This Release of Security Interest in Intellectual Property is made as of February 26, 2020, by Silicon Valley Bank, a California corporation ("Bank") in favor of Loop Labs, Inc., a Delaware corporation ("Grantor") with its principal place of business located at 1530 Blake Street, Suite 220, Denver, CO 80202.

Recital

WHEREAS, pursuant to an Intellectual Property Security Agreement entered into as of July 3, 2019, recorded with the U.S. Patent and Trademark Office as set forth on Exhibits A and B, Grantor granted to Bank a security interest in all of Grantor's right, title, and interest in, to and under its intellectual property (collectively referred to as, the "Intellectual Property Collateral"), including:

(a) Any and all copyright rights, copyright applications, copyright registrations and like protections in each work of authorship and derivative work thereof, whether published or unpublished and whether or not the same also constitutes a trade secret, now or hereafter existing, created, acquired or held (collectively, the "Copyrights");

(b) Any and all trade secrets, and any and all intellectual property rights in computer software and computer software products now or hereafter existing, created, acquired or held;

(c) Any and all design rights that may be available to Grantor now or hereafter existing, created, acquired or held;

(d) All patents, patent applications and like protections including, without limitation, improvements, divisions, continuations, renewals, reissues, extensions and continuations-in-part of the same, including without limitation the patents and patent applications set forth on Exhibit A attached hereto (collectively, the "Patents");

(e) Any trademark and servicemark rights, whether registered or not, applications to register and registrations of the same and like protections, and the entire goodwill of the business of Grantor connected with and symbolized by such trademarks, including without limitation those set forth on Exhibit B attached hereto (collectively, the "Trademarks");

(f) All mask works or similar rights available for the protection of semiconductor chips, now owned or hereafter acquired (collectively, the "Mask Works");

(g) Any and all claims for damages by way of past, present and future infringements of any of the rights included above, with the right, but not the obligation, to sue for and collect such damages for said use or infringement of the intellectual property rights identified above;

(h) All licenses or other rights to use any of the Copyrights, Patents, Trademarks, or Mask Works and all license fees and royalties arising from such use to the extent permitted by such license or rights;

(i) All amendments, extensions, renewals and extensions of any of the Copyrights, Trademarks, Patents, or Mask Works; and

(j) All proceeds and products of the foregoing, including without limitation all payments under insurance or any indemnity or warranty payable in respect of any of the foregoing.

WHEREAS, Grantor has no outstanding obligations to Bank under the terms of the Intellectual Property Security Agreement, and Grantor has requested and Bank has agreed to release its security interest in the Intellectual Property Collateral and terminate the Intellectual Property Security Agreement.

Agreement

Now, therefore, intending to be legally bound hereby, Bank agrees that it terminates and releases its security interest in the Intellectual Property Collateral, terminates the Intellectual Property Security Agreement, and reassigns to Grantor, without warranty or recourse, all right, title, and interest of Bank in, to, and under the Intellectual Property Collateral.
