**IP ASSIGNMENT**

This IP ASSIGNMENT (this "Assignment") is entered into on December 14, 2018, effective as of July 31, 2018 (the "Effective Date") by and between IEGWorld, LLC, a Delaware limited liability company ("Assignee") and Engine Shop II, LLC, a Delaware limited liability company ("Assignor").

WHEREAS, Assignor and Assignee have entered into the Contribution Agreement, effective as of the Effective Date (the "Contribution Agreement"); and

WHEREAS, in connection with the Contribution Agreement, the parties to the Contribution Agreement desire that Assignor transfer to Assignee all of the right, title and interest of Assignor in and to those certain trademarks, copyrights, patents, domain names, methodologies, hardware, social media accounts and customer lists identified on Exhibit A hereto (the "Assigned IP"); and

WHEREAS, Assignee wishes to acquire all of Assignor's right, title and interest in and to the Assigned IP, and Assignor wishes to assign such right, title and interest in and to such Assigned IP to Assignee.

NOW, THEREFORE, in consideration of the mutual promises and covenants in the Contribution Agreement and hereinafter contained, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor and Assignee each hereby agree as follows:

1. Transfer of Assigned IP. Assignor does hereby grant, bargain, sell, transfer, convey, assign, alienate, release and deliver to Assignee and its successors and assigns, and Assignee does hereby accept, all of Assignor's right, title and interest in and to the Assigned IP together with all causes of action and enforcement rights, whether currently pending, filed, or otherwise, for the Assigned IP, including all rights to damages, injunctive relief and other remedies for past, current and future infringement of the Assigned IP.

2. Further Assurances. Assignor covenants and agrees that, at any time and from time to time upon the request of Assignee, at Assignee's expense, Assignor shall provide any reasonably necessary documentation and do all further acts reasonably requested by Assignee to confirm and perfect title in and to the Assigned IP in Assignee, its successors and assigns.

3. Entire Agreement. This Assignment and the Contribution Agreement reflect the entire understanding of the parties hereto relating to the sale, assignment, transfer, conveyance and delivery of the Assigned IP from Assignor to Assignee, and supersede all prior agreements, understandings or letters of intent between or among the parties hereto regarding the subject matter of this Assignment and the Contribution Agreement.

4. Successors and Assigns. This Assignment shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns.

5. Governing Law and Venue. This Assignment and all disputes or controversies arising out of or relating to this Assignment or the transactions contemplated hereby shall be governed by, and construed in accordance with, the internal laws of the State of New York, without regard to the laws of any other jurisdiction that might be applied because of the conflicts of laws principles of the State of New York. By execution and delivery of this Assignment, the parties irrevocably submit to the exclusive jurisdiction of the United States District Court for the Southern District of New York located in the borough of Manhattan in the City of New York, or if such court does not have jurisdiction, the Supreme Court of the State of New York, New York County, for the purposes of any suit, action or other proceeding arising out of or in connection with this Assignment or any transaction contemplated hereby. Each of the parties hereto

irrevocably and unconditionally waives any objection to the laying of venue of any action, suit or proceeding arising out of this Assignment or the transactions contemplated hereby in (a) the United States District Court for the Southern District of New York or (b) the Supreme Court of the State of New York, New York County, and hereby further irrevocably and unconditionally waives and agrees not to plead or claim in any such court that any such action, suit or proceeding brought in any such court has been brought in an inconvenient forum.

6. Counterparts. This Assignment may be executed in two or more counterparts, each of which shall be deemed an original, and all of which together shall constitute one and the same instrument.

7. Contribution Agreement Shall Control. Nothing in this Assignment shall change, amend, limit, extend or alter (nor shall it be deemed or construed as changing, amending, extending or altering) the terms or conditions of the Contribution Agreement or any liability or obligation of the Assignor or Assignee arising under the Contribution Agreement, which shall govern the obligations of the parties with respect to the Assigned IP. In the event that any of the provisions of this Assignment are determined to conflict with the terms of the Contribution Agreement, the terms of the Assignment shall control, but only with respect to its subject matter.

*Remainder of page intentionally left blank.*

IN WITNESS WHEREOF, Assignor and Assignee have caused this Assignment to be executed by their duly authorized representatives as of the Effective Date.

