THIS RELEASE OF SECURITY INTEREST IN PATENTS (this “**Release**”) is made as of September 3, 2019 (the “**Effective Date**”) by Morgan Stanley Senior Funding, Inc., as collateral agent (the “**Agent**”) in favor of NXP B.V. (“**NXP BV**”, the “**Grantor**”). Capitalized terms not defined herein shall have the meanings ascribed to such terms in the Credit Agreement (as defined below).

WHEREAS, NXP BV entered into that certain revolving credit agreement, dated as of December 7, 2015, among NXP BV, NXP Funding LLC, a Delaware limited liability company, the lenders and agents party thereto, including the Agent, as administrative agent and collateral agent (as amended, amended and restated, supplemented or otherwise modified from time to time prior to the date hereof, the “**Credit Agreement**”);

WHEREAS, in connection with its obligations under the Credit Agreement (the “**Obligations**”), NXP BV entered into that certain security agreement, dated as of September 29, 2006, among Philips Semiconductors USA, Inc., NXP Funding LLC, each of the other Guarantors from time to time party thereto pursuant to Section 8.13 thereof and the Agent, as global collateral agent (as amended, amended and restated, supplemented or otherwise modified from time to time prior to the date hereof, the “**Security Agreement**”);

WHEREAS, in connection with the Obligations under the Credit Agreement and the Security Agreement, NXP BV entered into that certain Supplement to the Security Agreement, dated as of May 25, 2016 between Freescale Semiconductor, Inc. and the Agent (as amended, amended and restated, supplemented or otherwise modified from time to time prior to the date hereof, the “**IP Security Agreement**”) which was recorded with the United States Patent and Trademark Office (“**USPTO**”) on June 16, 2016 at Reel/Frame 039138/0001;

WHEREAS, the IP Security Agreement, which bargained, sold, conveyed, assigned, set over, mortgaged, pledged, hypothecated and transferred to the Agent, for the benefit of the Secured Parties, and granted to the Agent, for the benefit of the Secured Parties, a continuing first priority security interest in (i) certain of its patent assets, whether then owned or thereafter acquired or in which the Grantor then had or at any time thereafter acquired any right, title or interest, (ii) all claims for, and rights to sue for past or future infringements of any of the foregoing, and (iii) all income, royalties, damages and payments then or thereafter due or payable with respect to any of the foregoing, including damages and payments for past or future infringements thereof (“**Patents**”), including such patents and patent applications listed on Schedule I hereto, as collateral security for the prompt and complete payment and performance when due (whether at the stated maturity, by acceleration or otherwise), of the Obligations; and

WHEREAS, Agent acknowledges full performance of the Obligations and accordingly requests a specific release of the security interest granted and recorded against all of the Patents of the Grantor pursuant to the IP Security Agreement and/or Security Agreement (including, but not limited to, those items set forth on Schedule I hereto and/or identified in the IP Security Agreement).

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged:

The Agent, on behalf of itself and its respective successors and assigns, hereby: (i) fully releases and discharges any and all liens, security interests, right, title and interest it may have, in whole or in part, in all of the Patents of the Grantor granted to the Agent pursuant to the IP Security Agreement and/or the Security Agreement, together with all applications and registrations related thereto; (ii) re-

assigns to the Grantor or its Affiliates/designees, as applicable, any and all such right, title and interest that it may have in any Patents; (iii) agrees that it shall execute all other documents and do any and all other acts which the Grantor (or its agents or designees) reasonably request (at the Grantor's sole cost and expense) to relinquish and effect the release of such rights to the Grantor; (iv) authorizes the Grantor or the Grantor's authorized representative(s) to (x) record or file this Release with the USPTO and any other applicable governmental office or agency and (y) file UCC financing statements with the applicable filing office in order to memorialize the release hereby; and (v) authorizes and requests that the USPTO and any other applicable governmental office or agency note and record the release hereby given and any other filings necessary to evidence the release and termination of the Agent's rights under each of the Credit Agreement, the Security Agreement, the IP Security Agreement, with respect to any Patents.

Notwithstanding anything herein (or in any other document, communication or filing relating hereto by any person) to the contrary, the Agent is authorizing solely the release of the security interests bargained, sold, conveyed, assigned, set over, mortgaged, pledged, hypothecated, transferred or granted pursuant to the Security Agreement, IP Security Agreement and the Grantor's obligations under the Credit Agreement, and not any other liens or security interests at any time granted by the Grantor or any other grantor in favor of Morgan Stanley Senior Funding, Inc. or in favor of any other person.

This Release may be executed in any number of counterparts and by different parties in separate counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

This Release shall be governed by, and construed and interpreted in accordance with, the laws of the State of New York.
