**TRADEMARK ASSIGNMENT AGREEMENT**

This TRADEMARK ASSIGNMENT AGREEMENT (this "Agreement"), dated as of February 1, 2019, is made by and between Dan Dee International Limited, a Delaware S-corporation (the "Assignor") and Project Comfort Buyer, Inc., a Delaware Corporation (the "Assignee"). All initially-capitalized terms used but not otherwise defined in this Agreement will have the meanings assigned to them in the Asset Purchase Agreement (defined below) and the rules of construction set forth in Section 7.10 of the Asset Purchase Agreement will be applied wherever appropriate herein.

WITNESSETH:

WHEREAS, the Assignor and the other Sellers party thereto, on the one hand, and the Assignee and other Buyers party thereto, on the other hand, have entered into an Asset Purchase Agreement, dated as of February 1, 2019 (the "Asset Purchase Agreement"), pursuant to which, among other things, the Assignee and its Affiliates acquired the assets of the Business and the equity securities of certain subsidiaries of the Assignor;

WHEREAS, pursuant to the Asset Purchase Agreement, the Assignor hereby agrees to sell, assign, transfer and deliver to the Assignee, and the Assignee hereby agrees to purchase and acquire from the Assignor, all of the Assignor's right, title and interest in, to and under all of the Assignor's trademarks listed in Schedule 1 hereto (the "Trademarks") together with certain related rights, as further set forth herein; and

WHEREAS, this Agreement will be executed in connection with the Closing under the Asset Purchase Agreement.

NOW, THEREFORE, in consideration of the premises and covenants set forth herein and in the Asset Purchase Agreement and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto, intending to be legally bound hereby, agree as follows:

Section 1. Assignment. The Assignor hereby sells, transfers, conveys, assigns and delivers to the Assignee, and the Assignee hereby purchases and accepts from the Assignor, all of the Assignor's right, title and interest in, to and under the Trademarks, together with (a) all associated common law rights, (b) all registrations, applications, renewals, and extensions therefor, (c) all goodwill associated with any of the foregoing, (d) all income, royalties, damages and payments due or payable as of the date hereof or hereafter with respect to any of the foregoing (including damages and payments for past, present or future infringements, misappropriations or other violations thereof) and the right to institute or maintain any legal proceeding to protect the same and recover damages for any past, present, or future infringements, misappropriations or other violations of any of the foregoing, and (e) any corresponding, equivalent or counterpart rights, title or interest that now exist or may be secured hereafter anywhere in the world with respect to any of the foregoing, in each case for the Assignee's own use and enjoyment and for the use and enjoyment of its successors, assigns or other legal representatives.

Section 2. Governing Law; Jurisdiction. This Agreement shall be construed and enforced in accordance with, and all questions concerning the construction, validity, interpretation and performance of this Agreement shall be governed by, the laws of the State of Delaware, without giving effect to provisions thereof regarding conflicts of law. Any party may (if it elects) bring an Action in the Delaware Chancery Court (or, if the Delaware Chancery Court shall be unavailable, any other state or federal court in the State of Delaware), and each of the parties hereto consents to the jurisdiction of such courts (and of the appropriate appellate courts) in any such Action and waives any objection to venue laid therein. Process in any Action referred to in the preceding sentence may be served on any party anywhere in the world.

Section 3. Further Assurances. The Assignor shall, at the request and expense of the Assignee, provide cooperation, execute such documents, and do and perform such acts, as may be reasonably requested by the Assignee to assist the Assignee in further evidencing or effectuating the assignments made hereunder, to record the assignment to the Assignee under this Agreement, or to protect or enforce the Trademarks and associated rights transferred hereunder. The Assignor hereby requests the Commissioner of Patents and Trademarks in the United States Patent and Trademark Office, and the corresponding entities or agencies in any applicable foreign countries or multinational authorities, to record the Assignee as the assignee and owner of the Trademarks and to deliver to the Assignee, and to the Assignee's attorneys, agents, successors or assigns, all official documents and communications as may be warranted by this Agreement.

Section 4. Entire Agreement. This Agreement and the Asset Purchase Agreement constitute the entire agreement between the parties hereto relating to the subject matter hereof, and supersede all prior negotiations, representations, understandings and agreements, both written and oral, between the parties hereto with respect to the subject matter of this Agreement. In the event of any conflict between this Agreement and the Asset Purchase Agreement, the provisions of the Asset Purchase Agreement will control.

Section 5. Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument. This Agreement and any amendments hereto, to the extent signed and delivered by means of digital imaging and electronic mail or a facsimile machine, shall be treated in all manner and respects as an original contract and shall be considered to have the same binding legal effects as if it were the original signed version thereof delivered in person.
