## INTELLECTUAL PROPERTY SECURITY AGREEMENT

This Intellectual Property Security Agreement is entered into as of August 13, 2019 by and among OXFORD FINANCE LLC, a Delaware limited liability company with an office located at 133 North Fairfax Street, Alexandria, Virginia 22314 (“**Oxford**”), as collateral agent (in such capacity, “**Collateral Agent**”), the Lenders listed on Schedule 1.1 of the Loan Agreement (as defined below) or otherwise a party thereto from time to time including Oxford in its capacity as a Lender (each a “**Lender**” and collectively, the “**Lenders**”), and MOLECULIGHT INC., an Ontario corporation with offices located at 425 University Avenue, Suite 700, Toronto, ON, M5G 1T6, Canada, MOLECULIGHT CORP., a Delaware corporation with offices located at 425 University Avenue, Suite 700, Toronto, ON, M5G 1T6, Canada, MOLECULIGHT INTERNATIONAL INC., an Ontario corporation with offices located at 101 College Street, South Tower, Suite 200, Toronto, ON, M5G 1L7, Canada and MOLECULIGHT ONCOLOGY INC., an Ontario corporation with offices located at 425 University Avenue, Suite 700, Toronto, ON, M5G 1T6, Canada (individually and collectively, jointly and severally, “**Grantor**”).

### RECITAL

A. Lenders agreed to make certain advances of money and to extend certain financial accommodations to Grantor (the “**Loans**”) in the amounts and manner set forth in that certain Loan and Security Agreement by and among the Collateral Agent, Lenders and Grantor dated as of August 13, 2019 (as the same may be, and may have been, amended, modified or supplemented from time to time, the “**Loan Agreement**”; capitalized terms used herein are used as defined in the Loan Agreement). In accordance with the terms of the Loan Agreement, Grantor is granting to Collateral Agent, for the ratable benefit of the Lenders, a security interest in certain Copyrights, Trademarks and Patents (as each term is described below) to secure the obligations of Grantor under the Loan Agreement.

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged, and intending to be legally bound, as collateral security for the prompt and complete payment when due of its obligations under the Loan Agreement, Grantor hereby represents, warrants, covenants and agrees as follows:

### AGREEMENT

To secure its obligations under the Loan Agreement, effective as of the date hereof, Grantor hereby grants and pledges to Collateral Agent, for the ratable benefit of the Lenders, a security interest in all of Grantor’s right, title and interest in, to and under its intellectual property (all of which shall collectively be called the “**Intellectual Property Collateral**”), including, without limitation, the following:

(a) Any and all copyright rights, copyright applications, copyright registrations and like protections in each work or authorship and derivative work thereof, whether published or unpublished and whether or not the same also constitutes a trade secret, now or hereafter existing, created, acquired or held, including without limitation those copyright registrations set forth on Exhibit A attached hereto (collectively, the “**Copyrights**”);

(b) Any and all trade secrets, and any and all intellectual property rights in computer software and computer software products now or hereafter existing, created, acquired or held;

(c) Any and all design rights that may be available to Grantor now or hereafter existing, created, acquired or held;

(d) All patents, patent applications, industrial designs, industrial design registrations and like protections including, without limitation, improvements, divisions, continuations, renewals, reissues, extensions and continuations-in-part of the same, including without limitation those patents and patent applications set forth on Exhibit B attached hereto (collectively, the “**Patents**”);

(e) Any trademark and servicemark rights, whether registered or not, applications to register and registrations of the same and like protections, and the entire goodwill of the business of Grantor connected with and symbolized by such trademarks, including without limitation those trademark registrations and trademark applications set forth on Exhibit C attached hereto (collectively, the “**Trademarks**”); provided, however that Trademarks shall not include any intent-to-use trademarks;

(f) Any and all claims for damages by way of past, present and future infringements of any of the rights included above, with the right, but not the obligation, to sue for and collect such damages for said use or infringement of the intellectual property rights identified above;

(g) All licenses or other rights to use any copyrights, patents or trademarks and all license fees and royalties arising from such use to the extent permitted by such license or rights;

(h) All amendments, extensions, renewals and extensions of any of the Copyrights, Trademarks or Patents; and

(i) All proceeds and products of the foregoing, including without limitation all payments under insurance or any indemnity or warranty payable in respect of any of the foregoing.

Notwithstanding the foregoing, “Intellectual Property Collateral” shall not include any Restricted Asset, in each case, until it is no longer a Restricted Asset. A “**Restricted Asset**” is any license of Grantor under which Grantor is a licensee and with respect to which the granting or making of a security interest would result in the abandonment, invalidation or unenforceability of, or any material breach, termination or material default under, any such license or any agreement relating to Grantor’s interest in such license. However, any license will not be a Restricted Asset if and to the extent applicable law provides that the granting or making of a security interest does not give rise to a breach or default notwithstanding the terms governing the license, including any related agreement. Notwithstanding the above, Grantor will hold as trustee the Restricted Asset and all proceeds arising under or in connection with the Restricted Asset in trust for the Collateral Agent, for the ratable benefit of the Lenders.

Grantor hereby represents and warrants that the Copyrights set forth on Exhibit A, the Patents set forth on Exhibit B and the Trademarks set forth on Exhibit C include all Copyrights, Patents and Trademarks of Grantor and its Subsidiaries that are either registered, or for which applications for registration or grant, as applicable, are pending, on the date hereof. Grantor hereby covenants to provide prompt notice of any new the Copyrights, Trademarks or Patents of Grantor or any of its Subsidiaries that are either registered or for which an application for registration or grant is filed.

