EXHIBIT C

INTELLECTUAL PROPERTY ASSIGNMENTS

This INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT (the "IP Assignment"), dated as of December 27, 2018, by and between Gibson Brands, Inc., a Delaware corporation ("**Seller**") and Stray Electronics, LLC, a California limited liability company ("**Buyer**"), in accordance with Section 2.02 of that Asset Purchase Agreement, dated December 27, 2018 (the "**Agreement**"), between Seller and Buyer. Capitalized terms used but not defined herein shall have the meanings ascribed to them in the Agreement.

WHEREAS, under the terms of the Agreement, Seller has conveyed, transferred, and assigned to Buyer, among other assets, certain Purchased IP, and has agreed to execute and deliver this IP Assignment, for recording with the United States Patent and Trademark Office and the United States Copyright Office with respect to such Purchased IP.

NOW THEREFORE, the Parties agree as follows:

1. **Assignment.** For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Seller hereby irrevocably conveys, transfers, and assigns to Buyer, and Buyer hereby accepts, all of Seller's right, title, and interest in and to all Intellectual Property with respect to the Purchased IP (collectively, the "**Assigned IP**"), which includes but is not limited to the following:

(a) the trademark registrations and applications set forth on the Disclosure Schedules contained in Exhibit A to the Agreement, and all issuances, extensions, and renewals thereof (collectively, the "**Trademarks**"), together with the goodwill of the business connected with the use of, and symbolized by, the Trademarks;

(b) the copyright registrations, applications, and copyrightable subject matter set forth on the Disclosure Schedules contained in Exhibit A to the Agreement, and all issuances, extensions, and renewals thereof;

(c) the patent registrations, applications, and patentable subject matter set forth on the Disclosure Schedules contained in Exhibit A to the Agreement, and all issuances, extensions, and renewals thereof;

(d) all rights of any kind whatsoever of Seller accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world;

(e) all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(f) all claims and causes of action with respect to any of the foregoing, whether accruing before, on, or after the date hereof, including all rights to and claims for

damages, restitution, and injunctive and other legal and equitable relief for past, present, and future infringement, dilution, misappropriation, violation, misuse, breach, or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. **Recordation and Further Actions.** Seller hereby authorizes the Commissioner for Trademarks in the United States Patent and Trademark Office and the Register of Copyrights in the United States Copyright Office to record and register this IP Assignment upon request by Buyer. Following the date hereof, upon Buyer's reasonable request, and at Buyer's sole cost and expense, Seller shall take such steps and actions, and provide such cooperation and assistance to Buyer and its successors, assigns, and legal representatives, including the execution and delivery of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, or other documents, as may be reasonably necessary to effect, evidence, or perfect the assignment of the Assigned IP to Buyer, or any assignee or successor thereto.

3. **Terms of the Agreement.** The parties hereto acknowledge and agree that this IP Assignment is entered into pursuant to the Agreement, to which reference is made for a further statement of the rights and obligations of Seller and Buyer with respect to the Assigned IP. The representations, warranties, covenants, agreements, and indemnities contained in the Agreement shall not be superseded hereby but shall remain in full force and effect to the full extent provided therein. In the event of any conflict or inconsistency between the terms of the Agreement and the terms hereof, the terms of the Agreement shall govern.

4. **Counterparts.** This IP Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed one and the same agreement. A signed copy of this IP Assignment delivered by facsimile, e-mail, or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this IP Assignment.

5. **Successors and Assigns.** This IP Assignment shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.

6. **Governing Law.** This IP Assignment and any claim, controversy, dispute, or cause of action (whether in contract, tort, or otherwise) based upon, arising out of, or relating to this IP Assignment and the transactions contemplated hereby shall be governed by, and construed in accordance with, the laws of the United States and the State of Tennessee, without giving effect to any choice or conflict of law provision or rule (whether of the State of Tennessee or any other jurisdiction).
