communications and wireless communications devices	Registered 10/25/11
THE CASE FOR PEOPLE  Australia	Madrid Protocol Reg. No. 1131346	Class 9: cases for mobile phones, tablet and notebook computers, and other electronic communication devices	Registered 7/17/12
PONG  Australia	Madrid Protocol Reg. No. 1131412	Class 9: cases for mobile phones, tablet and notebook computers, and other electronic communication devices	Registered 8/21/12

MARK/ COUNTRY	APPLICATION/ REGISTRATION NO.	GOODS/SERVICES	CURRENT STATUS
REACH79  Australia	Madrid Protocol Reg. No. 1227836	<p>Class 9: apparatus for improving the transmission and reception of wireless communications devices namely, antennas; cases for mobile phones, cell phones, laptop computers, tablet computers, notebook computers, and other wireless communication devices</p> <p>Class 42: research and development of technology in the field of improving the transmission and reception of wireless communications devices; providing technical consultation in the field of improving the transmission and reception of wireless communications devices; and providing technical support services, namely, troubleshooting of antennas and antenna technology used for improving the transmission and reception of wireless communications devices</p>	Registered 8/19/14
<b>CANADA</b>			
  Canada	Registration No.  TMA913075	<p>Wares: Cases made of organic materials, cases made of synthetic materials for housing electric hand held units, namely, multi-functional transmitters, personal digital assistants, wireless phones, mobile phones, cellular phones, smart phones, video phones, mobile slate and tablet computers for redirection of radio frequency emissions; antenna technology module, namely, an antenna and a set of antennae, embedded into the battery case and into the largest surface area of a wireless device and radio frequency shielding device embedded into a battery and configured in relation to the antenna located at the back surface of the battery and on the large rear surface of a wireless device facing away from the user for redirection of radio frequency emissions; Cases made of organic materials, cases made of synthetic materials for housing electric hand held units, namely, multi-functional transmitters, personal digital assistants, wireless phones, mobile phones, cellular phones, smart phones, video phones, mobile slate and tablet computers for redirection of radio frequency emissions; antenna technology module, namely, an antenna and a set of antennae, embedded into the battery case and into the largest surface area of a wireless device and radio frequency shielding device embedded into a battery and configured in relation to the antenna located at the back surface of the battery and on the large rear surface of a wireless device facing away from the user for redirection of radio frequency emissions; Apparatus for redirection of radio frequency emissions namely, antennas namely, an antenna and a set of antennae, embedded either into the battery case and the largest surface area of a wireless device and radio frequency shielding device embedded into a battery and configured in relation to the antenna located at the back surface of the battery and the large rear surface of a wireless device facing away from the user for redirection of radio frequency emissions. Services: research and development of technology</p>	Registered 9/3/15

MARK/ COUNTRY	APPLICATION/ REGISTRATION NO.	GOODS/SERVICES	CURRENT STATUS
		<p>in the field of redirection of radio frequency emitted from electric hand held units, namely, multi-functional transmitters, personal digital assistants, wireless phones, mobile phones, cellular phones, smart phones, video phones and mobile slate or tablet computers; providing technical consultation in the field of redirection and enhancement of radio frequency emissions used in connection with electric hand held units, namely, multi-functional transmitters, personal digital assistants, wireless phones, mobile phones, cellular phones, smart phones, video phones and mobile slate or tablet computers; and providing technical support services, namely, troubleshooting of antennas and antenna technology used for the redirection of radio frequency emissions in electric hand held units, namely, multi-functional transmitters, personal digital assistants, wireless phones, mobile phones, cellular phones, smart phones, video phones and mobile slate or tablet computers</p> <p>Services: Research and development of technology in the field of redirection of radio frequency emitted from electric hand held units, namely, multi-functional transmitters, personal digital assistants, wireless phones, mobile phones, cellular phones, smart phones, video phones, mobile slate computers and tablet computers; and providing technical support services, namely, troubleshooting of antennas and antenna technology used for the redirection of radio frequency emissions from electric hand held units, namely, multi-functional transmitters, personal digital assistants, wireless phones, mobile phones, cellular phones, smart phones, video phones, mobile slate computers and tablet computers; Research and development of technology in the field of redirection of radio frequency emissions, namely, research and development of technology in the field of radio frequency emitted from electric hand held units, namely, multi-functional transmitters, personal digital assistants, wireless phones, mobile phones, cellular phones, smart phones, video phones, mobile slate computers and tablet computers; Providing technical consultation in the field of redirection and enhancement of radio frequency emissions used in connection with electric hand held units, namely, multi-functional transmitters, personal digital assistants, wireless phones, mobile phones, cellular phones, smart phones, video phones, mobile slate computers and tablet computers; and providing technical support services, namely, troubleshooting of antennas and antenna technology used for the redirection of radio frequency emissions in electric hand held units, namely, multi-functional transmitters, personal digital assistants, wireless phones, mobile phones, cellular phones, smart phones, video phones, mobile slate computers and tablet computers</p>	