This security interest is granted in conjunction with the security interest granted to Collateral Agent, for the ratable benefit of the Lenders under the Loan Agreement, and shall become effective upon the date hereof. The rights and remedies of Collateral Agent with respect to the security interest granted hereby are in addition to those set forth in the Loan Agreement and the other Loan Documents, and those which are now or hereafter available to Collateral Agent as a matter of law or equity. Each right, power and remedy of Collateral Agent provided for herein or in the Loan Agreement or any of the Loan Documents, or now or hereafter existing at law or in equity shall be cumulative and concurrent and shall be in addition to every right, power or remedy provided for herein and the exercise by Collateral Agent of any one or more of the rights, powers or remedies provided for in this Intellectual Property Security

Agreement, the Loan Agreement or any of the other Loan Documents, or now or hereafter existing at law or in equity, shall not preclude the simultaneous or later exercise by any person, including Collateral Agent, of any or all other rights, powers or remedies.

Moleculight Inc.	LOOK TO HEAL	United States	86/719,252	5,093,690	Registered	12/06/2016	Registered	001 - Bioassays to optically analyze biological or chemical constituents for medical applications or scientific applications 009 - Platforms, namely, computer software, hardware, and peripherals, to optically analyze biological or chemical constituents for medical applications or scientific applications 042 - Research and development in connection with bioassays to optically analyze biological or chemical constituents for medical applications or scientific applications; Research and development in connection with platforms, namely, software, hardware, peripherals, and bioassays to optically analyze biological or chemical constituents for medical applications or scientific applications

Molecularight Inc.	LOOK TO HEAL	Canada	1723451	TMA941,457				Registered	09 - Platform namely software, hardware, peripherals, and bioassays to optically analyze biological and chemical constituents for medical applications and scientific application 42 - Research and development connection with bioassays to optically analyze biological and chemical constituents for medical applications and scientific applications; Research and development in connection with platforms, namely software, hardware, peripherals, and bioassays to optically analyze biological and chemical constituents for medical applications and scientific application

**TRADE MARK**

Molecularight Inc.	LOOK TO HEAL	United Kingdom	3128659	UK00003128659			Registered	09 - Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), lifting, saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission reproduction of sound or images; magnetic data carriers, recording discs; compact discs, DVDs and other digital recording media; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment, computers; computer software; fire-extinguishing apparatus; computer hardware; computer peripherals; bioassay equipment; platform namely software, hardware, peripherals, and bioassays, to optically analyse biological and chemical constituents for medical applications and scientific applications; optical imaging devices; electronic imaging devices; image capturing and developing devices; monitoring instruments; sensors and detectors; handheld computers; microscopes for medical use; parts and fittings for all the aforesaid goods. 42 - Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; research and development in connection with bioassays to optically analyse biological and chemical constituents for medical applications and scientific applications; research and development in connection with platforms, platform namely software,
--------------------	--------------	----------------	---------	---------------	--	--	------------	--

								hardware, peripherals, and bioassays to optically analyse biological and chemical constituents for medical applications and scientific applications research relating to bacteriological calibration services relating to medical apparatus; design and development medical technology; biological research, clinical research and medical research; analysis of human serum and tissues for medical research; design and development of medical diagnostic apparatus; information, advisory and consultancy services in relation to the aforesaid
Moleculight Inc.	MOLECULIGHT DARKDRAPE	Canada	I747707	TMA977765			Registered	- Fluorescence imaging equipment covers used to create an environment for optimal fluorescence imaging.

Molecularight Inc.	I:X	Canada	1839879	TMAI013603			Registered	- platform, namely software, hardware, computer peripherals, and bioassays to optically analyze biological and chemical constituents for medical applications and scientific applications; research and development in the field of connection with bioassays to optically analyze biological and chemical constituents for medical applications; Research and development in connection with platforms, namely software, hardware, computer peripherals, and bioassays to optically analyze biological and chemical constituents for medical applications and scientific applications
Molecularight Inc.	I:X	United States	87/511,866	5,778,415	Registered	06/18/2019	Registered	001 - Assays for research purposes, namely, bioassays for optically analyzing biological and chemical constituents for medical applications and scientific applications; computer hardware for optically analyzing biological and chemical constituents for medical applications and scientific applications; computer software platforms for optically analyzing biological and chemical constituents for medical applications and scientific applications; research and development in the field of analyzing biological and chemical constituents for medical applications and scientific applications; research and development in the field of computer software platforms, computer hardware, computer peripherals, and bioassays for optically analyzing biological and chemical constituents for medical applications and scientific applications

**TRADEMARK**

Moleculight Inc.	MOLECULIGHT DARKDRAPE	United Kingdom	UK00003249608	UK00003249608			Registered	10 - Surgical, medical, dental and veterinary apparatus and instruments; artificial limbs, eyes and teeth; orthopaedic articles; suture materials; therapeutic and assistive devices adapted for the disabled; massage apparatus; apparatus, devices and articles for nursing infants; sexual activity apparatus, devices and articles; fluorescence imaging equipment; covers used to create an environment for optimal fluorescence imaging; cases fitted for medical instruments; diagnostic apparatus for medical purposes; medical apparatus and instruments; apparatus for use in medical analysis; filters for ultraviolet rays, for medical purposes; lamps for medical purposes; light sources for medical use; lighting for medical use; analysers for bacterial identification for medical purposes; apparatus and installations for the production of x-rays, for medical purposes; blood testing apparatus; diagnostic apparatus for medical purposes; lasers for medical purposes; radiological apparatus for medical purposes; radiotherapy apparatus; parts and fittings relating to the aforesaid.
Moleculight Inc.	MOLECULIGHT DARKDRAPE	United States	87/563,052	5,417,743	Registered	03/06/2018	Registered	010 - Medical imaging apparatus, namely, fluorescence imaging equipment covers used to create an environment for optimal fluorescence imaging
