TRADEMARK ASSIGNMENT AGREEMENT

THIS TRADEMARK ASSIGNMENT AGREEMENT (including the exhibits hereto, the “Assignment”), dated as of March 1, 2019 (the “Effective Date”), is made by and between **Novartis AG**, a company organized under the laws of Switzerland and located at Forum 1, Novartis Campus, 4056 Basel, Switzerland (“Assignor”) and **Secura Bio, Inc.**, a company organized under the laws of the state of Delaware and located at 1887 Whitney Mesa Drive #1050, Henderson, Nevada 89014, United States (“Assignee”). Each of the signatories to this Assignment are collectively referred to as the “Parties” and individually as a “Party.”

RECITALS

WHEREAS, the Assignor, Novartis Pharma AG, and Assignee entered into that certain Asset Purchase Agreement, dated as February 19, 2019 (the “Purchase Agreement”), pursuant to which the Assignor has agreed to sell, assign, convey, transfer and deliver, and Assignee has agreed to purchase any and all Trademarks (as defined in the Purchase Agreement), including those trademarks and corresponding registrations, applications and filings listed in Exhibit A attached hereto, and all goodwill associated therewith (the “Transferred Trademarks”). Capitalized terms used but not otherwise defined herein shall have the meanings ascribed to such terms in the Purchase Agreement; and

WHEREAS, the Assignor desires to provide a document reflecting the assignment of all of its right, title, and interest in and to the Transferred Trademarks to Assignee for purposes of recording such assignment at the various intellectual property registries.

AGREEMENT

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Assignor hereby sells, assigns, conveys, transfers, and delivers to Assignee, and Assignee hereby acquires and accepts from Assignor, all right, title, and interest in and to the Transferred Trademarks and all goodwill associated therewith, together with that portion of the ongoing and existing business in connection with which the Assignor has a bona fide intent to use the Transferred Trademarks, free and clear of any and all Encumbrances (other than Permitted Encumbrances), the same to be held by Assignee for its own use and enjoyment, and for the use and enjoyment of Assignee’s successors, assigns, designees, nominees and other legal representatives, as fully and entirely as the same would have been held and enjoyed by such Assignor if this Assignment and sale had not been made, together with all causes of action (in law or equity), claims, demands and any other rights for, or arising from any past, present or future infringement, of the Transferred Trademarks, along with the right to sue for and collect any damages for the use and benefit of Assignee and its successors, assigns, designees, nominees and other legal representatives.

2. The preparation and recordation of assignments to Assignee of the Transferred Trademarks with the applicable government authority will be at Assignee’s expense, with

reasonable cooperation of effort by Assignor. For the avoidance of doubt, Assignor, upon request of the Assignee, will execute all documents and provide assistance as is reasonably and customarily necessary to record the transfer of the Transferred Trademarks. Assignor confirms that, if necessary, Assignee is authorized to sign on behalf of Assignor all forms and documentation that are required by the relevant government authority to record the transfer of Transferred Trademarks.

3. Nothing in this Assignment shall change, amend, limit, extend or alter (nor shall it be deemed or construed as changing, amending, extending or altering) the terms or conditions of the Purchase Agreement or any liability or obligation of the Assignor or Assignee arising under the Purchase Agreement, which shall govern the representations, warranties and obligations of the parties with respect to the Transferred Trademarks. In the event that any of the provisions of this Assignment are determined to conflict with the terms of the Purchase Agreement, the terms of the Purchase Agreement shall control.

4. This Assignment shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns.

5. This Assignment and all disputes or controversies arising out of or relating to this Assignment shall be governed by, and construed in accordance with, the laws of the State of New York, without regard to the laws of any other jurisdiction that might be applied because of the conflicts of laws principles of the State of New York.

6. This Assignment may be executed in one or more counterparts, including electronic transmission or facsimile counterparts, each of which shall be deemed an original and all of which, when taken together, shall constitute one and the same instrument and shall become effective when one or more counterparts have been signed by each of the parties and delivered to the other party.
