TRADEMARK ASSIGNMENT AGREEMENT

This TRADEMARK ASSIGNMENT AGREEMENT (this "Assignment"), is entered into as of April 1, 2019 by and between ABG-Volcom, LLC, a Delaware limited liability company ("Assignee") and Volcom LLC, a Delaware limited liability company ("Assignor").

WHEREAS, this Assignment is made and entered into in connection with that certain Intellectual Property Purchase Agreement, dated February 19, 2019 (as amended, restated, supplemented and/or otherwise modified from time to time in accordance with the terms thereof, the "Purchase Agreement"), by and among Assignee and each other Person that is a signatory thereto, including, without limitation, Assignor;

WHEREAS, pursuant to the Purchase Agreement, Assignor has agreed to sell, transfer, assign, convey and deliver to Assignee, and Assignee has agreed to purchase, acquire and accept from Assignor, all of Assignor's right, title and interest in, to and under certain assets, including, without limitation, Assignor's right, title and interest in and to the trademarks, service marks, brand names, certification marks, collective marks, d/b/a's, logos, symbols, trade dress, assumed names, fictitious names, trade names, and other indicia of origin, and all applications and registrations for the foregoing, identified on Schedule A attached hereto (collectively, the "Assigned Trademarks");

WHEREAS, in accordance with the Purchase Agreement, Assignor desires to assign and Assignee desires to acquire the Assigned Trademarks, including all goodwill associated therewith and symbolized thereby.

NOW THEREFORE, in consideration of the premises and the mutual warranties, representations, covenants and agreements herein contained, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto, intending to be legally bound, agree as follows:

1. Definitions. Unless otherwise defined herein, each capitalized term used herein shall have the meaning assigned thereto in the Purchase Agreement.

2. Assignment. Assignor hereby sells, assigns, conveys, transfers and delivers to Assignee, its successors and assigns, free and clear of all Encumbrances, other than Permitted Encumbrances: (a) all of Assignor's worldwide right, title and interest in, to and under, including any and all common law rights thereto, the Assigned Trademarks and the goodwill associated with the Assigned Trademarks and symbolized thereby effective as of the date hereof; and (b) all other rights accruing thereunder or pertaining thereto in any jurisdiction throughout the world for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors and assigns, as full and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made, including: (i) claims, causes of actions and rights to pursue and collect damages, costs, injunctive relief and other remedies for past, current or future infringement, dilution, conflict with or other violation of any of the foregoing, and all income, royalties or payments due or payable as of the date hereof or hereafter in respect of any of the foregoing and (ii) rights to apply in any or all countries of the world for trademark protection for the Assigned Trademarks, in each case, effective as of the date hereof. Together

with Assignor's worldwide right, title and interest in and to each of the Assigned Trademarks, are the rights to police, monitor and enforce said Assigned Trademarks against any and all past, current and future infringements (including, without limitation, the right to sue for and collect damages caused by any such infringement) which may have occurred at any time in the unlimited past, up to the date of this Agreement, together with any and all further privileges in the United States and throughout the world to establish use, ownership, and registration of the Assigned Trademarks.

3. Authorization and Recordation. Assignor hereby authorizes and requests the Commissioner for Patents and Trademarks and any other applicable governmental authority or registrar to record and register Assignee as the owner of the Assigned Trademarks, and to issue any and all Assigned Trademarks to Assignee, as assignee of all of Assignor's right, title and interest in and to the Assigned Trademarks. Assignee shall have the right to record this Assignment with all applicable governmental authorities and registrars so as to perfect ownership of the Assigned Trademarks.

4. Governing Law. All issues and questions concerning the formation, existence, termination, construction, validity, enforcement and interpretation of this Assignment will be governed by, and construed in accordance with, the laws of the State of New York without giving effect to any choice of law or conflict of law rules or provisions (whether of the State of New York or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the State of New York.

5. Counterparts. This Assignment may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same agreement. Such counterparts may be delivered in electronic format (including by fax and electronic mail).

6. Purchase Agreement. This Assignment is being executed and delivered pursuant to the Purchase Agreement. Notwithstanding anything in this Assignment to the contrary, nothing in this Assignment, express or implied, is intended or shall be construed to modify, expand or limit in any way the terms and conditions of the Purchase Agreement, all of which shall survive the delivery of this Assignment to the extent provided in the Purchase Agreement. To the extent that any provision of this Assignment conflicts or is inconsistent with the terms and conditions of the Purchase Agreement, the Purchase Agreement will govern.

7. Further Assurances. In accordance with the Purchase Agreement, without further consideration, Assignor hereby agrees, for itself and its successors and assigns, to promptly execute and deliver, or promptly cause to be executed and delivered, all such further documents or perform all affirmative acts which may be reasonably necessary to record or perfect the above-described transfer of Assigned Trademarks, or to secure registration before the United States Patent and Trademark Office or any foreign trademark office (including executing, acknowledging and delivering to Assignee such further assurances, deeds, assignments, powers of attorney, bills of sale, consents and other instruments and documents as Assignee may reasonably request) in order to more fully consummate the transactions contemplated herein and in order to more effectively vest, transfer, and confirm the right, title and interest of Assignee in the Assigned Trademarks.

8. Closing. This Assignment is effective as of the Closing.

9. Severability; Amendment. Any provision in this Assignment which is illegal, invalid or unenforceable shall be ineffective to the extent of such illegality, invalidity or unenforceability, without affecting in any way the remaining provisions hereof. This Assignment may not be amended except by execution and delivery of an instrument in writing signed by officers of Assignee and Assignor on behalf of Assignee and Assignor, respectively.

10. Notices. Any notice given pursuant to this Assignment shall be given in the same manner and addressed to the intended recipient as set forth in Section 9.1 of the Purchase Agreement.
