INTELLECTUAL PROPERTY SECURITY AGREEMENT

This INTELLECTUAL PROPERTY SECURITY AGREEMENT (as it may be amended, restated, amended and restated, supplemented or otherwise modified from time to time, this “*IP Security Agreement*”) dated as of June 17, 2019, made by the Persons listed on the signature pages hereof (collectively, the “*Grantors*”) to U.S. Bank National Association, not in its individual capacity, but solely in its capacity as collateral agent under the Indenture (in such capacity, together with any successor Superpriority Lien Collateral Agent appointed pursuant to Section 11.07 of the Indenture (as hereinafter defined) and assigns, the “*Superpriority Lien Collateral Agent*”) for the Secured Parties (as defined in the Security Agreement referred to below).

WHEREAS, Exide International Holdings LP, a Cayman Islands exempted limited partnership and indirect wholly-owned subsidiary of Exide Technologies, a Delaware corporation (the “*Company*”), certain subsidiaries of the Company, as guarantors, have entered into an Indenture dated as of June 17, 2019 (as it may be amended, restated, amended and restated, supplemented or otherwise modified from time to time, the “*Indenture*”), with U.S. Bank National Association, as trustee and as Superpriority Lien Collateral Agent;

WHEREAS, as a condition precedent to the issuance of the Notes under the Indenture, each Grantor has executed and delivered that certain Superpriority Lien Security Agreement dated as of June 17, 2019, made by the Grantors to the Superpriority Lien Collateral Agent (as it may be amended, restated, amended and restated, supplemented or otherwise modified from time to time, the “*Security Agreement*”). Terms defined in the Security Agreement and not otherwise defined herein are used herein as defined in the Security Agreement; and

WHEREAS, under the terms of the Security Agreement, the Grantors have granted to the Superpriority Lien Collateral Agent, for the benefit of the Secured Parties, a continuing security interest in all of such Grantors’ right, title and interest in and to, among other property, certain intellectual property of the Grantors, and have agreed to execute this IP Security Agreement for recording with the United States Copyright Office, the United States Patent and Trademark Office and certain other Governmental Authorities in accordance with the Security Agreement.

NOW, THEREFORE, for and in consideration of the recitals above and other good and valuable consideration, the receipt, sufficiency and adequacy of which are hereby acknowledged, each Grantor agrees as follows:

SECTION 1. Grant of Security. Each Grantor hereby grants to the Superpriority Lien Collateral Agent, for the benefit of the Secured Parties, a continuing security interest in all of such Grantor’s right, title and interest in and to the following, in each case, as to each type of property described below, whether now owned or thereafter acquired by such Grantor, wherever located and whether now or hereafter existing or arising (the “*Collateral*”):

(i) all patents, patent applications, utility models and statutory invention registrations, all inventions claimed or disclosed therein and all improvements thereto together with all patentable inventions and other patent rights, including the patents and patent applications set forth in Schedule A hereto (the “*Patents*”);

(ii) all trademarks, service marks, uniform resource locators, domain names, trade dress, logos, designs, slogans, trade names, brand names, social media identifiers and accounts, business names, corporate names and other source identifiers, whether registered or unregistered, together, including the trademark and service mark registrations and applications set forth in Schedule B hereto (provided, that no security interest shall be granted in United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark applications under applicable federal law), together, in each case with the goodwill symbolized thereby (the “*Trademarks*”);

(iii) all copyrights, including copyrights in computer software and all source code, object code, specifications, designs and documentation related thereto, internet web sites and the content thereof, whether registered or unregistered, including the copyright registrations and applications and exclusive copyright licenses set forth in Schedule C hereto (the “*Copyrights*”);

(iv) all registrations and applications for registration for any of the foregoing (other than, for the avoidance of doubt, any United States trademark or service mark applications filed on the basis of a Grantor’s intent to use such trademark or service mark, unless and until evidence of the use of such trademark or service mark in interstate commerce is submitted to, and accepted by, the US Patent and Trademark Office) and all tangible embodiments thereof, together with all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations thereof;

(v) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and

(vi) all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the foregoing and all proceeds of any such proceeds;

provided, that, notwithstanding any of the other provisions set forth in this Section 1 or in any other Superpriority Lien Document, no Excluded Assets shall constitute Collateral under this IP Security Agreement and the security interest granted to the Superpriority Lien Collateral Agent pursuant to this IP Security Agreement shall not attach to any Excluded Assets. Proceeds of Excluded Assets shall be deemed Collateral, unless such proceeds would constitute property or assets of the type described in the definition of Excluded Assets.

