INTELLECTUAL PROPERTY ASSIGNMENT AND ASSUMPTION

This Intellectual Property Assignment (this "*Assignment*"), dated as of February 14, 2018, is being entered into by and among Wild Callino Pet Friends LLC, a Colorado limited liability company ("*Assignor*") and Great Life Petfood LLC, a Delaware limited liability company ("*Assignee*"). Each of the parties to this Assignment is sometimes referred to individually in this Assignment as a "*Party*," and both of the parties to this Assignment are sometimes collectively referred to in this Assignment as the "*Parties*."

The Assignor and Assignee have entered into that certain Asset Purchase Agreement, dated as of January 8, 2018, by and among Assignor and Assignee, as modified or amended (the "*Purchase Agreement*").

Pursuant to the Purchase Agreement, the Assignor has agreed to assign to the Assignee all of its right, title and interest in and to the Purchased Intellectual Property, and the Assignee has agreed to acquire all right, title and interest in and to the Purchased Intellectual Property.

In consideration of the mutual promises herein contained and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. Definitions. Capitalized terms used in this Assignment but not defined in this Assignment have the meaning ascribed to them in the Purchase Agreement.

2. Construction. Unless otherwise expressly provided, for purposes of this Assignment, the following rules of interpretation shall apply: (a) any reference in this Agreement to gender shall include all genders, and words imparting the singular number only shall include the plural and vice versa; (b) the division of this Assignment into Sections and other subdivisions and the insertion of headings are for convenience of reference only and shall not affect or be utilized in construing or interpreting this Assignment; (c) all references in this Assignment to any "Section" are to the corresponding Section of this Assignment unless otherwise specified; (d) the words such as "herein," "hereinafter," "hereof," and "hereunder" refer to this Assignment as a whole and not merely to a subdivision in which such words appear unless the context otherwise requires; and (e) the word "including" or any variation thereof means "including, without limitation" and shall not be construed to limit any general statement that it follows to the specific or similar items or matters immediately following it.

3. Assignment. The Assignor hereby, absolutely and unconditionally, conveys, sells, assigns, transfers, grants and sets over unto the Assignee, all of the Assignor's worldwide rights, title and interest and benefit in and to the Purchased Intellectual Property, together the right to all past, present and future income, royalties, damages and payments due with respect to the foregoing and all rights of action, both at law and in equity with respect thereto, including all causes and rights of action and remedies for past, present and future infringement or violation of any of the Purchased Intellectual Property, and including the goodwill of the businesses connected to the use of any of the Purchased Intellectual Property, the same to be held and enjoyed by the Assignee, its successors and assigns forever, as fully and entirely as the same

could have been held and enjoyed by the Assignor if this sale had not been made and the Assignee does hereby accept such sale, assignment, transfer, grant, conveyance and set over.

4. Recordation. The Assignor authorizes and requests the U.S. Patent and Trademark Office, the U.S. Copyright Office, or any foreign equivalents thereto, and any other Governmental Body to record the Assignee as owner of: (i) the trademarks, service marks, trade names, service names, brand names, trade dress rights, logos, Internet domain names, electronic mail domain names, identifying symbols, logos, emblems, signs or insignia, and corporate names and general intangibles of a like nature, and all applications, registrations, and renewals thereof, together with the goodwill associated with any of the foregoing, set forth on Schedule 2.1(b)(i) of the Purchase Agreement (collectively, the "*Marks*"); (ii) the copyrights and registrations and applications therefor, works of authorship and mask work rights set forth on Schedule 2.1(b)(iii) of the Purchase Agreement (collectively, the "*Copyrights*"); and the patents and patent applications, and the applications, registrations, and renewals thereof set forth on Schedule 2.1(b)(iv) of the Purchase Agreement (collectively, the "*Patents*"), and of the entire title and interest in, to and under the same, for the use and enjoyment of the Assignee, its successors, assigns and other legal representatives. The Assignor shall take such steps and actions following the date hereof, including the execution of any documents or other similar items necessary to ensure that the Purchased Intellectual Property is properly assigned to the Assignee, or any assignee or successor thereto.

5. Cooperation. The Assignor hereby covenants and agrees that it will communicate to the Assignee, its successors, legal representatives and assigns, any material facts (including information relating to use or non-use, enforceability, or infringement of the Purchased Intellectual Property) known to the Assignor with respect to the Purchased Intellectual Property and testify in any legal proceeding, sign all lawful papers, execute all applications (including, but not limited to, powers of attorney, specific assignments, transfers and assurances), make all rightful oaths and use reasonable best efforts at the request of the Assignee to aid the Assignee, its successors, legal representatives and assigns in obtaining and enforcing protection for the Purchased Intellectual Property and in enjoying the full benefits thereof. The Assignor hereby constitutes and appoints the Assignee the true and lawful attorney of the Assignor to act as the Assignor's attorney-in-fact solely for the purpose of executing any documents and taking all necessary steps to cause the Assignor to perform any of the Assignor's obligations set forth in this Assignment.

6. Governing Law. This Assignment shall be governed by and construed in accordance with the internal laws of the State of Colorado without giving effect to any choice or conflict of law provision or rule (whether of Texas or any other jurisdiction).

7. Dispute Resolution. In the event any dispute between the Parties involving the Purchased Intellectual Property cannot be solved by good faith discussions between the Parties, such dispute arising out of or relating to a party's performance or non-performance under this Assignment, or the interpretations, validity or effectiveness of this Assignment, and any other provision of this Assignment, shall be resolved in accordance with Sections 12.3 and 12.4 of the Purchase Agreement.

8. Binding Effect Assignment. This Assignment shall be binding upon and inure to the benefit of the Parties hereto and their respective successors and assigns.

9. Counterparts. This Assignment may be executed in one or more counterparts, each of which will be deemed to be an original copy of this Assignment and all of which, when taken together, will be deemed to constitute one and the same agreement.
