3. **Restrictions on Future Agreements.** Each Assignor agrees that until all of the Obligations shall have been satisfied in full and the Loan Agreement shall have been terminated, Assignor will not, without Agent's prior written consent, enter into any agreement (including, without limitation, any license or royalty agreement) which is inconsistent with Assignor's obligations under this Security Agreement or the Loan Agreement, and each Assignor further agrees that it will not take any action, or permit any action to be taken by others subject to its control, including licensees, or fail to take any action, which would affect the validity or enforcement of the rights of Agent under this Security Agreement, except to the extent permitted under or as contemplated by the Loan Agreement.

4. **New Patents, Trademarks, and Licenses.** Each Assignor represents and warrants that the Patents, Copyrights, Licenses and Trademarks listed on **Exhibits "A", "B", "C" and "D"**, respectively, constitute all of the patents, copyrights, licenses, trademarks and applications now owned by each respective Assignor. If, before all of the Obligations shall have been satisfied in full and the Loan Agreement shall have been terminated, any Assignor shall (a) obtain rights to any material patents, inventions, trademarks, servicemarks, trademark registrations, tradenames, copyrights or any licenses therefor, or (b) become entitled to the benefit of any material patent or trademark or copyright application, trademark, trademark registration, servicemark, tradename, copyright or license renewal, or patent for any reissue, division, continuation, renewal, extension, or continuation-in-part of any material Patent or any improvement on any material Patent, the provisions of **Section 2** above shall automatically apply thereto and such Assignor shall give to Agent prompt written notice thereof. Each Assignor hereby authorizes Agent to modify this Security Agreement by amending **Exhibit "A", "B", "C" and/or "D"**, as applicable, to include any future patents, patent applications, trademarks, trademark registrations, servicemarks, trademark applications, tradenames, copyrights and licenses which are Patents, Copyrights, Licenses or Trademarks, as applicable, under **Section 2** above or under this **Paragraph 4**. Each Assignor hereby agrees to provide to Agent such assignment or other documentation as Agent may request to record Agent's lien on such future Patents, Copyrights, Licenses or Trademarks.

5. **Royalties; Term.** Each Assignor hereby agrees that the use by Agent of all Patents, Copyrights, Licenses and Trademarks as described herein shall be worldwide and without any liability for royalties or other related charges from Agent to any Assignor. The term of the security interest granted herein shall extend until the earlier of (a) the expiration of each of the respective Patents, Copyrights, Licenses and Trademarks assigned hereunder, or (b) the date on which all of the Obligations have been paid in full and the Loan Agreement is terminated.

6. **Agent's Right to Inspect.** Agent shall have the right, at any time and from time to time, to inspect any Assignor's premises and to examine Assignor's books, records and operations, including, without limitation, Assignor's quality control processes. Each Assignor agrees that Agent, or a conservator appointed by Agent, shall have the right to establish such additional product quality controls as Agent, or said conservator, in its reasonable judgment, may deem necessary to assure maintenance of the quality of products sold by Assignor under the Trademarks. Each Assignor agrees (a) not to sell or assign its interest in, or grant any license under, the Patents, Copyrights, Licenses or Trademarks, unless otherwise permitted under or contemplated by the Loan Agreement; and (b) to maintain the quality of any and all products in connection with which the Trademarks and/or Copyrights are used, consistent with quality of said products as of the date hereof.

7. **Termination.** This Security Agreement is made for collateral purposes only. Upon payment in full of all of the Obligations and termination of the Loan Agreement, Agent shall execute and deliver to each Assignor a termination of Agent's security interest granted herein and all deeds, assignments and other instruments as may be necessary or proper to re-vest in Assignor full title to the Patents, Copyrights, Licenses and Trademarks, subject to any disposition thereof which may have been made by Agent pursuant hereto.

8. **Duties of Assignor.** Each Assignor shall have the duty (a) to prosecute diligently any patent, trademark and copyright application pending as of the date hereof or thereafter until all of the Obligations shall have been paid in full and the Loan Agreement is terminated, (b) to make application on unpatented but patentable inventions and on trademarks and copyrights, as appropriate, and (c) to preserve and maintain all rights in patent applications and patents of the Patents, in trademark applications, trademarks and trademark registrations of the Trademarks and in copyright applications and copyrights of the Copyrights, in each case, only to the extent, any of the foregoing are necessary for the present and planned future conduct of its business. Any expenses incurred in connection with such applications shall be borne by Assignor. No Assignor will abandon any right to file a patent, trademark or copyright application, or any pending patent, trademark or copyright application or any Patent, Trademark, License or Copyright, except to the extent permitted under the Loan Agreement.

