Seller (and its sole shareholder) and Buyer are parties to a certain Asset Purchase Agreement dated as of December 27, 2019 ("Purchase Agreement"). Capitalized terms used herein without being defined herein will have the meanings given to them in the Purchase Agreement. Pursuant to the Purchase Agreement, Seller agreed to sell, assign, transfer, convey and deliver to Buyer, and Buyer agreed to purchase, among other assets, certain intellectual property of Seller, and Seller has agreed to execute and deliver this IP Assignment, for recording with the [United States Patent and Trademark Office], [the United States Copyright Office], [and corresponding entities or agencies in any applicable jurisdictions]. The Closing Date is the effective date of this IP Assignment, and as provided in the Purchase Agreement, Seller is consummating the Closing relative to the IP Rights by executing and delivering this IP Assignment to Buyer.

NOW, THEREFORE, in consideration of the Purchase Agreement and the Closing thereunder, Seller, intending legally to be bound, agrees as follows:

2. Preliminary Statement. The Preliminary Statement set forth above is true and correct and is incorporated into and made a part of this IP Assignment.

2. Receipt of Purchase Price. Seller hereby acknowledges receipt from Buyer of the initial payment of [REDACTED] and installments in the amount of [REDACTED] for a total purchase price of [REDACTED] as stated in the Purchase Agreement.

3. Sale and Assignment of IP Rights. For value received and effective as of the date hereof, Seller hereby grants, bargains, sells, assigns, transfers, conveys, sets over and delivers to Buyer, its successors and assigns, all of Seller's rights, title and interests in and to the following (collectively, the "IP Rights"):

(a) All formulas and fabrication specifications for the Products (as defined in the Purchase Agreement), including all books and records with respect thereto ("Formulas").

(b) Seller's right, title and interest in and to registered brand names, registered logos and registered trade names for the Products and Formulas, as set forth in Appendix B hereto, together with all related IP Rights, including trade secrets, intellectual and intangible properties, and goodwill associated with the Business as described in the Purchase Agreement.

(c) All of Seller's customer lists used or developed in connection with the Business, including telephone numbers, facsimile numbers, and email addresses, and copies of all files, books and records maintained by Seller relating to the Business, including, but not limited to referral sources, purchase and sale records, service and warranty records, operating guides and manuals, creative materials, advertising materials, promotional materials, web site data and statistics, ownership of the website www.dampcheck.com and all related domain-management agreements and passwords ("Books and Records").

(d) For purposes hereof, the IP Rights include and encompass all of Seller's rights, title and interests in, to and with respect to: (i) trademarks, service marks, brand names, certification marks, collective marks, d/b/as, internet domain names, logos, symbols, trade dress, assumed names, fictitious names, trade names, and other indicia of origin, all applications and registrations for all of the foregoing, and all goodwill associated therewith and symbolized thereby, including all extensions, modifications and renewals of same; (ii) as to Formulas, inventions, discoveries and ideas, whether patentable or not, and all patents, registrations, and applications therefor, including divisions, continuations, continuations-in-part and renewal applications, and including renewals, extensions and reissues; (iii) confidential and proprietary information, trade secrets and know-how relating to the Purchase Assets, including processes, schematics, databases, formulae, drawings, prototypes, models, designs and customer lists; (iv) published and unpublished works of authorship, whether copyrightable or not, copyrights therein and thereto, and registrations and applications therefor, and all renewals, extensions, restorations and reversions thereof; and (v) all other intellectual property or proprietary rights and claims or causes of action arising out of or related to any infringement, misappropriation or other violation of any of the foregoing.

(e) All rights of any kind whatsoever of Seller accruing under or with respect to any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world, and any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the foregoing.

(f) Any and all claims and causes of action with respect to any of the foregoing, whether accruing before, on, or after the date hereof, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief for past, present, and future infringement, dilution, misappropriation, violation, misuse, breach, or

default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

TO HAVE AND TO HOLD the IP Rights unto Buyer, and its successors and assigns; forever. Seller covenants to and agrees with Buyer to warrant and defend the sale and transfer of the IP Rights unto Buyer, its successors and assigns, against all and every person and persons whomsoever. The sale and transfer of the IP Rights shall be and is free and clear of all liens and encumbrances. This IP Assignment is made outright, and not as security.
