## TRADEMARK ASSIGNMENT

This Trademark Assignment (“Assignment”), effective as of October 31, 2019 (“Effective Date”), is by and between Sugarfina, Inc., a Delaware corporation, Sugarfina International, LLC, a Delaware limited liability company, and Sugarfina (Canada), Ltd., a Canadian limited company (collectively, “Assignors”), and Sugarfina IP LLC, a Delaware limited liability company (“Assignee”).

WHEREAS, Assignors, either individually or collectively, are the owners of the trademarks, service marks, brands, certification marks, logos, trade dress, trade names, and other similar indicia of source or origin, together with the goodwill connected with the use of and symbolized thereby, described in the Agreement, whether or not such are registered, and all registrations, applications for registration, renewals, extensions and reversions of any of the foregoing, including the registrations set forth on Schedule 1 attached hereto and all issuances, extensions, and renewals thereof (“Trademarks”);

WHEREAS, pursuant to a separate Asset Purchase Agreement dated October 25, 2019 (“Agreement”), Assignors have conveyed, transferred, and assigned to Assignee as a designee of Sugarfina Holdings LLC, a Delaware limited liability company (formerly known as Sugarfina Acquisition Corp., together with its assignees or designees), among other assets, certain Intellectual Property assets of Assignors, including the Trademarks, and have agreed to execute and deliver this Trademark Assignment, which may be recorded with the United States Patent and Trademark Office and corresponding entities or agencies in any applicable jurisdictions. Any capitalized terms used but not otherwise defined herein shall have the meanings specified in the Agreement.

WHEREAS, Assignee is the successor to the business of the Assignors;

NOW, THEREFORE, in consideration of the premises and mutual covenants and agreements set forth hereinafter and in the Agreement, the sufficiency of which is acknowledged, Assignee and Assignors, intending to be legally bound, hereby agree as follows:

1. On the terms and subject to the conditions set forth in the Agreement, Assignors hereby irrevocably assign, transfer and convey to Assignee, and Assignee accepts, the following:

- (a) Assignors’ entire right, title and interest in and to the Trademarks, together with the goodwill of the business connected with the use of and symbolized by the Trademarks throughout the world, and any and all applications for registration, registrations, and extensions or renewals therefor;
- (b) all rights of any kind whatsoever of each respective Assignor accruing under any of the Trademarks provided by applicable Law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world;
- (c) any and all royalties, fees, income, payments, and other proceeds now or hereafter

- due or payable with respect to all of the Trademarks; and
- (d) with the exception of the Excluded Judgments only, any and all claims and causes of action with respect to any of the Trademarks, whether accruing before, on, or after the date hereof, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief for past, present, and future infringement, dilution, misappropriation, violation, misuse, breach, or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. In the event any of the Trademarks are subject to registration, Assignors hereby authorize the Commissioner for Trademarks in the United States Patent and Trademark Office and the officials of corresponding entities or agencies in any applicable jurisdictions to record and register this Trademark Assignment upon request by and at the sole cost of Assignee. Following the date hereof, Assignors shall provide such reasonable cooperation and assistance to Assignee and its successors, assigns, and legal representatives, including the execution and delivery of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, or other documents, as may be necessary to effect, evidence, or perfect the assignment of the Trademarks to Assignee, or any assignee or successor thereto.

3. Assignors do hereby make, constitute and appoint the Assignee (and any officer or agent of the Assignee as the Assignee may select in its exclusive discretion) as the Assignors' true and lawful attorney-in-fact, with the power to endorse the Assignors' name on all applications, documents, papers, deeds and instruments necessary to implement and effect fully the intentions, purposes and provisions of this Assignment, including, but not limited to, the filing of any instrument of assignment and documents related thereto to effect such assignment in the United States Patent and Trademark Office and corresponding entities or agencies in any applicable jurisdictions; provided, that the Assignee shall only be entitled to exercise its rights under this power of attorney with respect to any of the foregoing actions to the extent that the Assignors have failed to take such action at the request of the Assignee and following ten (10) days prior written notice to the Assignors of the exercise of such rights. This power of attorney shall be irrevocable.

4. Nothing contained in this Assignment shall be construed as a waiver of or limitation upon any of the rights or remedies of the parties hereto as set forth in, or arising in connection with, the Agreement, or any instrument or document delivered by the parties hereto pursuant to the Agreement. This Assignment is not intended to broaden, limit, terminate or otherwise alter any obligations, covenants, agreements, representations or warranties set forth in the Agreement, and in the event of any ambiguity or conflict between the terms hereof and the Agreement, the terms of the Agreement shall be governing and controlling. Neither this Assignment nor any term hereof may be changed, waived, discharged or terminated other than by an instrument in writing signed by the parties. This Assignment is subject to all of the representations, warranties, covenants, exclusions and indemnities set forth in the Agreement, all of which are incorporated herein by reference.

5. This Assignment may be executed in two or more counterparts, each of which shall be deemed an original and all of which together shall constitute one instrument. Any counterpart or other signature hereupon delivered by email or other electronic transmission device shall be deemed for all purposes as constituting good and valid execution and delivery of this Assignment by such party.