9. **Event of Default.** Upon the occurrence of an Event of Default, Agent may, without further notice to or consent of any Assignor, and in addition to all other rights and remedies available to Agent, immediately record all assignments previously executed and delivered to Agent by Assignor and/or execute and record with all applicable offices (including, without limitation, the Patent and Trademark Office) an absolute assignment to Agent by Assignor of all rights, title and interest of Assignor, in and to the IP Collateral. Each Assignor hereby authorizes and agrees that Agent may, through the power of attorney granted in **Section 14** hereof, upon the occurrence of an Event of Default irrevocably execute and deliver in Assignor's name any and all such assignments and agreements and to take any and all other actions in Assignor's name as Agent shall deem reasonable or appropriate to transfer and convey all right, title and interest of Assignor in and to the IP Collateral to Agent or any other person or entity selected by Agent.

10. **Agent's Right to Sue.** After the occurrence and during the continuance of an Event of Default, Agent shall have the right, but shall in no way be obligated, to bring suit in its own name to enforce the Licenses, Patents, Copyrights and/or Trademarks, and any licenses thereunder, and, if Agent shall commence any such suit, each Assignor shall, at the request of Agent, do any and all lawful acts and execute any and all proper documents required by Agent in aid of such enforcement and each Assignor shall promptly, upon demand, reimburse and indemnify Agent for all costs and expenses incurred by Agent in the exercise of its rights under this **Section 10**.

11. **Waivers.** No course of dealing between any Assignor and Agent, nor any failure to exercise, nor any delay in exercising, on the part of Agent, any right, power or privilege hereunder or under the Loan Agreement shall operate as a waiver thereof, nor shall any single or partial exercise of any right, power or privilege hereunder or thereunder preclude any other or further exercise thereof or the exercise of any other right, power or privilege.

12. **Severability.** The provisions of this Security Agreement are severable, and if any clause or provision shall be invalid and unenforceable in whole or in part in any jurisdiction, then such invalidity or unenforceability shall affect only such clause or provision, or part thereof, in such jurisdiction, and shall not in any manner affect such clause or provision in any other jurisdiction, or any other clause or provision of this Security Agreement in any jurisdiction.

13. **Modification.** This Security Agreement cannot be altered, amended or modified in any way, except as specifically provided in **Section 4** hereof or by a writing signed by the parties hereto.

14. **Cumulative Remedies; Power of Attorney; Effect on Loan Agreement.** All of Agent's rights and remedies with respect to the Patents, Trademarks, Copyrights and Licenses, whether established hereby or by the Loan Agreement, or by any other agreements or by law shall be cumulative and may be exercised singularly or concurrently. Each Assignor hereby authorizes Agent to make,

constitute and appoint any officer or agent of Agent as Agent may select, in its sole discretion, as Assignor's true and lawful attorney-in-fact, with power to (a) endorse Assignor's name on all applications, documents, papers and instruments necessary or reasonably desirable for the Agent to protect, evidence or perfect its security interest in the Patents, Trademarks, Copyrights and Licenses, (b) upon the occurrence of an Event of Default, endorse Assignor's name on all applications, documents, papers and instruments necessary or reasonably desirable for the Agent to enforce its security interest in the Patents, Trademarks, Copyrights and Licenses, (c) upon the occurrence of an Event of Default, take any other actions with respect to the Patents, Trademarks, Copyrights and/or Licenses as the Agent reasonably deems in the best interest of the Agent, (d) upon the occurrence of an Event of Default, grant or issue any exclusive or non-exclusive license under the Patents or Trademarks to anyone, including Agent, and/or (e) upon the occurrence of an Event of Default, assign, pledge, convey or otherwise transfer title in or dispose of the Patents, Trademarks, Copyrights or Licenses to anyone, including Agent. Agent may also act under such power of attorney to take the actions referenced in Section 4. Agent hereby ratifies all that such attorney shall lawfully do or cause to be done by virtue hereof. This power of attorney shall be irrevocable until all of the Obligations shall have been paid in full and the Loan Agreement shall have been terminated. Each Assignor acknowledges and agrees that this Security Agreement is not intended to limit or restrict in any way the rights and remedies of Agent under the Loan Agreement but rather is intended to facilitate the exercise of such rights and remedies given it by the terms of this Security Agreement, all rights and remedies allowed by law and the rights and remedies of a secured party under the Uniform Commercial Code as enacted in any applicable jurisdiction.

15. **Binding Effect; Benefits.** This Security Agreement shall be binding upon each Assignor and its successors and assigns, and shall inure to the benefit of Agent and its nominees, successors and assigns.

16. **Governing Law.** This Security Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Pennsylvania without regard to conflict of law principles.

17. **Amendment and Restatement.** This Security Agreement is an amendment and restatement of any prior security agreements from Assignors to Assignee specifically relating to IP Collateral, but is not, and shall not be deemed to be, a novation or termination of the obligations under such prior security agreements or the liens and security interests thereunder.
