INTELLECTUAL PROPERTY ASSIGNMENT

THIS INTELLECTUAL PROPERTY ASSIGNMENT (this "Assignment") is made and entered into as of September 28, 2018 (the "Effective Date") by and between **Measurement Specialties Inc (USA)**, an entity organized under the laws of the commonwealth of Virginia, USA, having a place of business at 1000 Lucas Way, Hampton, Virginia 23666, United States of America (the "Assignor"), and **TE Connectivity Services GmbH**, a Swiss GmbH having a place of business at Rheinstrasse 20, CH-8200 Schaffhausen Switzerland (the "Assignee").

WHEREAS, Assignor wishes to assign to Assignee, and Assignee wishes to acquire from Assignor all the Intellectual Property of the Assignor.

NOW, THEREFORE, for the good and valuable consideration recited herein, the parties agree as follows.

DEFINITIONS

Intellectual Property shall mean all intangible and intellectual property assets of the Assignor including any of the following: United States or foreign (a) issued patents, reissued or reexamined patents, revivals of patents, divisions, continuations and continuations-in-part of patents, all renewals and extensions thereof, utility models, and certificates of invention, regardless of country or formal name and published or unpublished, nonprovisional and provisional patent applications, including the right to file other or further applications, reexamination proceedings, invention disclosures and records of invention, including those set out in Exhibit A (collectively "Patents"); (b) registered and unregistered trademarks, service marks, logos, trade names and other indicia of origin, pending trademark and service mark registrations and applications, all common law rights thereto and the goodwill symbolized thereby or associated therewith, including those assets listed on attached Exhibit B (collectively, "Trademarks"); (c) registered and unregistered copyrights, copyrightable works, semiconductor topography and mask work rights, including, without limitation, all rights of authorship, use, publication, reproduction, distribution, performance, transformation, moral rights and ownership therein and thereof, the right to create derivative works, and registrations and applications for registration and all renewals and extensions of registrations thereof, together with all other interests accruing by reason of international copyright, semiconductor topography and mask work conventions (collectively "Copyrights"); (d) Internet domain names, applications, registrations and reservations therefor (collectively "Domain Names"); (e) trade secrets, know-how, inventions, invention disclosures and other proprietary information and materials, whether or not patentable or copyrightable, and whether or not reduced to practice, including without limitation all technology, ideas, research and development, inventions, designs, manufacturing and operating specifications and processes, formulae, customer, distributor and supplier lists, shop rights, designs, drawings, patterns, technical data, computer programs, and all hardware, software and processes not otherwise listed in (a) through (d) above, and (f) all other intangible assets, properties and rights (whether or not appropriate steps have been taken to protect, under applicable law, such other intangible assets, properties or rights) including, without limitation, all

claims, causes of action and rights to sue for past, present and future infringement or unconsented use of any of the Intellectual Property, the right to file applications and obtain registrations, and all rights arising therefrom and pertaining thereto and all products, proceeds and revenues arising from or relating to any and all of the foregoing.

1. Assignment of Intellectual Property.

Subject to any earlier granted rights or licenses, in consideration for the Assignee's obligations under Clause 4 (the sufficiency of which the Assignor hereby acknowledges), the Assignor hereby assigns to Assignee its entire right, title and interest in and to the Intellectual Property, for the United States and for all other countries, including, without limitation, all rights therein provided by international conventions and treaties, for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made, together with all income, royalties and payments due or payable as of the Effective Date or thereafter, including, without limitation, all claims for damages by reason of past, present or future infringement or other unauthorized use of the Intellectual Property, with the right to sue for, and collect the same for Assignee's own use and enjoyment and for the use and enjoyment of its successors, assigns or other legal representatives, and including all other benefits and value normally associated with the Intellectual Property.

2. Assignment of Related Contracts.

- (a) In addition to the assignment of the Intellectual Property, Assignor hereby assigns to Assignee its entire right, title and interest in and to all contracts, licenses and other agreements, such as development agreements and purchase and sale agreements, relating to Intellectual Property, and Assignee agrees to accept all obligations under these agreements; provided, Assignor has no obligation to assign any Intellectual Property, contract, license or agreement to the extent such assignment would result in a violation of applicable law, a default, breach, event of noncompliance, or change in terms regarding any such contract, license or agreement, or would otherwise deprive Assignee of the full enjoyment and benefit of such Intellectual Property, contract, license or agreement (each, a "Retained Asset").
- (b) Regarding each Retained Asset, Assignor shall use reasonable efforts to obtain any necessary consent and shall cooperate in good faith with Assignee to put in place, to the extent permitted by law or the terms of the relevant Retained Asset and taking into consideration the interests of any affiliate of Assignor, such arrangements as Assignor and Assignee may, acting in good faith, determine provides Assignee benefits reasonably equivalent had such Retained Asset been assigned to Assignee.

IN WITNESS WHEREOF, Assignor and Assignee have caused this Assignment to be executed by their duly authorized representatives as of the Effective Date.
