CONFIRMATORY ASSIGNMENT

WHEREAS, **MyoScience, Inc.**, a Delaware corporation having its principal place of business at 46400 Fremont Boulevard, Fremont, California 94538 (“Assignor”), has heretofore sold, transferred, and conveyed to **Pacira Pharmaceuticals, Inc.**, a Delaware corporation having a principal place of business at 5 Sylvan Way, Suite 300, Parsippany, New Jersey 07054, through its wholly owned subsidiary **PS Merger, Inc.**, a Delaware corporation having a principal place of business at 5 Sylvan Way, Suite 300, Parsippany, New Jersey 07054, all of its right, title, and interest, in and to certain inventions, patents, patent applications, and trademarks as set forth in Exhibit A attached hereto, pursuant to an Agreement and Plan of Merger with respect to the merger of PS Merger, Inc. with and into MyoScience, Inc., dated as of March 4, 2019.

WHEREAS, PS Merger, Inc. was merged with and into MyoScience, Inc. under the name of **Pacira CryoTech, Inc.** (“Assignee”), a Delaware corporation having a principal place of business at 5 Sylvan Way, Suite 300, Parsippany, New Jersey 07054, pursuant to the Certificate of Merger filed on April 9, 2019, and attached hereto as Exhibit B.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is acknowledged, Assignor hereby confirms that Assignor did sell, transfer, and convey unto Assignee all right, title, and interest in and to the following:

- (a) all intellectual property (including, without limitation, any innovation, information, invention, discovery, product, process, work or design) disclosed, embodied, shown, or claimed in the below-referenced patent applications in Exhibit A, implicitly or explicitly;
- (b) the below-referenced patent applications in Exhibit A, the right to claim priority to the below-referenced patent applications in Exhibit A, all applications based in whole or in part upon the below-referenced patent applications in Exhibit A, including, without limitation, all applications that are a provisional, non-provisional, design, divisional, continuation, continuation-in-part, registration, utility model, industrial design, reissue, renewal, substitute, extension, reexamination, post-grant review, inter partes review, supplemental examination or non-U.S. patent applications or application for other rights based in whole or in part on the below-referenced patent applications in Exhibit A;
- (c) all patents and trademarks (including, without limitation, all U.S. and non-U.S. patents and trademarks, registrations, utility models, industrial designs, design patents, counterparts, continuations, continuations-in-part, divisionals, reissues, renewals, substitutes, extensions, reexaminations, post-grant reviews, inter partes reviews and supplemental examinations) that are granted or issued upon, or that claim priority to, any and all applications described in (b) of this paragraph or that disclose or claim intellectual property described in (a) of this paragraph, in whole or in part; and
- (d) all claims for damages by reason of past infringement of any rights under the applications, patents, or trademarks described in (a), (b) or (c) of this paragraph (including provisional rights to reasonable royalties pursuant to 35 U.S.C.

§154(d)) and the right to sue for and collect such damages and royalties for Assignee's own use.

Assignor hereby authorizes and requests the U.S. Patent and Trademark Office or any other U.S. or non-U.S. agency to issue to the Assignee any and all patents, trademarks, or other rights or documents, resulting from the intellectual property, patent applications, patents, and trademarks described in this Confirmatory Assignment.

Assignor hereby agrees to sign all papers and documents, including without limitation, applications, declarations, oaths and petitions, and, at the Assignee's expense, perform any other acts that are necessary in connection with prosecution of patent applications or intellectual property described in this Confirmatory Assignment and the enforcement of patents, trademarks, or other rights resulting from such patent applications or intellectual property.

Assignor hereby agrees that the terms, covenants, and conditions of this Confirmatory Assignment shall be binding upon and inure to the benefit of the Assignee, its successors, assigns and other legal representative.

Assignor hereby promises and affirms that Assignor has not entered, and will not enter, into any assignment, contract, or understanding that conflicts with this Confirmatory Assignment.

In Witness Whereof, Assignor and Assignee have executed this Confirmatory Assignment on the dates indicated below.