MARK/ COUNTRY	APPLICATION/ REGISTRATION NO.	GOODS/SERVICES	CURRENT STATUS
<p>pōngresearch</p> <p>Canada</p>	<p>Registration No. TMA912818</p>	<p>Wares: Cases made of organic materials, cases made of synthetic materials for housing electric hand held units, namely, multi-functional transmitters, personal digital assistants, wireless phones, mobile phones, cellular phones, smart phones, video phones, mobile slate and tablet computers for redirection of radio frequency emissions; antenna technology module, namely, an antenna and a set of antennae, embedded into the battery case and into the largest surface area of a wireless device and radio frequency shielding device embedded into a battery and configured in relation to the antenna located at the back surface of the battery and on the large rear surface of a wireless device facing away from the user for redirection of radio frequency emissions.</p> <p>Services: Research and development of technology in the field of redirection of radio frequency emitted from electric hand held units, namely, multi-functional transmitters, personal digital assistants, wireless phones, mobile phones, cellular phones, smart phones, video phones, mobile slate computers and tablet computers; providing technical consultation in the field of redirection and enhancement of radio frequency emissions used in connection with electric hand held units, namely, multi-functional transmitters, personal digital assistants, wireless phones, mobile phones, cellular phones, smart phones, video phones, mobile slate computers and tablet computers; and providing technical support services, namely, troubleshooting of antennas and antenna technology used for the redirection of radio frequency emissions in electric hand held units, namely, multi-functional transmitters, personal digital assistants, wireless phones, mobile phones, cellular phones, smart phones, video phones, mobile slate computers and tablet computers</p>	<p>Registered 9/1/15</p>
<p>THE CASE FOR PEOPLE</p> <p>Canada</p>	<p>Registration No. TMA909445</p>	<p>Wares: Cases for mobile phones, tablet and notebook computers, and other electronic communication devices</p>	<p>Registered 7/24/15</p>
<p>PONG</p> <p>Canada</p>	<p>Registration No. TMA927342</p>	<p>Wares: Cases for mobile phones, cell phones, laptop computers, tablet computers, notebook computers and for other electronic communication devices, namely, wireless headsets, cordless phones, digital phones, and video phones</p>	<p>Registered 1/27/16</p>

MARK/ COUNTRY	APPLICATION/ REGISTRATION NO.	GOODS/SERVICES	CURRENT STATUS
REACH79  Canada	Application No.  1690214	<p>Wares: apparatus for improving the transmission and reception of wireless communications devices namely antennas and sets of antennas imbedded into the case of a wireless device; cases for mobile phones, cell phones, laptop computers, tablet computers, notebook computers, and other wireless communication devices, namely, personal digital assistants, wireless phones, smart phones, video phones and multifunctional transmitters</p> <p>Services: Research and development of technology in the field of improving the transmission and reception of wireless communications devices namely research and development in technology in the field of redirection enhancement of the transmissions and reception functions of wireless communication devices namely multifunctional transmitters, personal digital assistants, wireless phones, mobile phones, cellular phones, smart phones, video phones, mobile slate computers and tablet computers, providing technical consultation in the field of improving the transmission and reception of wireless communications devices namely multifunctional transmitters, personal digital assistants, wireless phones, mobile phones, cellular phones, smart phones, video phones, mobile slate computers and tablet computers; and providing technical support services, namely, troubleshooting of antennas and antenna technology namely antennas and sets of antennas imbedded in the case of a wireless device, used for improving the transmission and reception of wireless communications devices namely multifunctional transmitters, personal digital assistants, wireless phones, mobile phones, cellular phones, smart phones, video phones, mobile slate computers and tablet computers</p>	Pending; Filed 8/19/14
<b>CHINA</b>			
  China	Registration No. 8254516	Class 9: Antennas; antennas technology module for re-orientation the emitting of radio frequency; special carriers made of organic or synthetic materials for wireless communication devices used for re-orientation the emitting of radio frequency; transmitters of electronic signals used for re-orientation the emitting of radio frequency	Registered 5/7/11

MARK/ COUNTRY	APPLICATION/ REGISTRATION NO.	GOODS/SERVICES	CURRENT STATUS
pǒng China	Registration No. 8254515	Class 42: Research and development in the field of re-orientation the emitting of radio frequency; research and development for others; research and developments in related to wireless communication services, wireless communication equipment and radio base station technology featuring re-orientation and strengthening the emitting of radio frequency; technology research; technology research in related to trouble shooting and repair of antennas; technology research of antennas in respect of re-orientation the emitting of radio frequency used for wireless communication and equipment thereto	Registered 5/7/11
pǒngresearch China	Registration No. 8254523	Class 9: Antennas; antennas technology module for re-orientation the emitting of radio frequency; special carriers made of organic or synthetic materials for wireless communication devices used for re-orientation the emitting of radio frequency; transmitters of electronic signals used for re-orientation the emitting of radio frequency	Registered 5/14/11
pǒngresearch China	Registration No. 8254524	Class 42: Research and development in the field of re-orientation the emitting of radio frequency; research and development for others; research and developments in related to wireless communication services, wireless communication equipment and radio base station technology featuring re-orientation and strengthening the emitting of radio frequency; technology research; technology research in related to trouble shooting and repair of antennas; technology research of antennas in respect of re-orientation the emitting of radio frequency used for wireless communication and equipment thereto	Registered 5/7/11
PONG China	Madrid Protocol Reg. No. 1131412	Class 9: cases for mobile phones, tablet and notebook computers, and other electronic communication devices	Registered 8/21/12
R79X China	Madrid Protocol Reg. No. 1293910	Class 9: apparatus for improving the transmission and reception of wireless communications devices, namely, antennas; cases for mobile phones, cell phones, laptop computers, tablet computers, and notebook computers	Pending; Filed 1/20/16