SECTION 2. Security for Obligations. This IP Security Agreement and the security interest created hereby secure, in the case of each Grantor, the due and punctual payment and performance of all Secured Obligations. Without limiting the generality of the foregoing, this IP Security Agreement and the security interest created hereby secure, as to each Grantor, the payment of all amounts that constitute part of the Secured Obligations and would be owed by such Grantor or by any Subsidiary of the Company, as applicable, to any Secured Party under the Superpriority Lien Documents but for the fact that they are unenforceable or not allowable due to the existence of a bankruptcy, reorganization or similar proceeding involving any of the Grantors and other Subsidiaries of the Company. Notwithstanding anything to the contrary contained in this IP Security Agreement or any other Superpriority Lien Document, “Secured Obligations” shall not include any Excluded Swap Obligations.

SECTION 3. Recordation. Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents or Trademarks and any other applicable government officer record this IP Security Agreement. Delivery of an executed counterpart of a signature page to this IP Security Agreement by telecopier or .pdf shall be effective as delivery of an original executed counterpart of this IP Security Agreement.

SECTION 4. Execution in Counterparts. This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

SECTION 5. Grants, Rights and Remedies. This IP Security Agreement has been entered into in conjunction with the provisions of the Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Superpriority Lien Collateral Agent with respect to the Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein. In the event of a conflict between the terms of the Security Agreement and this IP Security Agreement, the terms of the Security Agreement shall govern and control.

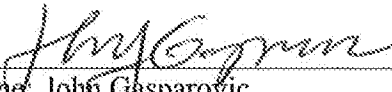

SECTION 6. Governing Law. This IP Security Agreement shall be governed by, and construed in accordance with, the law of the State of New York, excluding its choice of laws rules (other than Section 5-1401 of the New York General Obligations Law).

SECTION 7. Intercreditor Agreements. Reference is made to (a) the Amended and Restated Intercreditor Agreement, dated as of June 17, 2019 (as amended, restated, supplemented or otherwise modified from time to time, the “*Intercreditor Agreement*”), among (i) U.S. Bank National Association (“*U.S. Bank*”), in its capacity as Trustee and Superpriority Lien Collateral Agent and in its capacity as Note Control Agent for the Note Secured Parties and the ABL Secured Parties (as such terms are defined therein), (ii) U.S. Bank, in its capacity as trustee and collateral agent for the First Lien Secured Parties (as defined therein), (iii) U.S. Bank, in its capacity as trustee and collateral agent for the Second Lien Secured Parties (as defined therein) and (iv) Bank of America, N.A., in its capacities as

administrative agent and collateral agent for the parties from time to time to the ABL Facility Agreement as lenders and certain other parties, and in its capacity as ABL Control Agent for the ABL Secured Parties and the Note Secured Parties. Notwithstanding anything herein to the contrary, the Liens and security interests granted to the Superpriority Lien Collateral Agent pursuant to this IP Security Agreement and the exercise of any right or remedy by the Superpriority Lien Collateral Agent hereunder, in each case, with respect to the Collateral are subject to the limitations and provisions of the Intercreditor Agreement. In the event of any inconsistency between the terms or conditions of (i) this IP Security Agreement (other than Section 1 or Section 2 hereof) and the terms and conditions of the Intercreditor Agreement, the terms and conditions of the Intercreditor Agreement shall control.

IN WITNESS WHEREOF, each Grantor has caused this IP Security Agreement to be duly executed and delivered by its officer thereunto duly authorized as of the date first above written.
