INTELLECTUAL PROPERTY ASSIGNMENT

This INTELLECTUAL PROPERTY ASSIGNMENT ("Assignment") is made and entered into by ICOR International, Inc., an Indiana corporation ("Assignor"), and The Chemours Company FC, LLC, a Delaware limited liability company ("Assignee"), as of October 1, 2018.

Recitals

- A. Assignor is wholly owned by Assignee.
- B. Assignee intends to dissolve Assignor.
- C. Prior to the dissolution, Assignor wishes to transfer, assign and convey to Assignee any and all of Assignor's right, title and interest in and to any of Assignor's Intellectual Property that is used, held for use or was used previously in the Business.

Agreement

In consideration of the mutual covenants contained herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. Assignor hereby conveys, assigns and transfers to Assignee, its successors and assigns, effective as of the date hereof, all of Assignor's right, title and interest in and to the Intellectual Property that is used, held for use or was used previously in the Business.

2. Without limiting the foregoing, Assignor hereby convey, assign and transfer to Assignee, and Assignee hereby accepts, all of Assignor's rights, title, and interest in, to, and under those registered patents and patent applications set forth on Schedule A attached hereto (the "Patents"), and all renewals, related continuations, continuations-in-part, divisionals, reissues, re-examinations, substitutions, and extensions thereof, and all benefits, privileges, causes of action, and remedies relating thereto throughout the world, including, without limitation, all of Assignor's rights to: (a) apply for and maintain all applications, registrations, and/or extensions thereof; (b) claim priority under United States law or international convention, (c) bring actions and recover damages for past, present and future infringement or other violation thereof; and (d) grant licenses or other interests therein, provided, however, that this Assignment shall not constitute an assignment to the extent that, if it were to convey, assign or transfer an interest in and to the Patents, it would impair the subsequent lawful and effective execution and recordation of a necessary country-specific form of assignment.

3. Without limiting the foregoing, Assignor hereby convey, assign and transfer to Assignee, and Assignee hereby accepts, all of Assignor's worldwide right, title and interest in, to and under all common law trademarks, design marks, names and logos of the Business, including those set forth on Schedule B attached hereto (the "Marks") and Internet domain names of the Business, including those set forth on Schedule C attached hereto (the "Names"), together with any and all ownership interest, all goodwill of the business associated therewith and which is symbolized thereby, and any and all rights to sue for past, present, and future infringements of the Marks and Names. Assignor shall not retain any license or right to use the assigned Marks or assigned Names.

4. The parties hereby authorize the relevant authority at the United States Patent and Trademark Office and at corresponding agencies in relevant jurisdictions to record this Assignment and record Assignee as the owner of the Patents and Marks and to issue any and all Patents to Assignee, as assignee of Assignor's entire right, title and interest in, to, and under the same.

5. The parties hereby covenant and agree to execute such further documents and instruments and take such additional actions deemed necessary or desirable by either party hereto to evidence the assignment and assumption of rights, liabilities and obligations set forth herein and otherwise to effect the intent of this Assignment.

6. This Assignment shall inure to the benefit of and be binding upon the parties hereto and their respective successors and assigns.

7. This Assignment shall be governed by and construed in accordance with the laws of the State of New York without giving effect to any choice or conflict of laws, provisions or rules that would cause the application of laws of any jurisdiction other than the State of New York.

8. This Assignment may be executed in the original, by facsimile or by any generally accepted electronic means (including transmission of a pdf file containing an executed signature page) in any number of counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

9. For purposes of this Assignment:

- a. "Business" means, collectively, the business of researching and developing, formulating, manufacturing, marketing, distributing and selling refrigerants and related products and services by the Assignor prior to October 1, 2018.
