**TRADEMARK ASSIGNMENT**

This TRADEMARK ASSIGNMENT (this "Trademark Assignment") is made and entered into as of October 1, 2018, between JOHNSON & JOHNSON, a New Jersey corporation ("Assignor") and LIFESCAN IP HOLDINGS, LLC, a Delaware limited liability company ("Assignee").

WHEREAS, pursuant to, and upon the terms of, that certain Stock and Asset Purchase Agreement, dated as of March 15, 2018 (the "Stock and Asset Purchase Agreement"), between Johnson & Johnson, a New Jersey corporation, and DUV Acquisition Corporation, a Delaware corporation ("Buyer"), Buyer agreed to purchase, acquire and accept (either directly or through one or more of its Affiliates), Assignor's worldwide right, title and interest in, to and under all trademarks, service marks, trade dress and logos set forth on Schedule A hereto, together with the goodwill associated with any of the foregoing, and all applications, registrations and renewals therefor (hereinafter collectively referred to as the "Trademarks"). Each capitalized term used and not defined in this Trademark Assignment shall have the meaning assigned to it in the Stock and Asset Purchase Agreement;

WHEREAS, pursuant to the Stock and Asset Purchase Agreement, Buyer (or an Affiliate of Buyer) has or will purchase certain assets and equity interests related to the Business and to which the Trademarks pertain; and

WHEREAS, in accordance therewith, Assignor desires to sell, convey, transfer and assign to Assignee, which has been designated by Buyer, and Assignee desires to accept the sale, conveyance, transfer and assignment of, all of Assignor's worldwide right, title and interest in, to and under such Trademarks.

NOW, THEREFORE, Assignor, for good and valuable consideration the receipt and sufficiency of which is hereby acknowledged, does hereby sell, convey, transfer and assign to Assignee, and Assignee hereby accepts the sale, conveyance, transfer and assignment of, all of Assignor's worldwide right, title and interest in, to and under the Trademarks, and all the rights appurtenant thereto, together with the goodwill associated therewith and which is symbolized thereby, all of Assignor's rights and actions for past infringement and/or misappropriation, and any and all renewals and extensions thereof that may hereafter be secured under the laws now or hereafter in effect in the United States, and in any other jurisdiction, the same to be held and enjoyed by Assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by Assignor had this Trademark Assignment not been made.

Without limitation to the generality of the foregoing, with respect to United States intent-to-use trademark applications included in the Trademarks ("ITU Applications"), the assignment granted under the foregoing Assignment provision accompanies the transfer of Assignor's business or portion of the business to which such ITU Applications pertain, and that business is ongoing and existing, or the transfer of such ITU Applications shall not be effective until the expiration of any period during which the assignment thereof would impair, under applicable federal law, the registrability of such ITU Applications or the validity or enforceability of

registrations issuing from such ITU Applications.

This Trademark Assignment, together with the Stock and Asset Purchase Agreement (including all Annexes and Exhibits thereto), the Disclosure Letter, the Confidentiality Agreement and the other Transaction Documents, contain the entire agreement and understanding among the parties hereto with respect to the subject matter hereof and supersede all prior agreements and understandings, oral or written, with respect to such matters. In the event of a conflict or inconsistency between the terms of the Stock and Asset Purchase Agreement and the terms hereof, the terms of the Stock and Asset Purchase Agreement shall govern.

This Trademark Assignment shall inure to the benefit of and be binding upon the parties hereto and their respective successors and permitted assigns.

For a period of up to one year after the date hereof, subject to Section 7.01(d) of the Stock and Asset Purchase Agreement, Assignor agrees to provide to Assignee the necessary information and deliver such other documents and instruments as may be reasonably required to permit Assignee (at its expense) to effect and perfect the transfer of the applications and registrations of the Trademarks, including the execution of documents.

Neither the making nor the acceptance of this sale, conveyance, assignment and transfer shall enlarge, restrict or otherwise modify the terms of the Stock and Asset Purchase Agreement or constitute a waiver or release by any party to the Stock and Asset Purchase Agreement of any liabilities, duties or obligations imposed thereby.

This Trademark Assignment shall be governed in accordance with the laws of the State of New York without regard to the choice of law provisions thereof. Any dispute directly related to the breach of this Trademark Assignment shall be resolved in accordance with Section 11.13 of the Stock and Asset Purchase Agreement. **IN CONNECTION WITH ANY DISPUTE HEREUNDER EACH PARTY HERETO WAIVES ITS RIGHT TO TRIAL OF ANY ISSUE BY JURY.** Each party hereto (i) certifies that no representative, agent or attorney of any other party has represented, expressly or otherwise, that such other party would not, in the event of litigation, seek to enforce the foregoing waiver and (ii) acknowledges that it and the other party hereto have been induced to enter into this Trademark Assignment by, among other things, the mutual waivers and certifications in this paragraph.

This Trademark Assignment may be executed in two or more counterparts, each of which shall be deemed to be an original and all of which shall constitute the same agreement.

This Trademark Assignment shall be subject to the provisions set forth in Section 1.02 of the Stock and Asset Purchase Agreement, except to the extent that any contrary or different terms are set forth herein.
