TRADEMARK SECURITY AGREEMENT

This TRADEMARK SECURITY AGREEMENT (“Trademark Security Agreement”), dated as of November 6, 2018, is made by and among **ALPHATEC HOLDINGS, INC.**, a Delaware corporation, **ALPHATEC SPINE, INC.**, a California corporation, and **SAFEOP SURGICAL, INC.**, a Delaware corporation (each individually a “Borrower” and collectively, the “Borrowers”), and each Additional Grantor that may become party hereto after the date hereof (each of the Grantors and each Additional Grantor being a “Grantor” and collectively the “Grantors”) in favor of **SQUADRON MEDICAL FINANCE SOLUTIONS LLC**, a Delaware limited liability company (the “Lender”).

WHEREAS, the Grantors and the Lender have entered into a Credit, Security and Guaranty Agreement, dated as of November 6, 2018 (as amended, modified or supplemented from time to time, the “Credit Agreement”), pursuant to which Lender has agreed, subject to the satisfaction of certain conditions precedent, to make loans and other financial accommodations available to the Grantors.

WHEREAS, as a condition precedent to the making of the loan by the Lender under the Credit Agreement, each of the Grantors have granted to the Lender, for the benefit of the Lender, a security interest in, among other property, certain intellectual property of the Grantors, and have agreed to execute and deliver this Trademark Security Agreement, for recording with governmental authorities, including, but not limited to, the United States Patent and Trademark Office.

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Grant of Security. Each Grantor hereby pledges and grants to the Lender for the benefit of the Lender a security interest in and to all of the right, title, and interest of Grantor in, to, and under the following (the “Trademark Collateral”):

(a) all trademarks and trademark applications, including, the trademark registrations set forth on Schedule 1 hereto, together with the goodwill connected with the use of and symbolized thereby and all extensions and renewals thereof (the “Trademarks”), excluding only United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant, attachment, or enforcement of a security interest therein would, under applicable federal law, impair the registrability of such applications or the validity or enforceability of registrations issuing from such applications;

(b) all rights of any kind whatsoever of each Grantor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions and otherwise throughout the world;

(c) any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(d) any and all claims and causes of action, with respect to any of the foregoing, whether occurring before, on, or after the date hereof, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief for past, present, and future infringement, dilution, misappropriation, violation, misuse, breach, or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. Recordation. Each Grantor authorizes the Commissioner for Trademarks and any other government officials to record and register this Trademark Security Agreement upon request by the Lender.

3. Loan Documents. This Trademark Security Agreement has been entered into pursuant to and in conjunction with the Credit Agreement, which is hereby incorporated by reference. The provisions of the Credit Agreement shall supersede and control over any conflicting or inconsistent provision herein. The rights and remedies of the Lender with respect to the Trademark Collateral are as provided by the Loan Agreement, the Credit Agreement, and related documents, and nothing in this Trademark Credit Agreement shall be deemed to limit such rights and remedies.

4. Execution in Counterparts. This Trademark Security Agreement may be executed in counterparts (and by different parties hereto in different counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single contract. Delivery of an executed counterpart of a signature page to this Trademark Security Agreement by facsimile or in electronic (i.e., "pdf" or "tif" format) shall be effective as delivery of a manually executed counterpart of this Trademark Security Agreement.

5. Successors and Assigns. This Trademark Security Agreement will be binding on and shall inure to the benefit of the parties hereto and their respective successors and assigns.

6. Governing Law. This Trademark Security Agreement and any claim, controversy, dispute, or cause of action (whether in contract or tort or otherwise) based upon, arising out of, or relating to this Trademark Security Agreement and the transactions contemplated hereby and thereby shall be governed by, and construed in accordance with, the laws of the United States and the State of New York, without giving effect to any choice or conflict of law provision or rule (whether of the State of New York or any other jurisdiction).

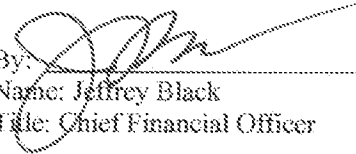

[SIGNATURE PAGE FOLLOWS]

IN WITNESS WHEREOF, each Grantor has caused this Trademark Security Agreement to be duly executed as of the date first above written.
