WHEREAS, in connection with that certain Senior Facilities Agreement dated as of September 30, 2019 (as amended, restated, amended and restated, supplemented, modified, renewed or extended from time to time, the “Facilities Agreement”), by and among Advanced Manufacturing Control Systems Limited, a limited liability company incorporated and registered under the laws of Ireland, as the Company, the Subsidiaries listed in Part 1 of Schedule 1 to the Facilities Agreement (as defined below) as Original Borrowers, the Subsidiaries listed in Part 1 of Schedule 1 to the Facilities Agreement (as defined below) as Original Guarantors, Silicon Valley Bank, as Arranger and Agent, the Financial Institutions listed in Part 2 of Schedule 1 therein as Original Lenders, the Security Agent, and the other parties party thereto from time to time, the Grantor has entered into that certain Security Agreement dated as of November 15, 2019 (as amended, restated, amended and restated, supplemented, modified, renewed or extended from time to time, the “Security Agreement”), by the Grantor and any other parties thereto in favor of the Security Agent;

WHEREAS, under the terms of the Security Agreement, Grantor has granted a security interest in certain Intellectual Property Collateral, including, without limitation, the Intellectual Property Collateral (as defined below), to the Security Agent, for itself and on behalf and for the ratable benefit of the other Secured Parties, and has agreed as a condition thereof to execute this Intellectual Property Security Agreement for recording with the United States Patent and Trademark Office and/or the United States Copyright Office.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor agrees as follows:

1. Grant of Security. As security for the payment and performance of the Secured Obligations, Grantor hereby grants to the Security Agent, for itself and on behalf and for the ratable benefit of the other Secured Parties, a security interest in all of Grantor’s right, title and interest in, to and under the following property (the “Intellectual Property Collateral”):

all state (including common law), federal and foreign trademarks, service marks and trade names, and applications for registration of such trademarks, service marks and trade names, all licenses relating to any of the foregoing (including such U.S. registrations and applications as are described in Schedule 1), whether registered or unregistered and wherever registered and all reissues, extensions and renewals thereof, and all the goodwill of the business connected with the use of, and symbolized by, each of the above;

(i) all patents and patent applications, domestic or foreign, all licenses relating to any of the foregoing (including such U.S. patents and patent applications as are described in Schedule 1) and all reissues, divisions, continuations, renewals, extensions and continuations-in-part thereof;

all copyrights and applications for copyright, domestic or foreign, together with the underlying works of authorship (including titles), whether or not the underlying works of authorship have been published whether said copyrights are statutory or arise under the common law, and all other rights and works of authorship (including the U.S. copyright registrations and copyright applications described in Schedule 1), all computer programs, computer databases, computer program flow diagrams, source codes, object codes and all tangible property embodying or incorporating any copyrights, all licenses relating to any of the foregoing and all rights of renewal and extension of copyright;

in each case, solely to the extent the same constitutes Intellectual Property Collateral under the Security Agreement.

2. Recordation. Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and/or the Commissioner for Trademarks and any other applicable government officer, as applicable, record this Intellectual Property Security Agreement.

3. Execution in Counterparts. This Intellectual Property Security Agreement may be executed in any number of counterparts (including by facsimile or other electronic imaging means), each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

4. Governing Law. This Intellectual Property Security Agreement and all claims or causes of action (whether in contract, tort or otherwise) that may be based upon, arise out of or relate in any way hereto or the negotiation, execution or performance thereof or the transactions contemplated hereby, unless otherwise expressly set forth therein, shall be governed by, and construed in accordance with, the law of the state of New York.

5. Conflict Provision. This Intellectual Property Security Agreement has been entered into in conjunction with the provisions of the Security Agreement, the Facilities Agreement and the Intercreditor Agreement. The rights and remedies of each party hereto with respect to the security interest granted herein are without prejudice to and are in addition to those set forth in the Security Agreement, the Facilities Agreement and the Intercreditor, all terms and provisions of which are incorporated herein by reference. In the event that any provisions of this Intellectual Property Security Agreement are in conflict with the Security Agreement, the Facilities Agreement or the Intercreditor Agreement, the provisions of the Security Agreement, the Facilities Agreement or the Intercreditor Agreement, as applicable, shall govern.

6. Definitions. Any capitalized terms not otherwise defined herein shall have the meanings ascribed to them in the Security Agreement or the Facilities Agreement, as applicable.

IN WITNESS WHEREOF, each of the undersigned has caused this Intellectual Property Security Agreement to be duly executed and delivered as of the date first above written.