ASSIGNOR:

Engine Shop II, LLC

By:

Name: CHRISTOPHER M. HARDY

- The following methodologies:
  - Valuation Methodologies (Traditional): *IEG Valuation Methodology is the industry-leading assessment and validation of sponsorship rights. IEG's methodology accounts of the value of quantitative tangible benefits and qualitative intangible benefits.*
  - Valuation Methodologies (Adaptive): *Adapted from the traditional IEG Valuation Methodology, IEG's adaptive valuation methodologies are customized for non-traditional clients and unique sponsorship situations to account for the nuances of those sponsorships.*
  - Sponsorship Evaluation/Selection Model Methodologies: *The model utilizes a tailored standardized methodology to consistently determine a property's ability to provide necessary rights, benefits, audience and conditions/environment to accomplish sponsorship objectives. The output is an objectives-based evaluation, management and measurement system that allows for the objective evaluation of current and potential programs, and compares the relative value of one property to another.*
  - Sponsorship Performance Model Methodologies: *An extension of IEG's Evaluation Model, the Performance Model utilizes a tailored standardized methodology to consistently measure a property's success in accomplishing each objective. Its Performance Index/Rating is designed to help answer whether a brand's activation is helping achieve the brand's objectives, to identify return on objective (ROO), and to recommend adjustments to help sponsor achieve optimal results.*
  - Audience Vitality Index Methodologies: *The Audience Vitality Index (AVI) is an objective and relative measure of reach, growth, and engagement levels of a property's audiences across social, digital, physical and traditional mediums. The AVI provides a ranking that measures how a rightsholder's audience compares to*

*comparable rightsholders across key metrics, thus identifying areas and opportunities for audience growth and engagement.*

- *Other/Custom Methodologies (Content/ROI): Based upon IEG’s existing methodologies and industry insights, IEG applies variable methodologies customized to help brands measure outcomes and success of its sponsorship platforms.*
- *The following tools and deliverables:*
  - *Valuation Statement: A core deliverable of the IEG Valuation Methodology, the industry-leading assessment and validation of sponsorship rights – The Valuation Statement verifies the fair market value of a sponsorship package; highlights a sponsorship’s strengths and key value drivers; provides an assessment of value across asset types and categories; values and details tangible benefit inventory; and provides a proprietary rating across intangible criteria.*
  - *Packaging and Pricing Tool: An Excel-based custom-built tool that helps rightsholders inventory, package and price their sponsorship opportunities utilizing IEG’s proprietary data, methodologies, and insights. The tool enables baseline packaging and pricing for a sponsorship seller while allowing for customization and flexibility for specific brand sponsor targets and bespoke sponsorship opportunities.*
  - *Discovery/Competitive Report: An output of IEG’s 360 degree property assessment and landscape analysis, the Discovery/Competitive Report utilizes data from our internal client audit, industry insights and knowledge, and competitive intelligence on comparable properties to help inform sponsorship strategy and framework. The Report identifies all of a property’s audiences, engagement points, and commercial benefits that can be offered to a sponsor, as well as key marketplace trends, comparative and competitive benchmarking, “best-in-class” property case studies, and industry best practices.*
  - *Targeting/Prospecting Report: A playbook that helps identify optimal sponsorship categories and brands for a rightsholder to target. Utilizing IEG’s access to the largest sponsorship deals database in the world as well our unique access to the industry through our client work, content team, and agency network, the Targeting/Prospecting Report helps IEG develop optimal sponsorship strategies by identifying who the targets are and what will make them buy.*
  - *Targeting/Prospecting Tool: A supplement to the Targeting/Prospect Report, this Excel-based custom-built tool helps sponsorship sellers prospect and target brands/categories based on size/type of opportunity, markets and other custom criteria.*
  - *Sponsorship Evaluation/Selection Model: An objectives-based evaluation, management and measurement system that allows for the objective evaluation of*

*current and potential programs, and compares the relative value of one property to another. The model utilizes a tailored standardized methodology to consistently determine a property's ability to provide necessary rights, benefits, audience and conditions/environment to accomplish sponsorship objectives.*

- *Sponsorship Performance Model: An extension of IEG's Evaluation Model, the Performance Model utilizes a tailored standardized methodology to consistently measure a property's success in accomplishing each objective. Its Performance Index/Rating is designed to help answer whether a brand's activation is helping achieve the brand's objectives, to identify return on objective (ROO), and to recommend adjustments to help sponsor achieve optimal results.*
- *Audience Vitality Index Report: The Audience Vitality Index (AVI) is an objective and relative measure of reach, growth, and engagement levels of a property's audiences across social, digital, physical and traditional mediums. The AVI Report provides a ranking that measures how a rightsholder's audience compares to comparable rightsholders across key metrics, thus identifying areas and opportunities for audience growth and engagement.*
- *Strategy/Packaging Reports (various): A variable but vital output of IEG's strategy consulting engagements, the Strategy/Packaging Report highlights our development of enterprise-wide sponsorship strategies and solutions that help our clients maximize revenue for themselves and value their sponsors. This typically includes the details of the overall corporate sponsorship framework and packaging model, defining different levels and types of sponsorship packages and assets, creating activation ideas and recommendations of specific sponsorship platforms for each business category, and recommendations on new sponsorship benefits and opportunities to optimize a rightsholder's sponsorship platform.*
